ALADDIN'S YEARS OF EXPERIENCE

REPUTATION IS THE MOST VALUABLE ASSET. Customers of over FIFTY-FIVE YEARS may write to The Aladdin Company today and know that the management is unchanged, and that they are writing to and dealing with old friends. Who can better know the building needs of the homebuilder or better know how to fill them than the men of Aladdin who originated the Read-Cut System of Home Building—the pioneers of “Do-It-Yourself.”

A large and successful manufacturing firm can be built only upon a foundation of Honesty, Service, and Savings to its customers. Aladdin maintains leadership because it progresses and develops new ideas year after year. All plans and designs are thoroughly studied and correctly engineered before they are offered to the public. Although other companies have come and gone, we at Aladdin are proud of our long existence due to the fine Service and Satisfaction given our customers for over FIFTY-FIVE years. Our Guarantee: “Satisfaction Or Your Money Back.”

Aladdin's Unconditional Guarantee

gives you absolute protection. We GUARANTEE all materials furnished by us for your Aladdin Home to be exactly as represented in our catalog and specifications and as may be modified by your order. We GUARANTEE materials in sufficient amount to complete the home according to the drawings and specifications furnished by us. Further, we assume ALL responsibility for the SAFE ARRIVAL of all materials at destination.

The QUALITY and QUANTITY of all materials, as guaranteed by us, gives you the strongest protection possible when backed by the OLDEST MANUFACTURER of READI-CUT HOMES in the world, with a record of OVER FIFTY-FIVE YEARS of honest dealings with home builders throughout the entire United States and forty Foreign Countries.

W. J. SOVEREIGN, President

ALADDIN ORIGINATED THE READI-CUT SYSTEM OF HOME BUILDING

We have experienced every problem, every situation that can possibly arise in the fascinating project of creating a home, and our instructions, advice, and help have made it possible for inexperienced homebuilders to build their own Aladdin Homes. Over one-half of our customers do all or part of the construction work themselves. No Aladdin Home is offered to the public until our engineers have carefully checked every construction detail. You get the newest in design, plans, and material.

ALADDIN INVITES YOU

to visit our offices located in Davidson Bldg., at Fourth and Washington, (entrance 916 Washington Avenue) and our mill where you can inspect our materials and see the homes being manufactured

"ONE SEEING IS WORTH A THOUSAND TELLINGS"

COME VISIT US

ALADDIN MILLS AT BAY CITY

MAIN BUILDING FOUR BLOCKS LONG. Bird's-eye view of Aladdin Mills. Between five and six million feet of thoroughly dry lumber is housed under cover at all times in the five large Aladdin Mill Buildings shown above. No lumber is piled out-of-doors. Our lumber enters the cars directly from inside storage and reaches you without being subjected to rain or moisture.

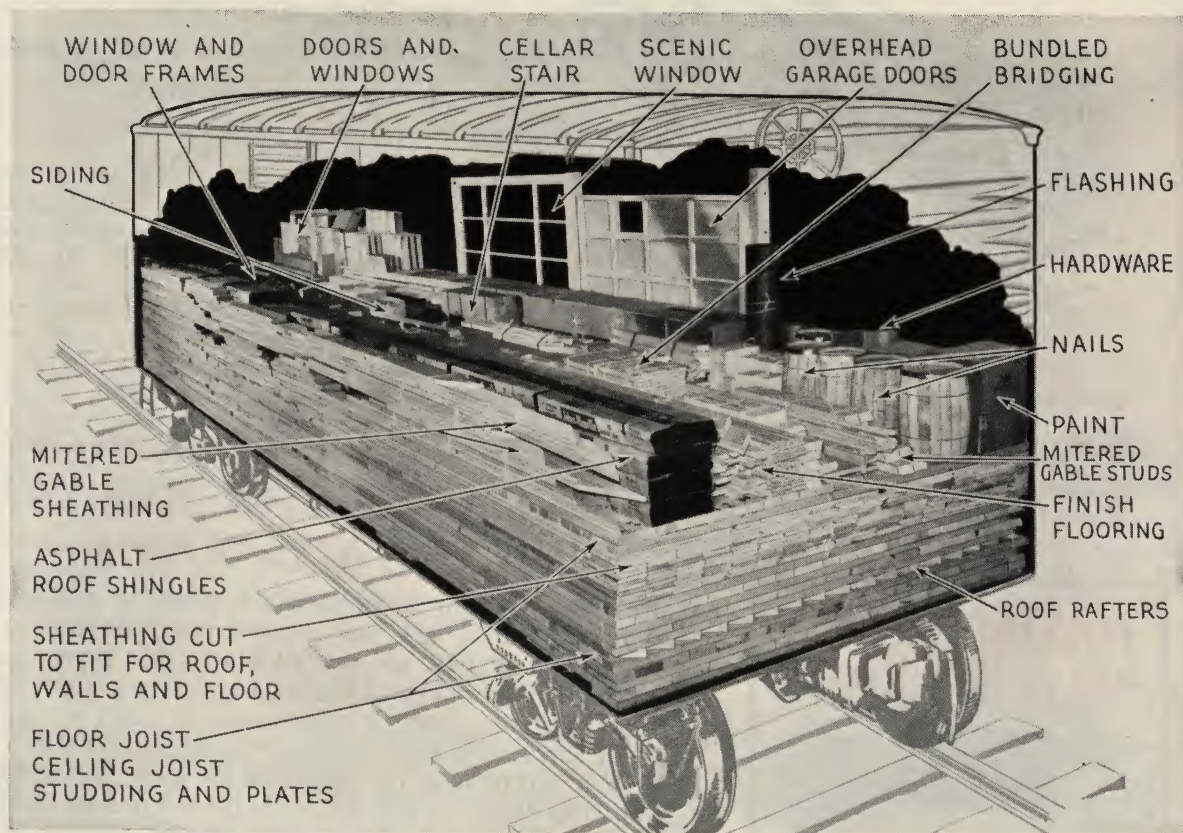

One automatic Aladdin saw can cut to exact lengths 32,000 to 38,000 feet of 1"x6" in an eight-hour day. These electrically operated saws cut with lightning speed and accuracy. This is just one example of the substantial savings we pass on to you by using up-to-the-minute machinery.

Aladdin Read-i-cut Houses are planned by experts, designed by highly trained specialists, and manufactured by skilled workmen in a plant built and operated for this purpose alone. Millions of Dollars have been invested in our facilities to reduce manufacturing costs.

HERE'S HOW YOUR ALADDIN HOUSE IS SHIPPED

The "Phantom" railroad box car pictured below illustrates graphically, by its contents, the manner in which you will receive your Aladdin house. The greatest of care is used by our loading crews, following a detail plan, to insure against damage in shipping. A skilled employee stands at the car door to check off every item against our shipping list. The studding, rafters, joists, and sheathing are loaded first at the bottom of the car. The flooring, finish lumber and other parts of the house are carefully dispersed and braced at the top. You receive, as soon as your house is shipped, a complete bill of materials included in the car. While the cubic contents of this loaded Coronado No. 1 occupy only 1920 cubic feet, when erected the house contains 13,392 cubic feet of staunchly built floors, walls, ceilings and roof. And remember that our unlimited guarantee of sufficient quantities and safe arrival of every item protects you completely.

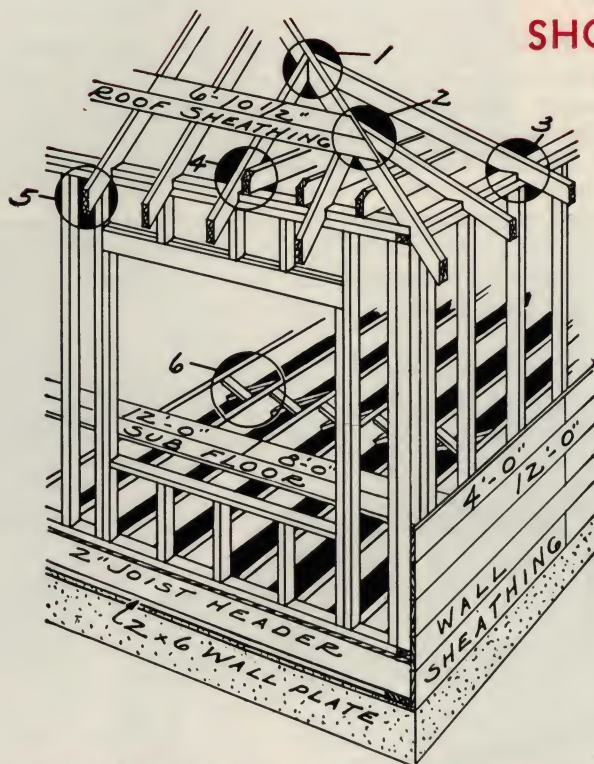

QUICK SHIPMENT

We can ship any regular home in this catalog within ten days to two weeks after we receive your order. The average time required for delivery after leaving the factory is from three to five days. We prefer to be given a little more time if convenient to you. Our homes are shipped complete at one time in a sealed box car from our mill.

WE SHIP COMPLETE HOUSE IN SEALED BOX CAR

EFFICIENT PLANNING SAVES YOU MONEY

SHOWING SAVINGS IN LABOR BY THE READI-CUT SYSTEM

The picture at the left shows how the lumber in your Aladdin house will be cut to fit in our mill, ready to nail in place when you receive it.

Fig. 1—Jack rafters with mitre and bevel at upper end.

Fig. 2—Mitre on end of roof sheathing.

Fig. 3—"Heel" cut on rafters.

Fig. 4—Mitre cut on end of ceiling joists.

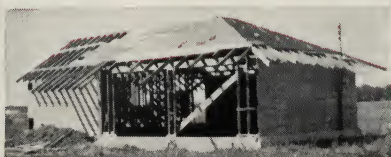

Fig. 5—Mitre on end of rafters.

Fig. 6—Miter on joists bridging.

Wall plates, joist headers, floor joists, wall and sub-floor sheathing, and all studding are also accurately cut to proper sizes and lengths and marked for length and position for easy identification. For instance, each rafter is labeled "RAFTER", each floor joist is labeled "FLOOR JOIST", etc., so that you save precious time in locating each piece of lumber quickly.

YOU SAVE WHEN YOU BUILD THE ALADDIN WAY BECAUSE FACTORY CUTTING AND FITTING REDUCES THE LABOR COST AND ELIMINATES WASTE

WASTE! WASTE!

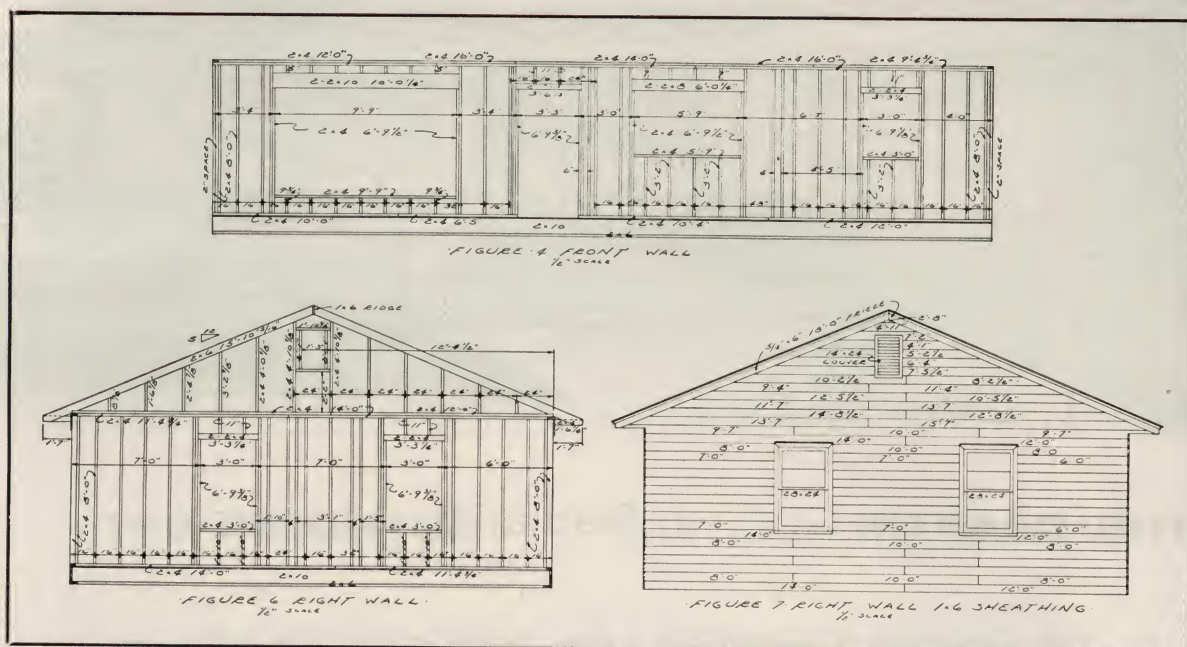

The above actual photograph shows the extravagant waste of good lumber. The 2x6 rafters projecting over the walls will have to be sawed off to have a one foot projection for eaves. The builder will have wasted and thrown in the scrap pile 160 board feet of good lumber, for the rafters alone, worth at retail at least \$20.00.

**ALADDIN READI-CUT
SYSTEM SAVES
TIME AND WASTE**

Waste consumes your dollars and gives nothing in return. It is an established fact that power-driven machines can do BETTER WORK at a LOWER COST than hand labor. The lumber in your Aladdin Home is accurately cut-to-fit by machines, marked and numbered, ready for erection. An Aladdin Read-Cut Home saves considerably on your labor bill because no time need be spent measuring, cutting, and fitting on the job—this has been done in our factory by precision machines, with lightning speed, assuring you of a better-built, stronger, and more substantial home—and a home YOU CAN BUILD YOURSELF. Standard size materials are used in Aladdin Homes which eliminates waste. All millwork, doors, windows, etc. are manufactured to standard sizes, giving you the benefit of quantity production. The Aladdin Read-Cut System of Construction saves thousands of dollars over the old hand-sawn way through scientific planning, designing, and cutting. Aladdin's complete drawings and construction details represent over Fifty-five Years of testing for the best method of construction.

**REMEMBER, THE LUMBER THAT'S WASTED COST JUST AS MUCH
AS THE LUMBER THAT'S USED. ALADDIN SAVES LUMBER WASTE.**

SO EASY TO BUILD YOUR OWN HOME

OUR EASY-TO-READ BUILDING PLANS

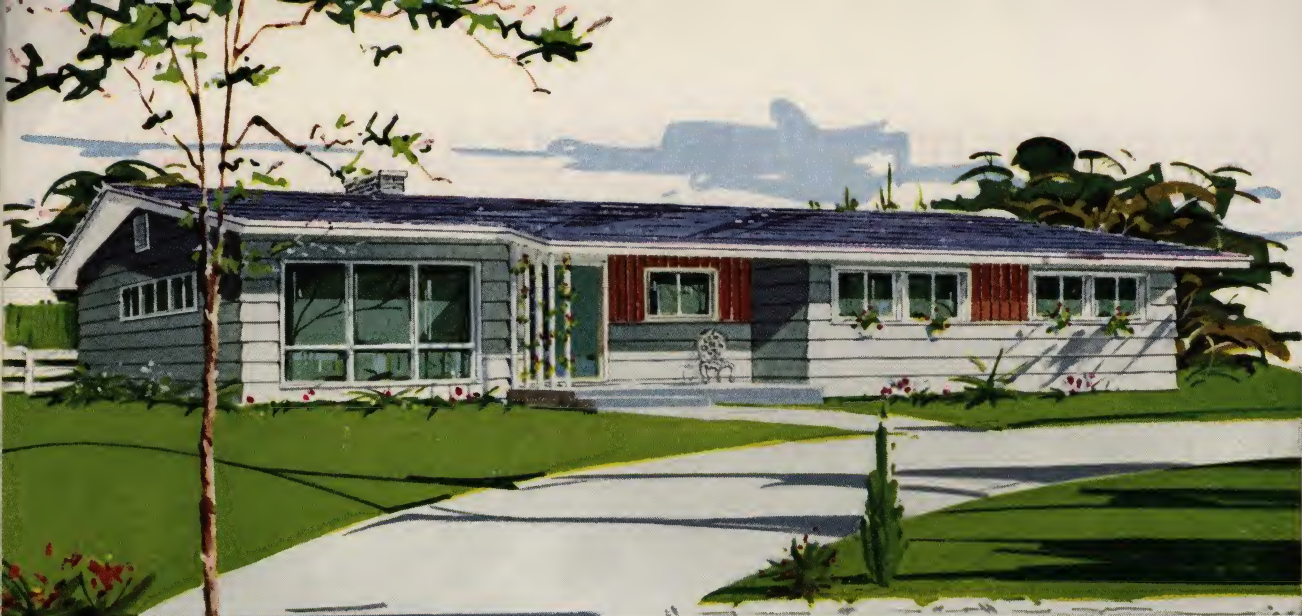

Shown above, in greatly reduced size, are a few figures taken from a set of Aladdin Read-cut House Plans. They show the size, length, and position of every piece of material entering into the construction of the home. All framing and sheathing, including mitered materials, are marked and cut to exact length. All you have to do is nail the materials in place. We also provide a **BOOK OF INSTRUCTIONS** showing how to sort your materials after they are unloaded and explaining every step of the erection. The drawings and Book of Instructions are mailed to you as soon as your order has been processed so you will have them to study and become familiar with all details before your materials arrive.

PAY YOURSELF THOSE HIGH WAGES

Every hour you can put in on the construction of your Aladdin home means a saving to you of from \$2.00 to \$3.00 per hour on its cost. That means a **SAVING** of from \$15.00 to \$18.00 for every day you work on it! Depending on the size of the house, the carpenter work sums up to from three hundred hours to twelve hundred hours. With **MOST** of the **SKILLED LABOR** **ALREADY PERFORMED** and our complete **BUILDING PLANS**, listing every piece of material entering into the construction of your home, you have an opportunity to **SAVE ANY PART, or EVEN ALL LABOR COSTS.**

BUILD IT YOURSELF—SAVE TIME—MONEY

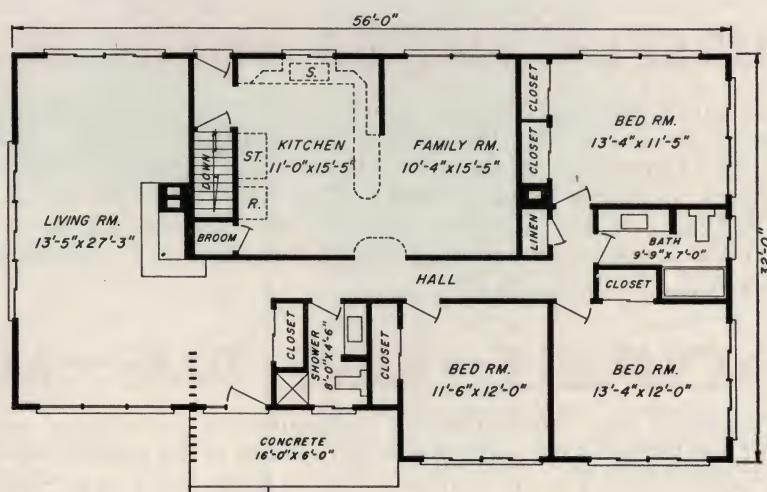

Tremendous public interest in the "Do-It-Yourself" movement is a complete endorsement of Aladdin's "Build Your Own Home" plan—which was first offered to the public over 55 years ago. You can **BUILD IT YOURSELF** **THE ALADDIN READI-CUT WAY** and **SAVE** from 30% up, in **LABOR COST.** But, "Can I do it myself?" you ask. Read the letters on page 66 of this book which are only a few from the thousands received from Aladdin customers who have built their own homes at savings of hundreds and thousands of dollars. Write us for a list of Aladdin Homeowners and visit an Aladdin Home near you.

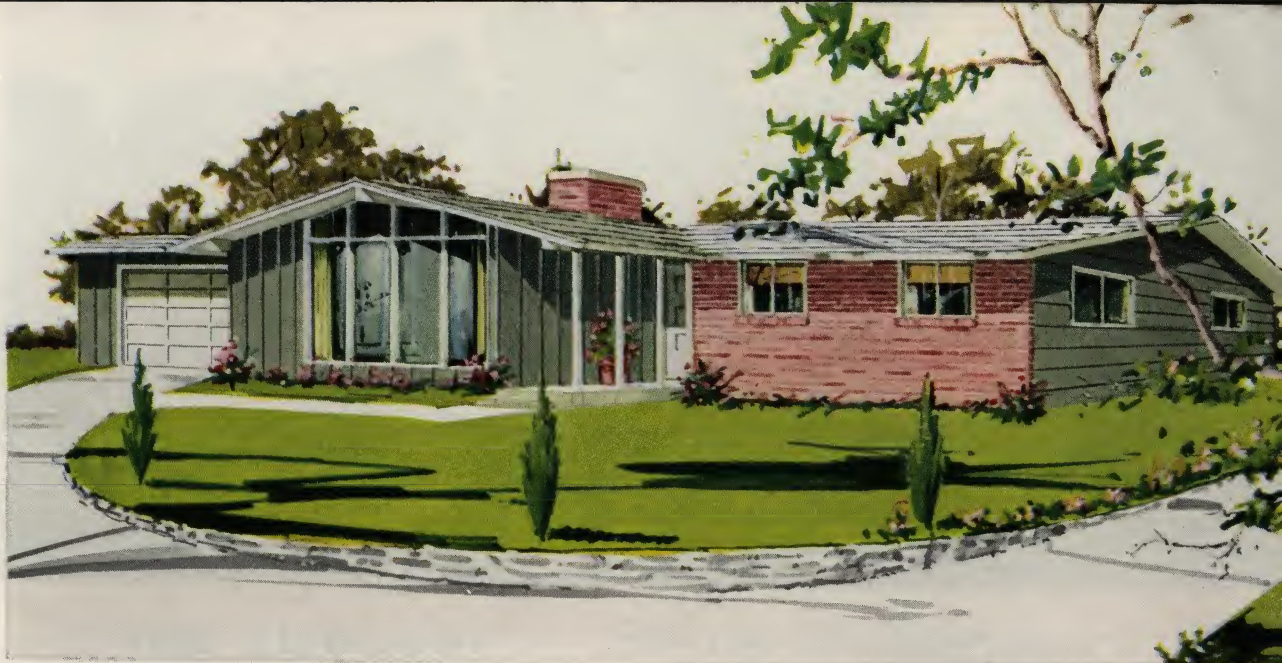

THE CANYON

Radiantly Modern

This modern plan is designed with a fresh, radiant exterior. The front porch provides shelter for the front door which is accented by a long light of glass at the left of the door. The spacious living room is well-lighted with large scenic window in the front, and horizontal sliding windows at the side and rear. There's good circulation from the kitchen-family room through a central hall leading to the three generous-sized bedrooms. Plenty of closet space is available, too. While one bathroom serves all three bedrooms, a lavatory with shower has been placed near the family room and kitchen for convenience. Write for specifications.

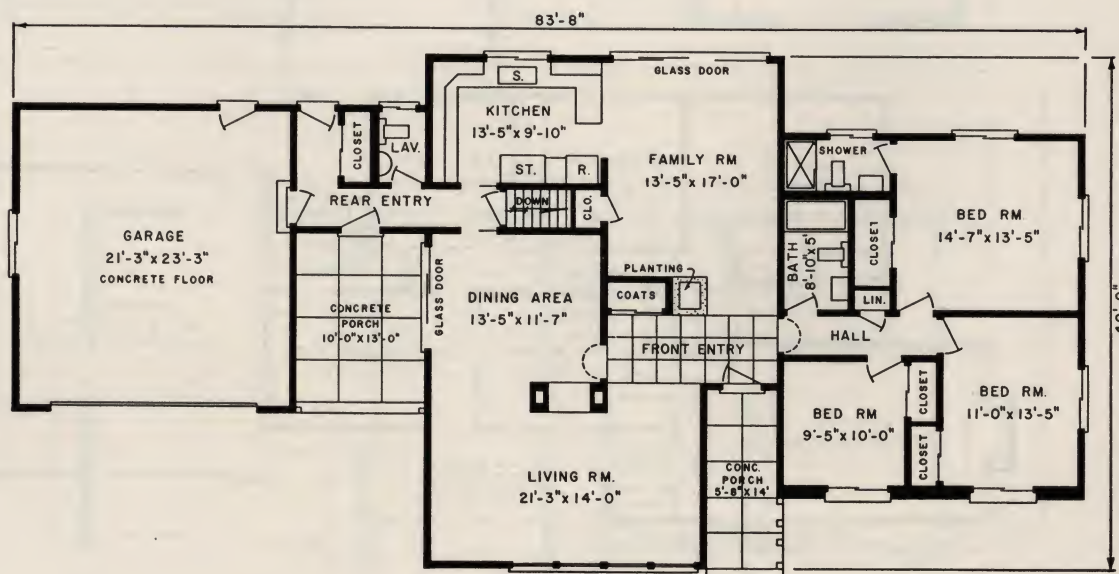

PLAN No. 1

THE BRIGHTON

Fresh, Glowing Beauty

An ultra modern design with two convenient entries at the front, one giving direct access to the living area and bedroom wing and one leading to the kitchen and basement. The ceiling in the living area—front entry, living room, family room and kitchen—will follow the contour of the roof with an exposed beam running thru the center of this entire section at peak of roof. The family room is complete with sliding glass doors which open onto a rear terrace or garden. Insulating glass in front wall of living room. Write for specifications.

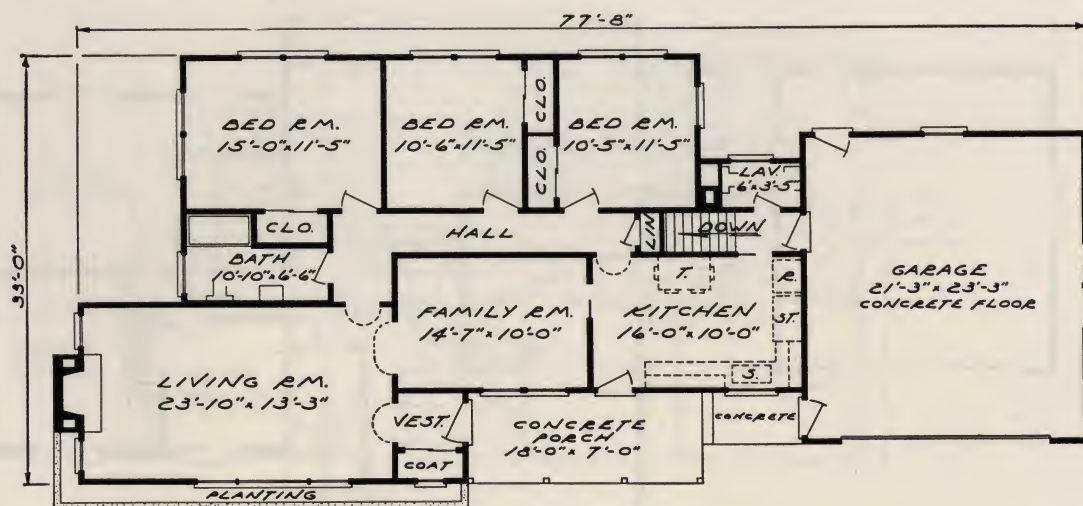

PLAN No. 1

THE ORLANDO

Modern Styling

In this modern design, Aladdin has glamorized the exterior with the charm of herring-bone pattern in the front gables. The contemporary "family room," located between the kitchen and living room, makes possible visiting with the family while the homemaker prepares meals or performs her other household duties. It can also double for a dining room for formal entertaining. Note the central hall which gives access to every room in the house. This is a step-saving arrangement for the entire family. A lavatory is conveniently located to the kitchen and rear entrance thru the garage—a "must" for children coming in from play or for the home gardener. This is truly a home of distinction, suitable for city or country living. Write for specifications.

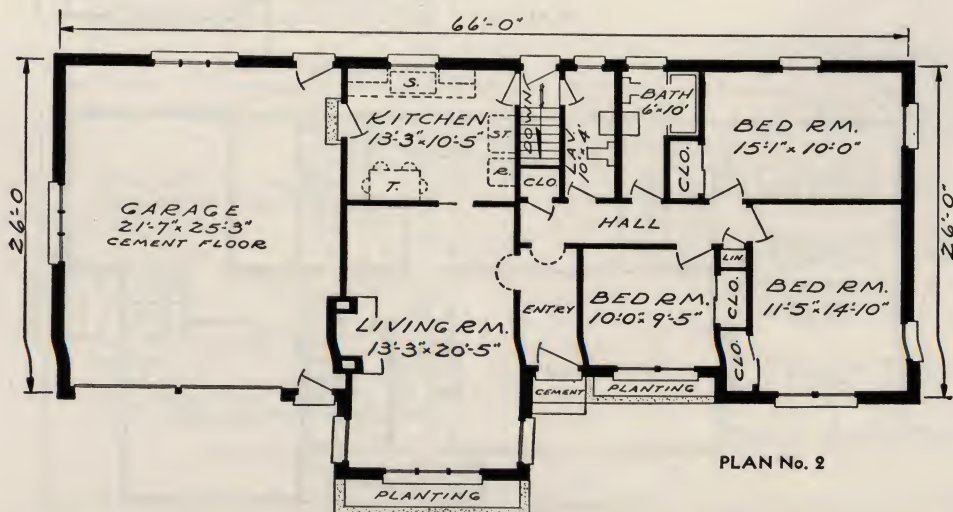

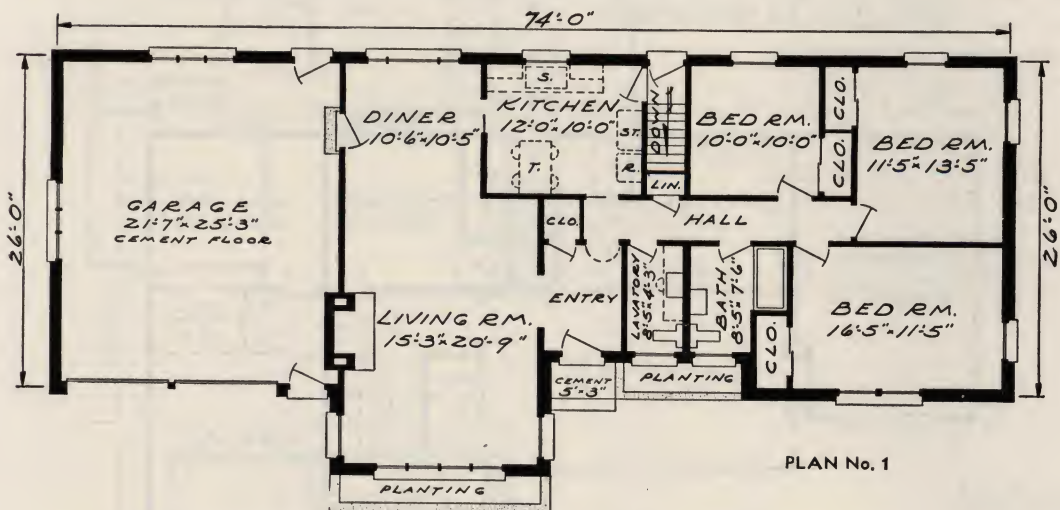

PLAN No. 1

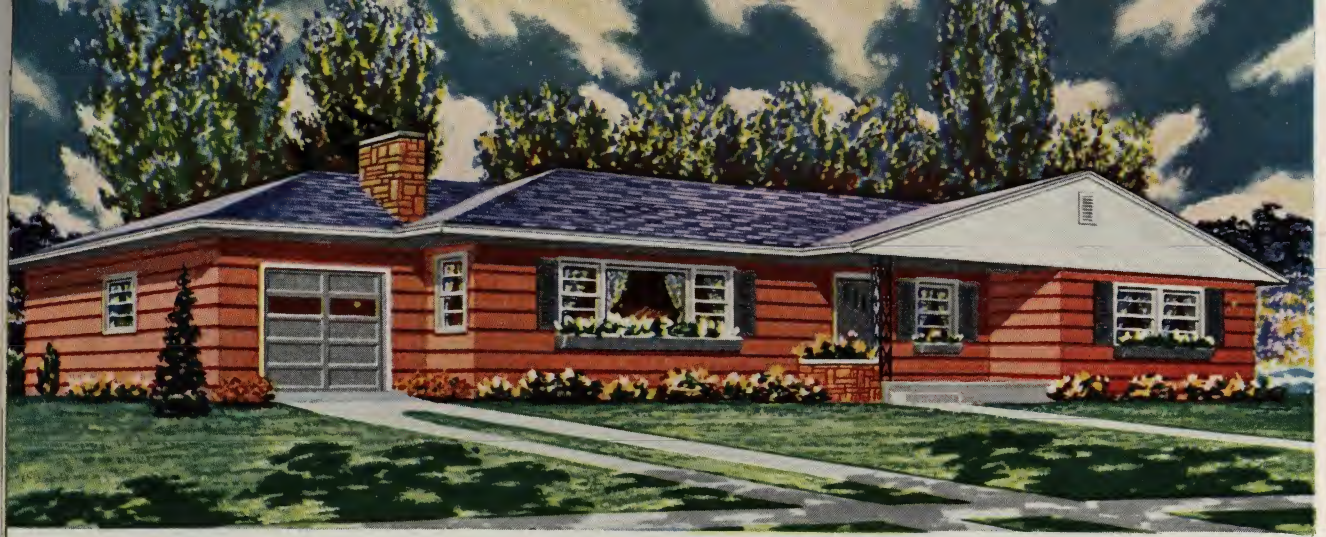

THE EMBASSY

Sense of Grandeur

An architectural masterpiece designed for brick veneer. Note the convenient entry, central hall, full bath and lavatory. Siding quoted for exterior on request. Write for specifications.

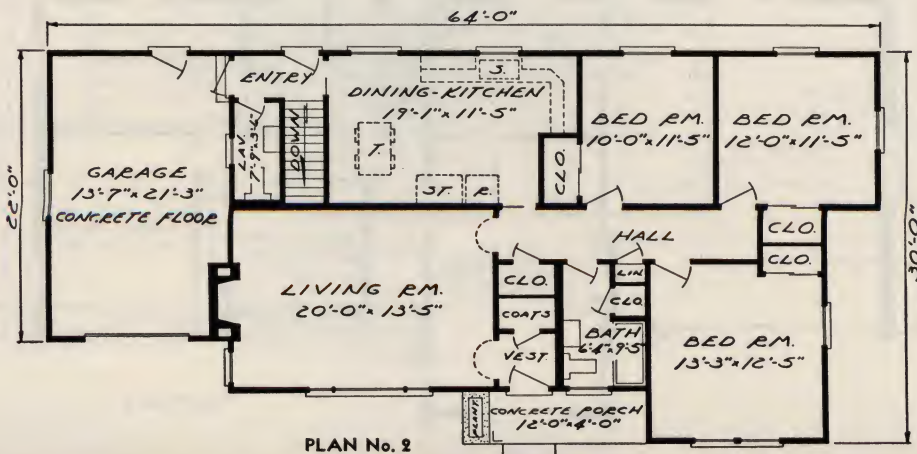

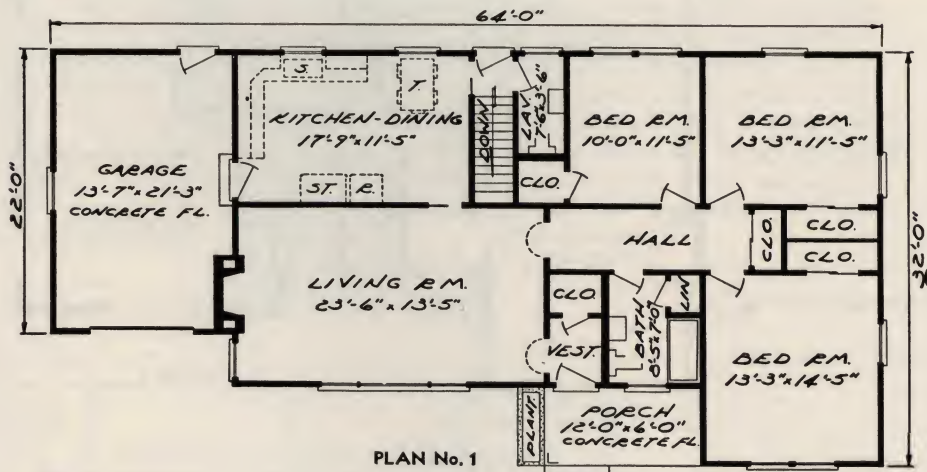

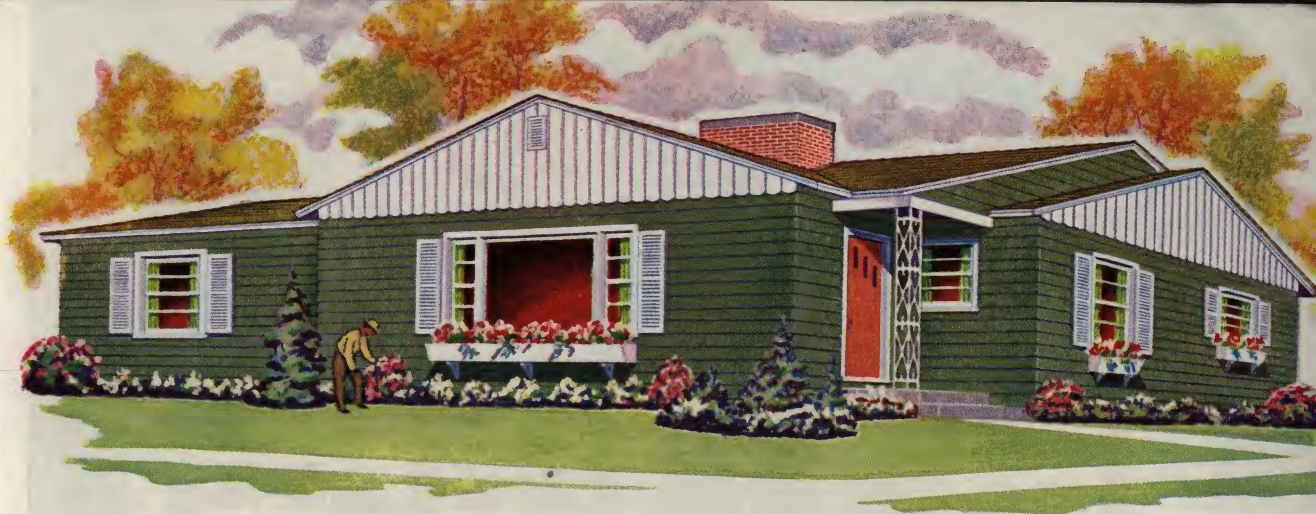

THE DEL RAY

Enduring Beauty

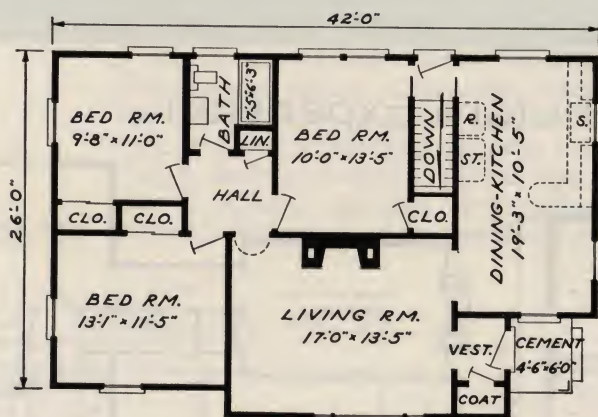

The enduring beauty in the graceful lines of this creation gives distinction and lasting charm to your home. Study the floor plans and note the many desirable features incorporated into this lovely home. Write for specifications.

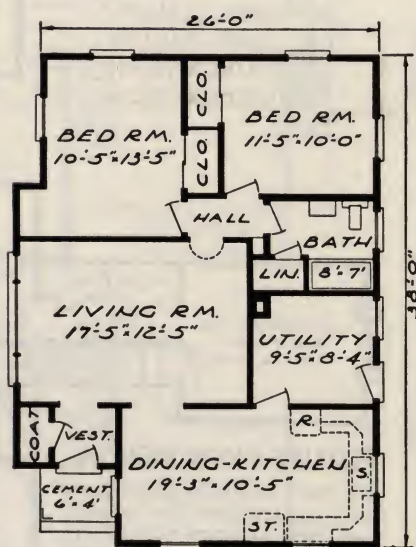

THE EVANSTON

Ideal for Corner Lot

PLAN No. 1

The entrance of this charming home is ideal for use on a corner lot or narrow lot. The scalloped vertical boarding as shown in the gables and the horizontal siding on the body makes possible a wide range of color combinations. In Plan No. 1, the center bedroom is planned so you may use it as a utility room. Both plans have an excellent kitchen arrangement with dining space incorporated. Write for specifications.

PLAN No. 2

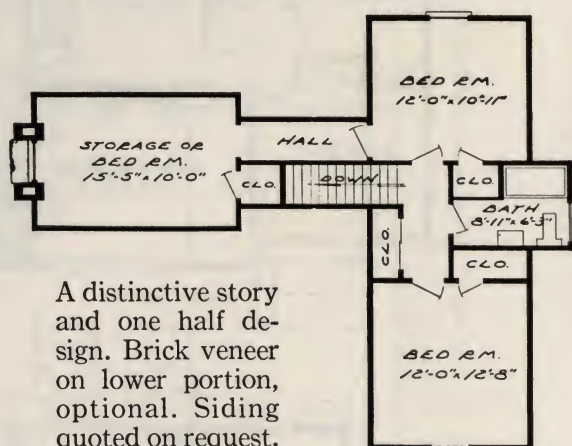

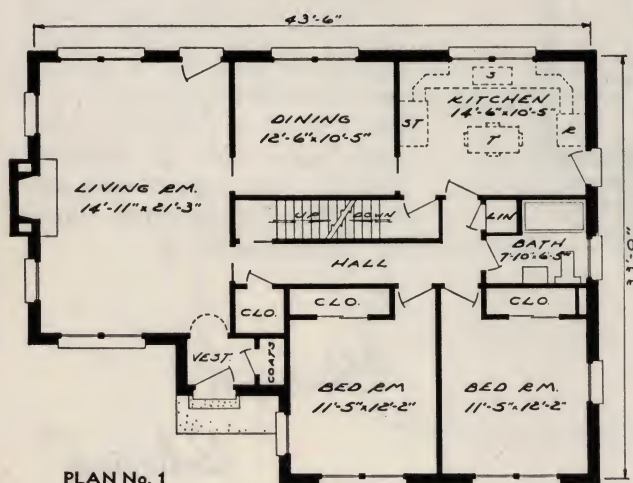

*"Seeing is
Believing"*

Call on Owners

and Addresses.

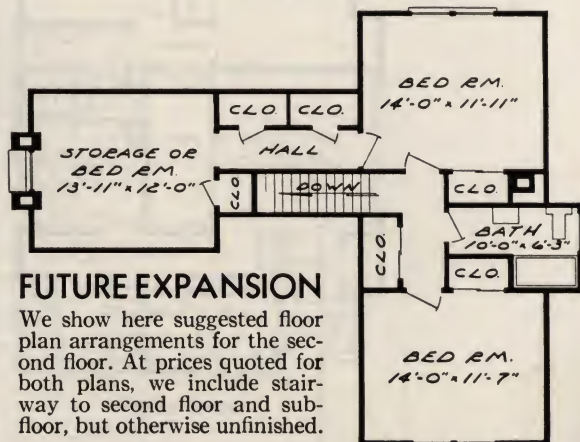

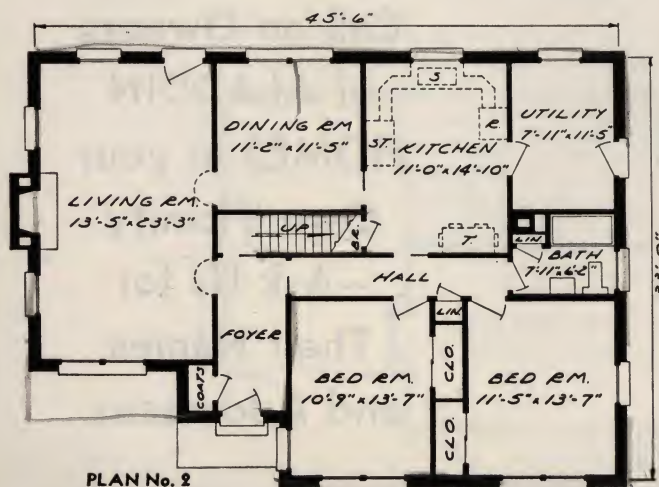

THE KINGSBURY

Future Expansion

A distinctive story and one half design. Brick veneer on lower portion, optional. Siding quoted on request. Write for specifications.

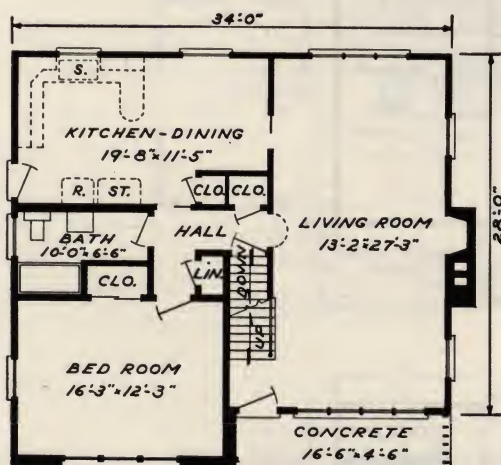

FUTURE EXPANSION

We show here suggested floor plan arrangements for the second floor. At prices quoted for both plans, we include stairway to second floor and subfloor, but otherwise unfinished.

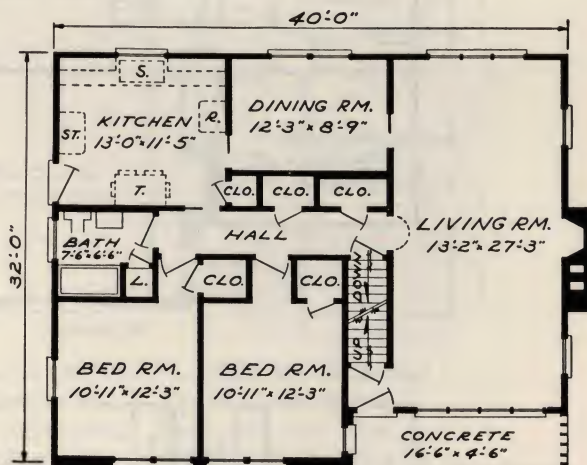

THE MONTEREY Hospitality House

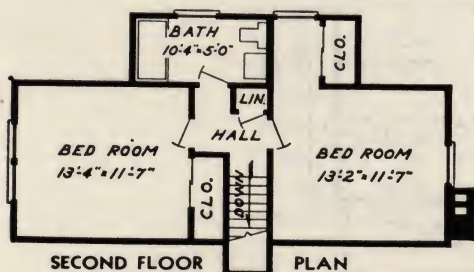

A purely conventional home incorporating all of the modern conveniences. Siding is furnished where brick veneer is shown. The expansive living rooms in both floor plans have beautiful front and rear views thru the large scenic windows. Price on the Plan 1 includes finishing second floor as shown. Price on the Plan 2 includes stairway and subfloor only. Finish materials quoted if desired. Send for specifications.

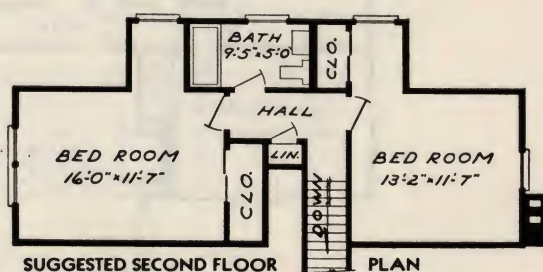

PLAN No. 1

PLAN No. 2

SECOND FLOOR PLAN

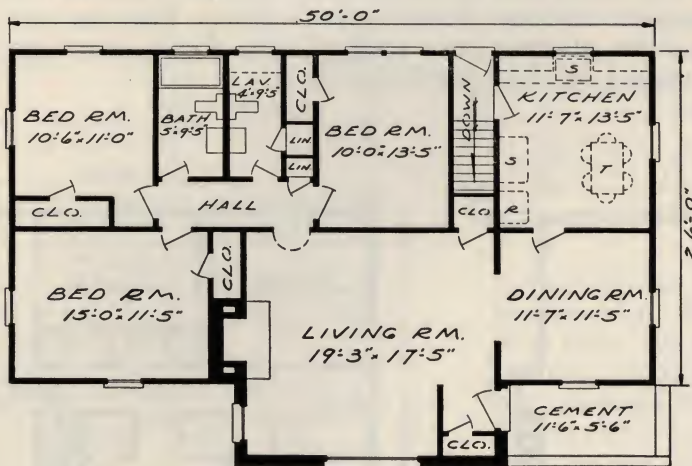

SUGGESTED SECOND FLOOR PLAN

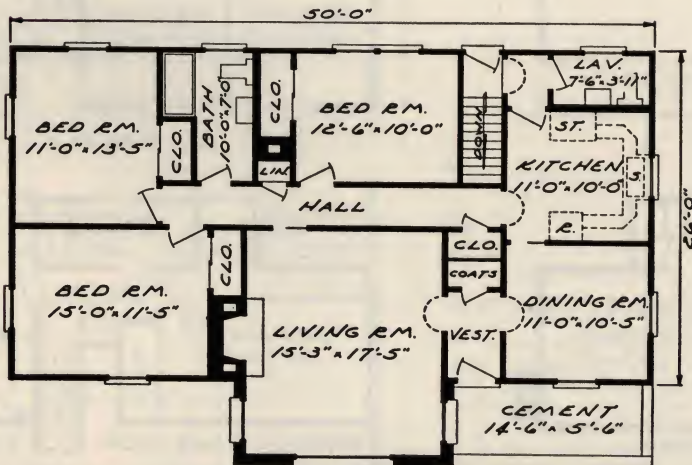

THE EL RANCHO Designed for Comfort

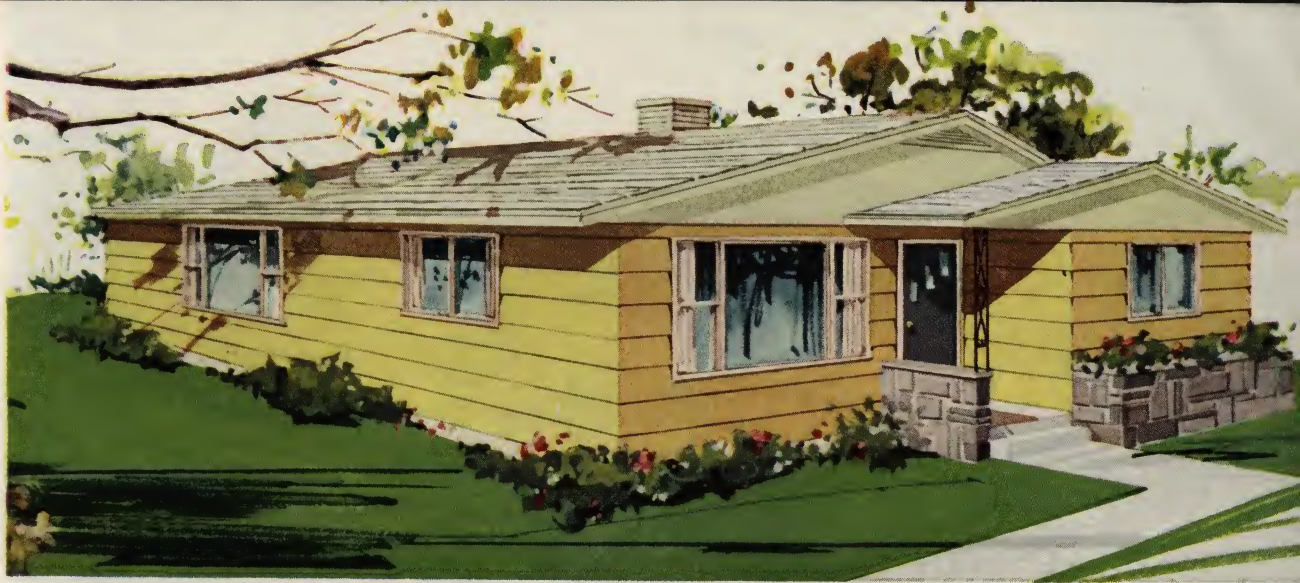

This home is a Modern Beauty. We have included siding where stone is shown on front wall. If you plan to use stone, allowance will be quoted for omission of siding. Write for specifications.

PLAN No. 1

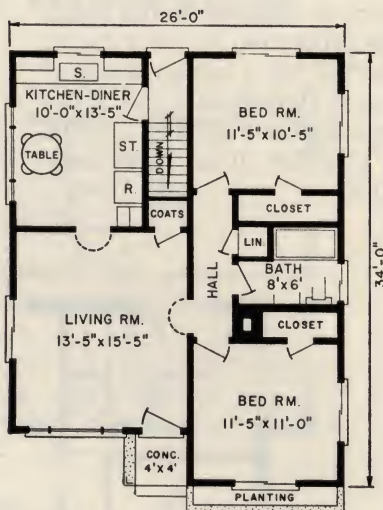

PLAN No. 3

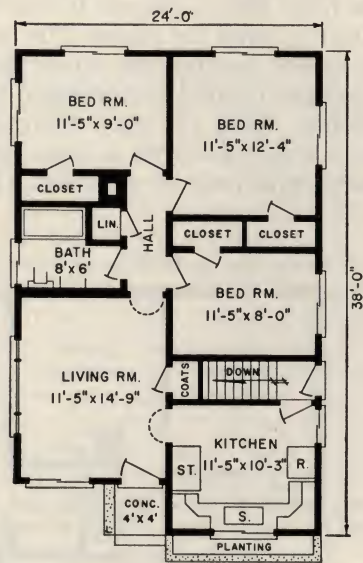

THE FOREST HILL

Narrow Lot Economy

FOREST HILL PLAN No. 1

FOREST HILL PLAN No. 2

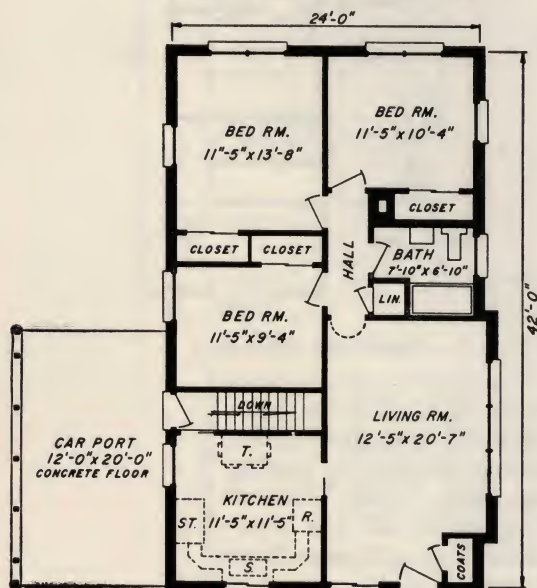

To the economy of the rectangular floor plan has been added the elegance of a front projection. This feature offers additional floor space and a sheltered entrance as well as adding a mark of distinction that spells "home" instead of merely "house". Stone-work (optional) and the ornamental post present a most inviting front entrance. Two floor plans are available for the utmost in style—economy—livability. The kitchen in Plan No. 1 is large enough to allow the luxury of a scenic window in the dining area. The kitchen in Plan No. 2 permits the use of popular U-shaped cabinets. Note the large closets in both plans. Write for specifications.

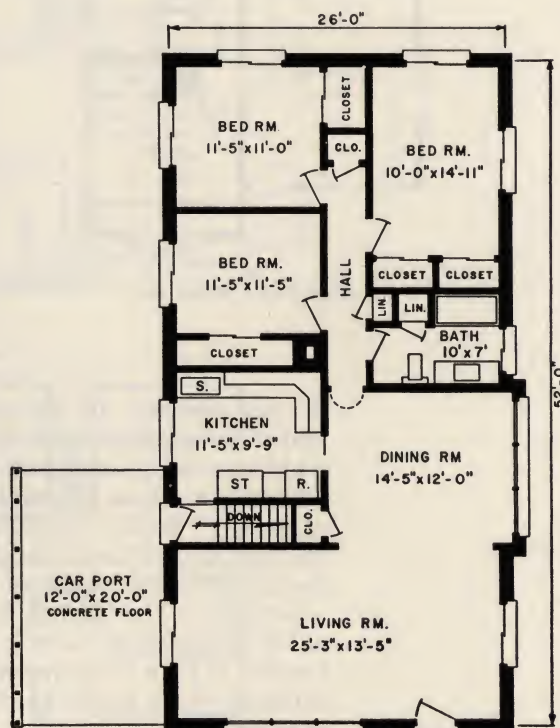

THE AUSTIN

Completely Modern

This home is a striking example of the latest trends in modern home styling. It is designed for use on a narrow lot, priced without siding for brick veneer. (We do not include the brick.) 8" Redwood vertical boarding which can be finished natural or painted with your choice of color is included for the front wall as shown. If you wish to use siding or shingles on the entire exterior, write for prices. The carport provides protection for your car in inclement weather and is included in our price. Plan No. 1 has an excellent U-shaped cabinet arrangement with dining area at the opposite end of the kitchen. Note the open living-dining arrangement in Plan No. 2 with large scenic windows at front and side. Each plan has three roomy bedrooms with large closets. Write for specifications.

PLAN No. 1

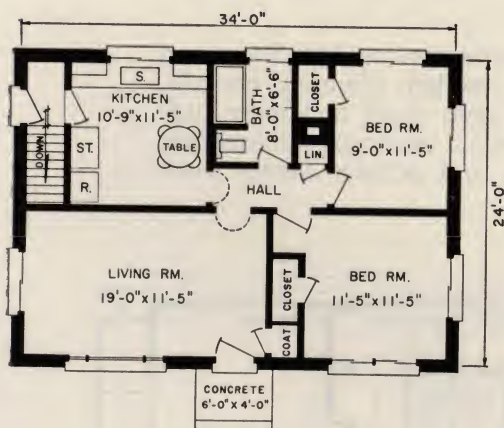

PLAN No. 2

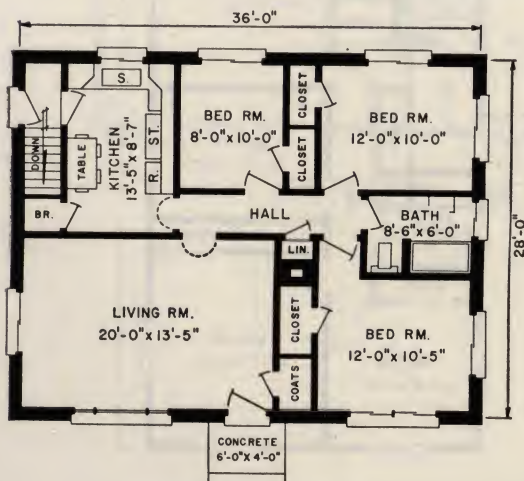

THE GLENVIEW

Charming Simplicity

GLENVIEW PLAN No. 1

GLENVIEW PLAN No. 2

The suggested combination of brick veneer and Redwood Vertical Boarding on this house, combined with wide protecting eaves and gable exposures, make it a welcome addition to any locality. The list price includes vertical boarding where brick is shown. If you wish to use brick, write for allowance for omitting the vertical boarding. Every bit of space in this "compact beauty" has been utilized to provide two floor plans, each with plenty of closet space and a central hall. The short glide windows afford increased usable wall space underneath them. Here is a modest house which achieves the maximum of home comfort, convenience and utility. Write for specifications.

**BUILD YOUR
OWN HOME**

Dear Sirs:

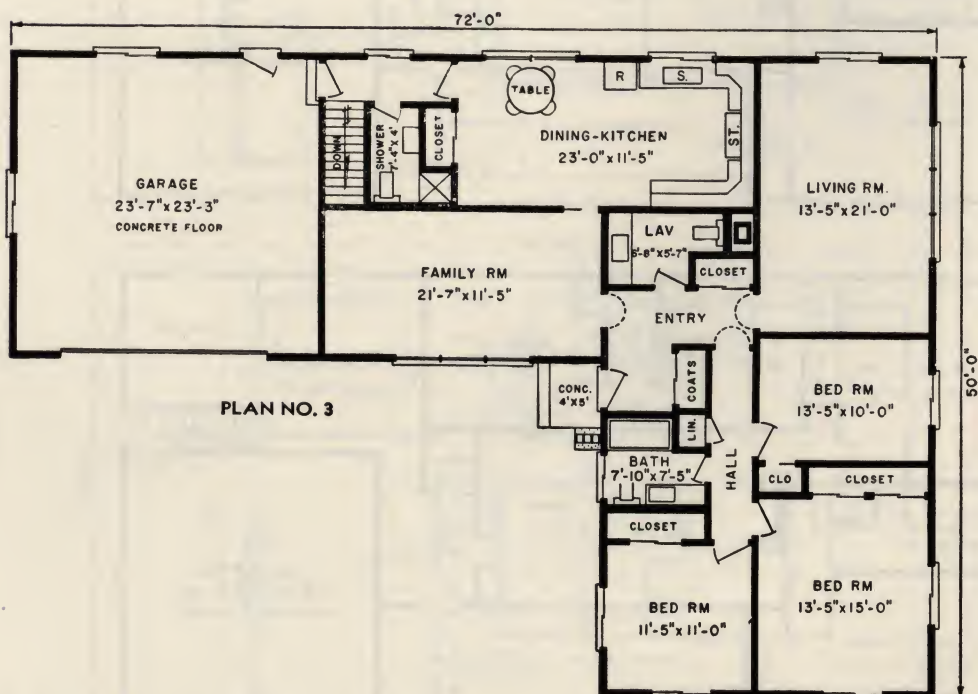

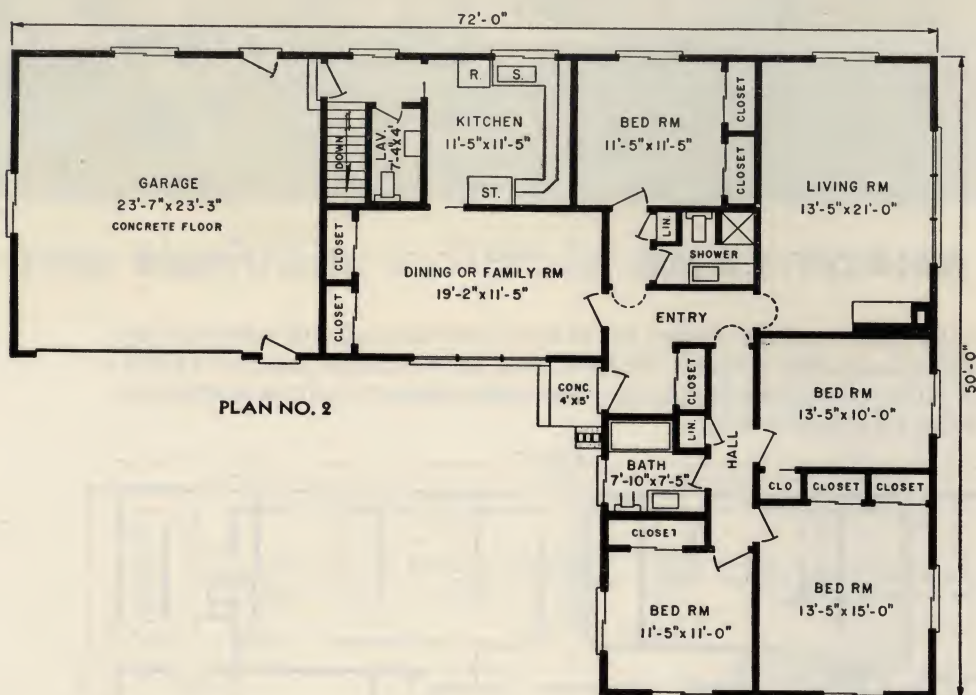

We are pleased with our home and have had so many wonderful comments on the marvelous way in which it went together and the material in it. We find it is the warmest and snuggest house in our community on these cold Wyoming winter nights.

Thank you again for the excellent service you have given us.

H. N. W., Kaycee, Wyoming

THE VERNON

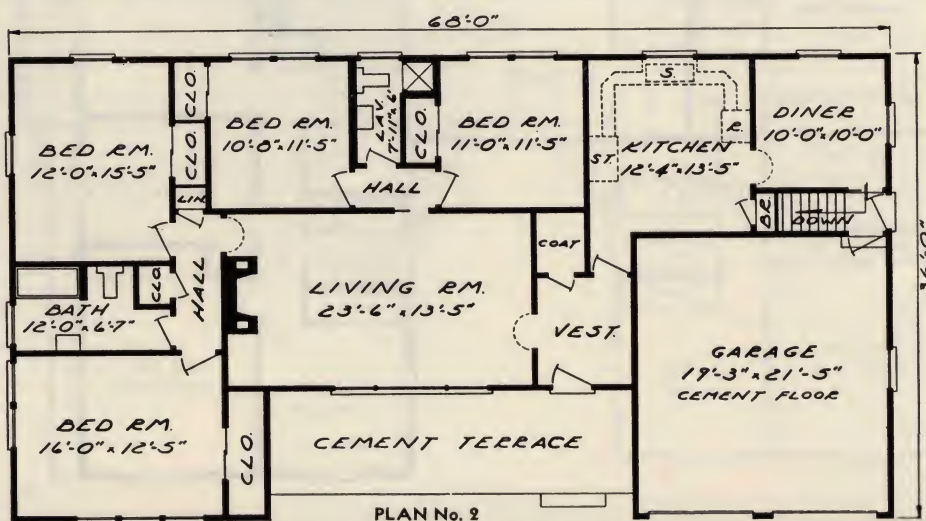

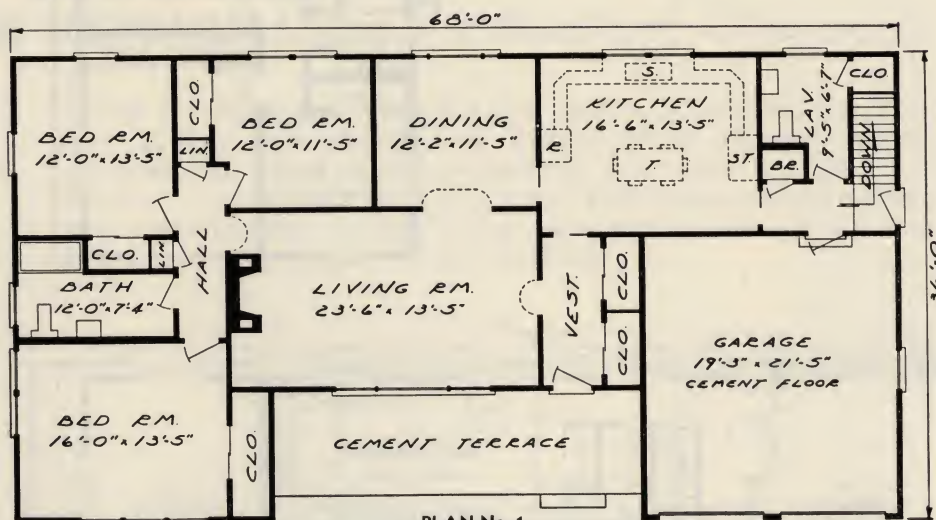

Here are two additional plans of the Vernon—one three bedroom and one four bedroom. Both plans are designed with basement stair. Two lavatories and bath have been added for convenience-plus. Write for specifications.

THE SHADY LANE Comfort and Style

Truly contemporary styling at its finest has been accomplished in the Shady Lane. The centrally located living room, readily accessible from all other rooms is an important, step-saving feature to the homemaker. Write for specifications.

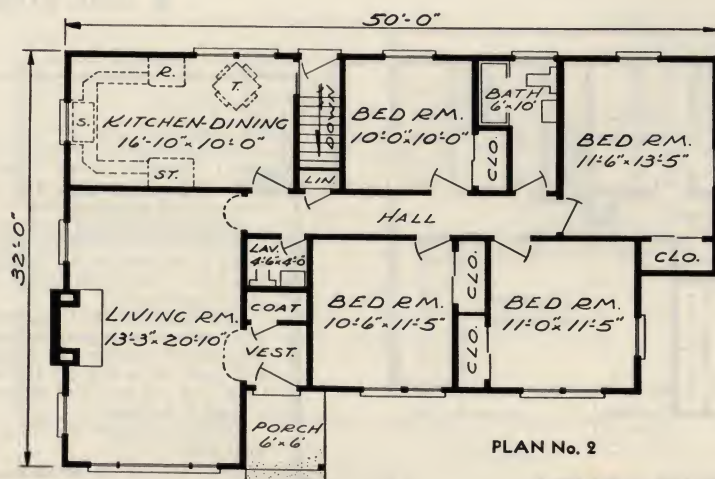

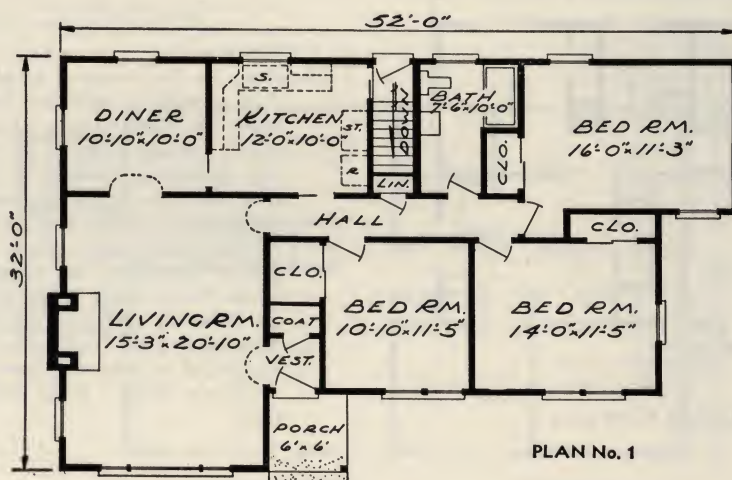

THE DENVER

Stunning Simplicity

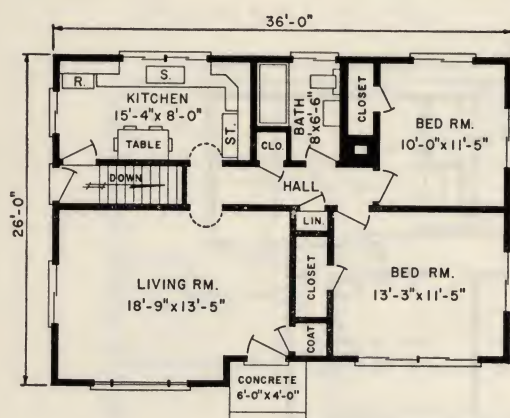

The beauty of simplicity is portrayed in our lovely Denver. You have a choice of a three bedroom plan with separate diner or a four bedroom plan with combined kitchen-diner. Write for specifications.

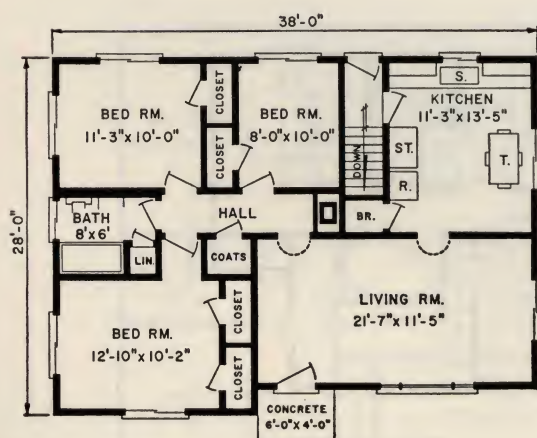

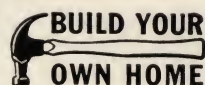

THE SHARLEAR

Modern Simplicity

SHARLEAR PLAN No. 1

Supremely good taste was employed by our designers when they formulated the Sharlear. It is an architectural gem, clean in line, with a simple beauty. Two sizes are illustrated. These plans merit the closest study which will result in highest approval of the skill of the designers. Thoughtful consideration has been given the comfort and needs of the family. Well-proportioned rooms, ample closet space, and step-saving placement of communicating rooms testify to the values of the Sharlear. The low pitch roof, wide eave projection, sheltered entrance, and extended gables mark this home as one of Aladdin's "Best." Write for specifications.

SHARLEAR PLAN No. 2

Gentlemen:

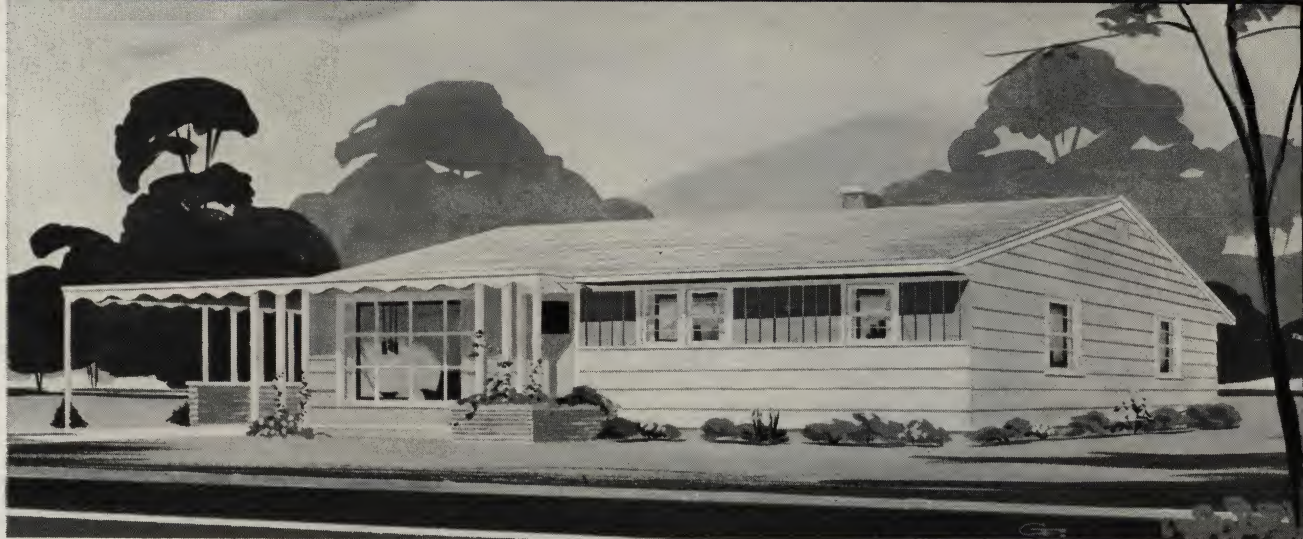

I consulted two first rate contractors here on the construction of my home. As a comparison I naturally asked them for competitive bids on a custom job, with the precise duplicate of your specifications.

Neither one would attempt to compete with you, as they both stated they would endanger a loss to themselves by duplicating your specifications. Congratulations, gentlemen, you prove your point!

One fact, which I appreciate as much as good materials, is your manner of doing business; when a person can negotiate thru catalog and mail, on a subject the size of my Shady Lane and not run into snags of any nature, it is hard to believe.

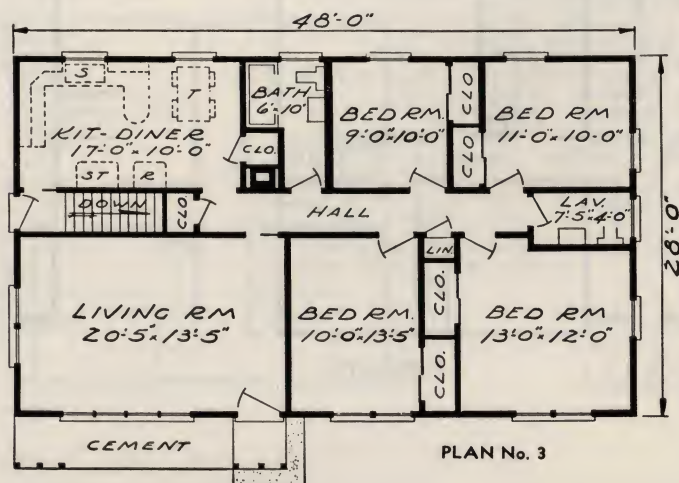

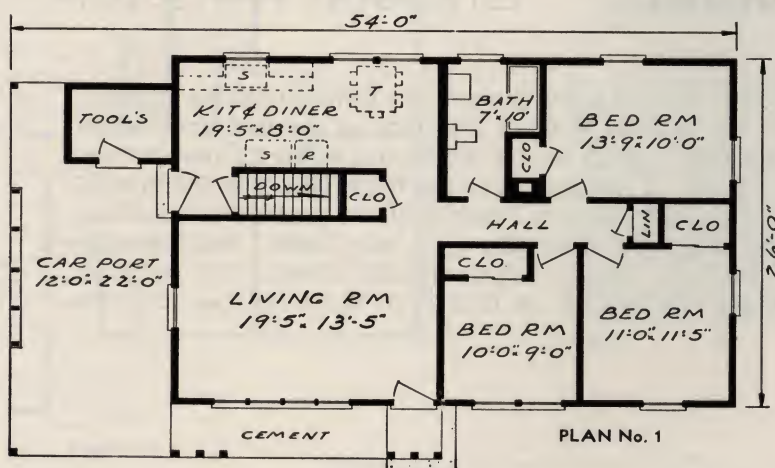

Thank you again for the pleasure of dealing with you.

D. H. B., Altoona, Pennsylvania

THE FRIENDSHIP With Sheltered Entrance

The simple, well proportioned lines of this design make it truly a "friendly" home. The Plan 1 includes the carport and tool storage which can be omitted and credit given you, if you prefer. These extra features are *not* included in the Plan 3 but will be provided at an additional cost. Write for specifications.

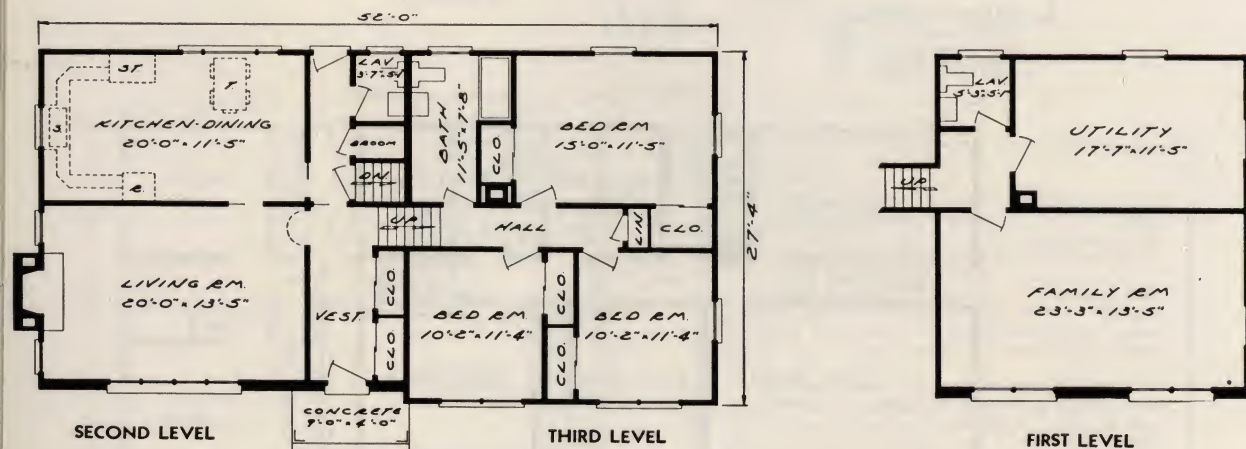

THE CORNELL

Graceful Tri-Level

This gracious tri-level home presents the utmost in living comfort. Although the exterior walls of the front of the first and second levels are shown in brick veneer, we furnish siding for that portion at the list price. If you intend to use brick veneer as illustrated, write us for the allowance for omission of that portion of the siding, paint, and nails. The vestibule, with twin closets, leads directly to all rooms in the house, as does the rear entrance. No partition materials are included for the first level. Write for specifications.

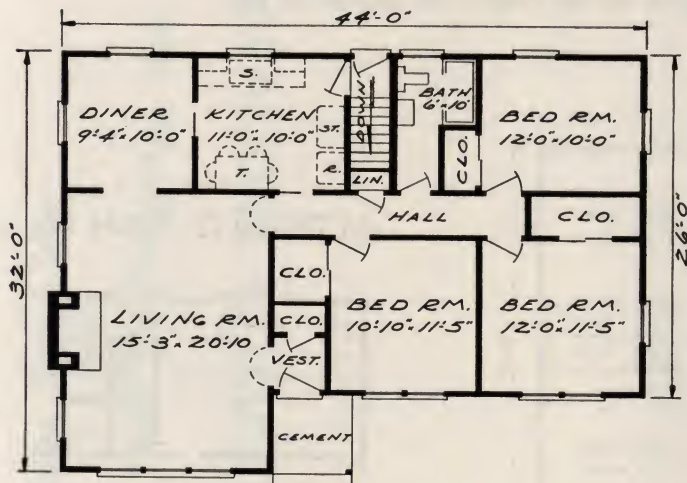

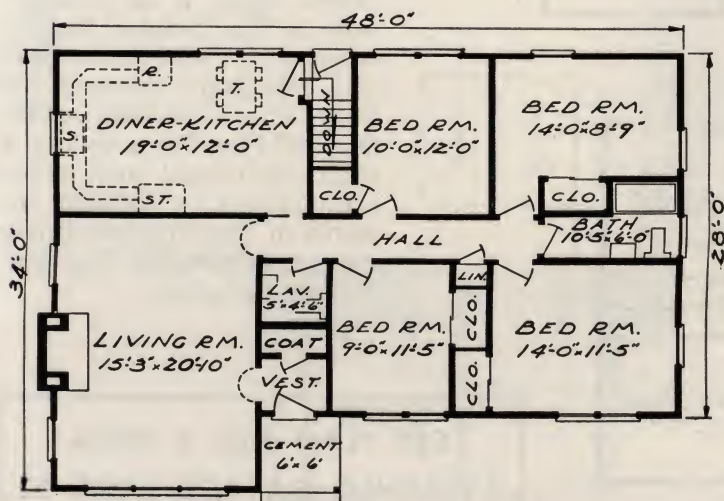

THE AMBASSADOR

Well Planned

The natural beauty of Redwood vertical boarding combined with your choice of paint color for the bevel siding provides a pleasing contrast for the exterior of this home. Excellent planning is the keynote—each plan has a central hall giving direct access to all rooms from the kitchen. Plan No. 1 is designed with three bedrooms while Plan No. 4 has four bedrooms. Write for specifications.

SAVE
MONEY

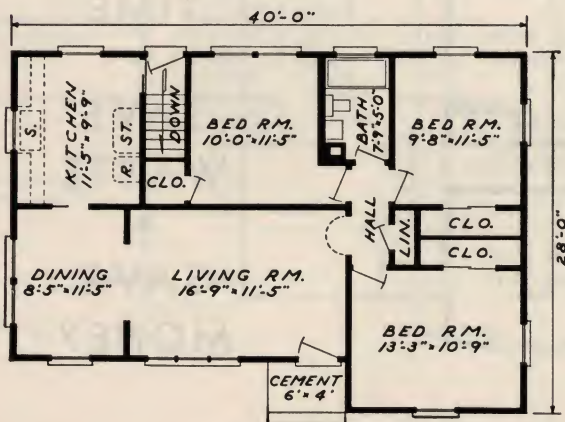

THE VENTURA

Western Inspiration

This Western ranch style home with its low hip roof, three good size bedrooms and large living area, is one of our most popular designs. Its exterior beauty and convenient layout meets the desires of any family. Write for specifications.

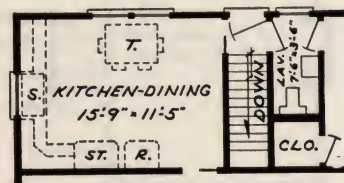

PLAN No. 1

PLAN No. 2

ALTERNATE PLAN No. 1

Shown above is an alternate plan for the Number One arrangement. You will note there is a half bath—lavatory and toilet. This is available in Plan One and Plan Three only, at a slight additional cost, and is accomplished by reducing the width of the kitchen-dining room approximately four feet. Write us for prices.

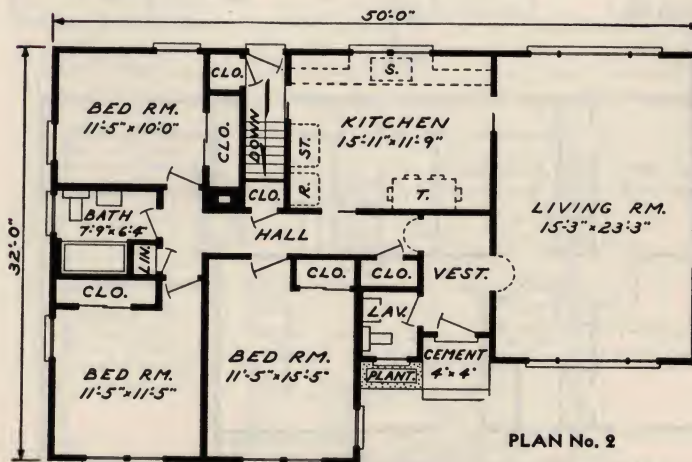

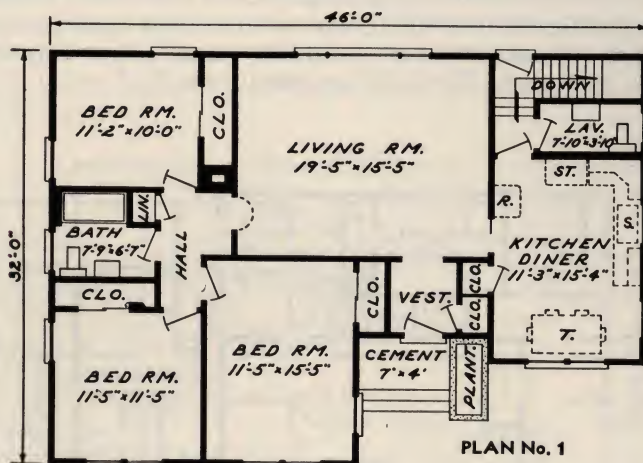

**SEE PLAN NO. 3 WITH
ATTACHED GARAGE PAGE 63**

THE PINECREST

A Joy to Live In

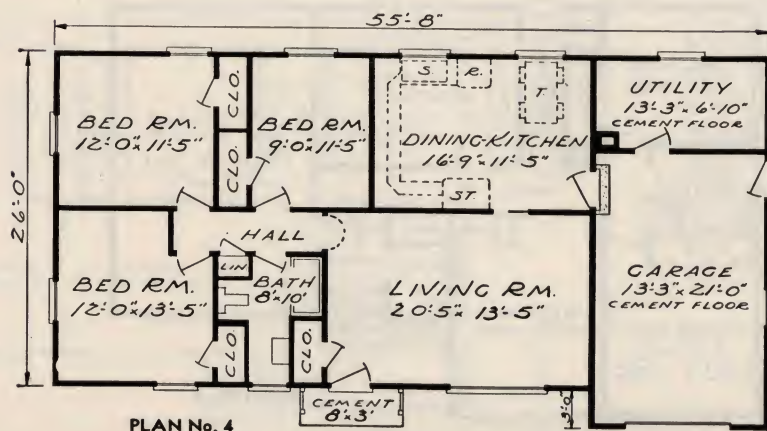

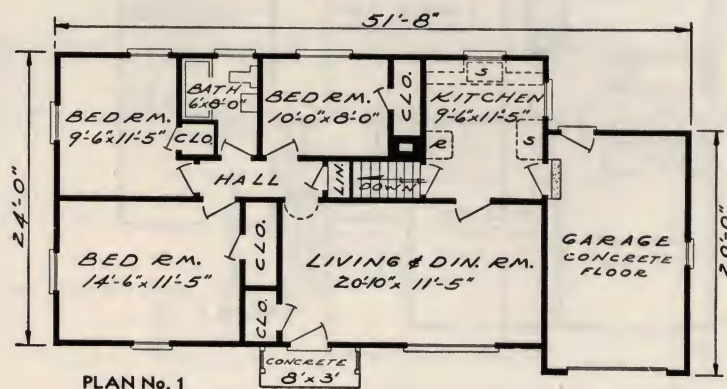

A wealth of convenience has been engineered into this design. See how all rooms in Plan No. 2 are accessible from the vestibule and central hall. Write for specifications.

THE CORONADO Handsomely Detailed

Lovely to look at—a joy to live in! Original in form and entrancing in detail is the Coronado with its contrasting exterior treatment. It offers a splendid opportunity for individual expression in color combinations. Note the hooded entrance with its beautiful wood lattice supports. Two convenient floor plans. Write for specifications.

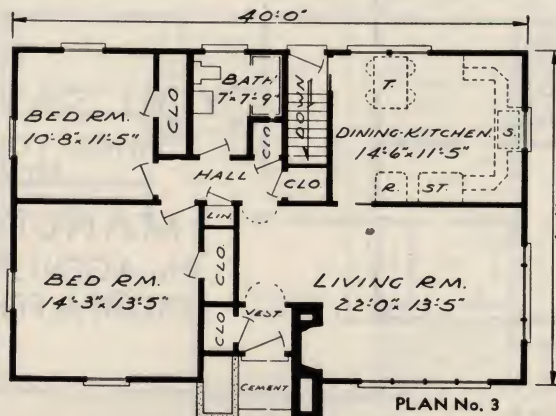

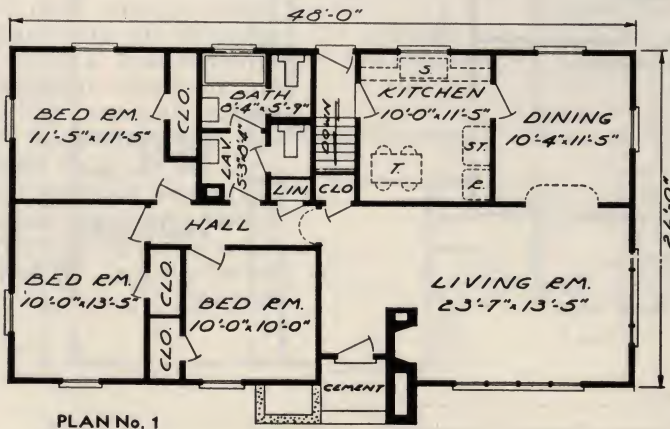

THE SANTA FE

Styled With Dignity

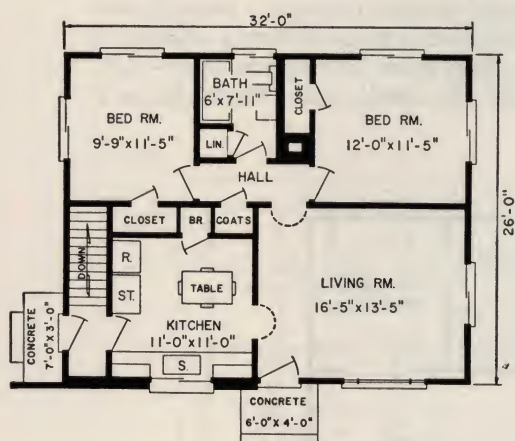

This home is fascinating in its simplicity, and because of the rectangular design, it is also economical to build. While the large chimney adds charm, its construction is optional. Two floor plans are shown here—one with three bedrooms and one with two bedrooms. Write for specifications.

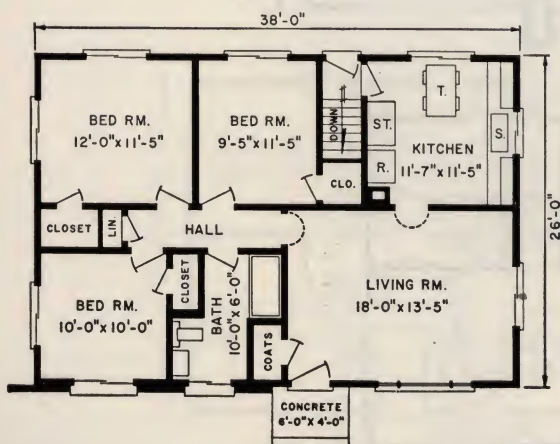

THE CLIFTON

Carefully Compact

CLIFTON PLAN No. 1

Designed for ultimate living in an economy of space. "A place for everything" is the rule our Aladdin designers used in planning this home. Plan No. 1 even provides for that long-desired broom closet. The use of brick on the front (optional), ornamental supports for the canopy, and the removable "snap-on" grids for the glide window add distinctive finishing touches. 8" bevel siding is the suggested exterior although cedar shakes can be substituted. Write for specifications.

CLIFTON PLAN No. 2

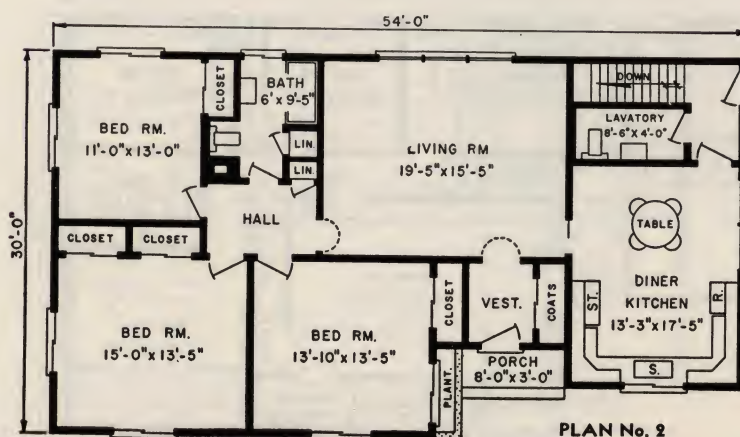

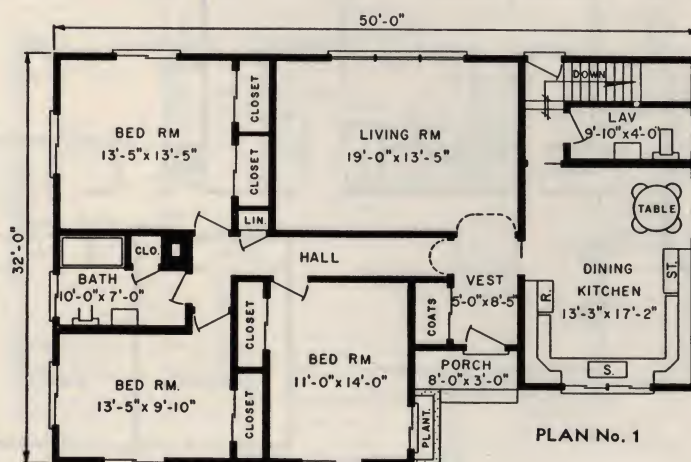

YOU SAVE MONEY
WHEN YOU BUY DIRECT
FROM THE
MANUFACTURER
No AGENTS' OR DEALERS'
PROFIT in PRICE You Pay US

THE FULTON

Striking Contrast

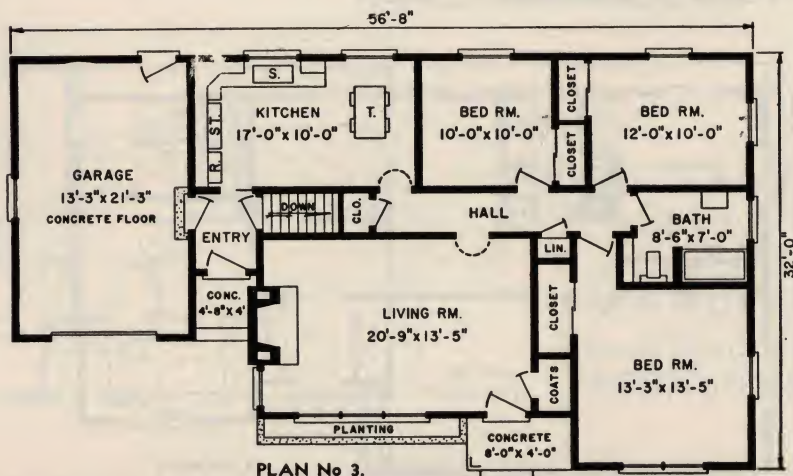

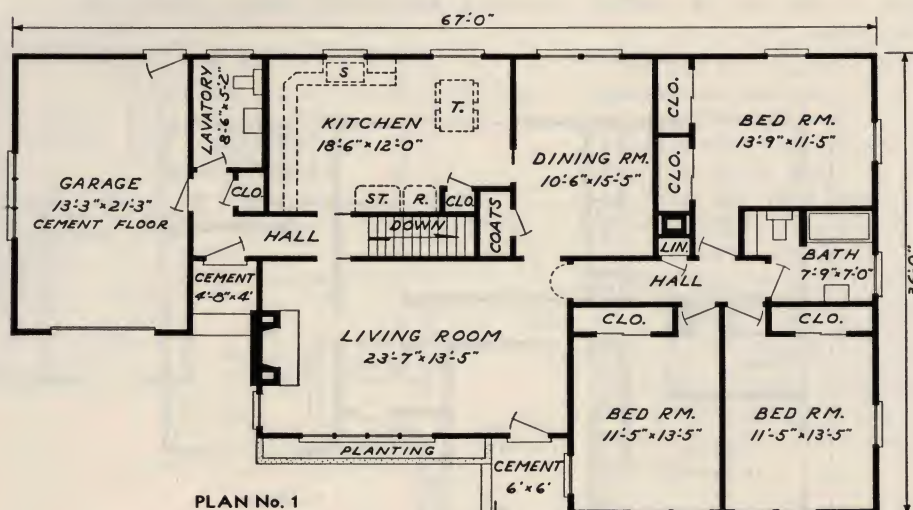

Two excellent plans are shown below—packed with values—generous room sizes, lavatory, vestibule, and many closets. Notice the striking contrast in the use of vertical boarding and bevel siding. Write for specifications.

THE HOLLYWOOD Beauty and Harmony

The virtues of good modern styling are shown in this simply detailed ranch home. The dining room in Plan No. 1 can be easily converted to a fourth bedroom. Further details and price on this change will be furnished on request. Write for specifications.

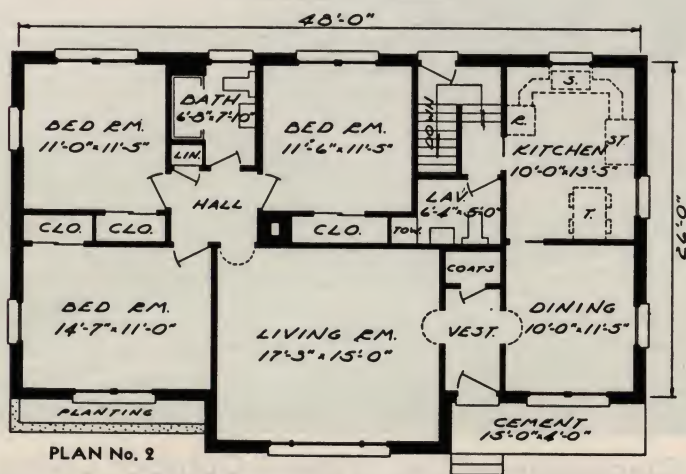

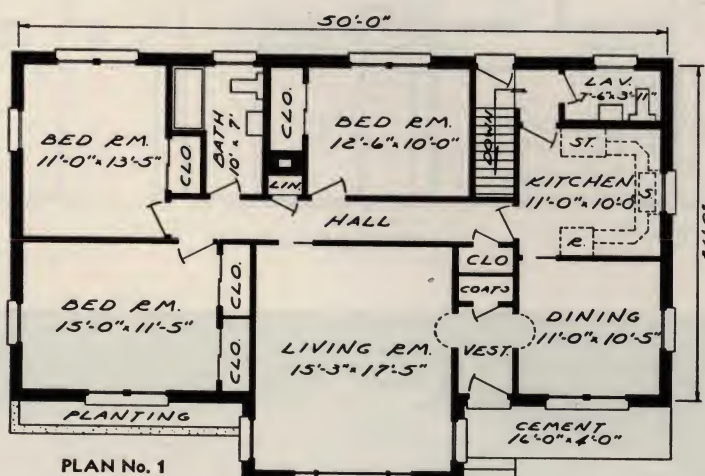

THE WILSHIRE

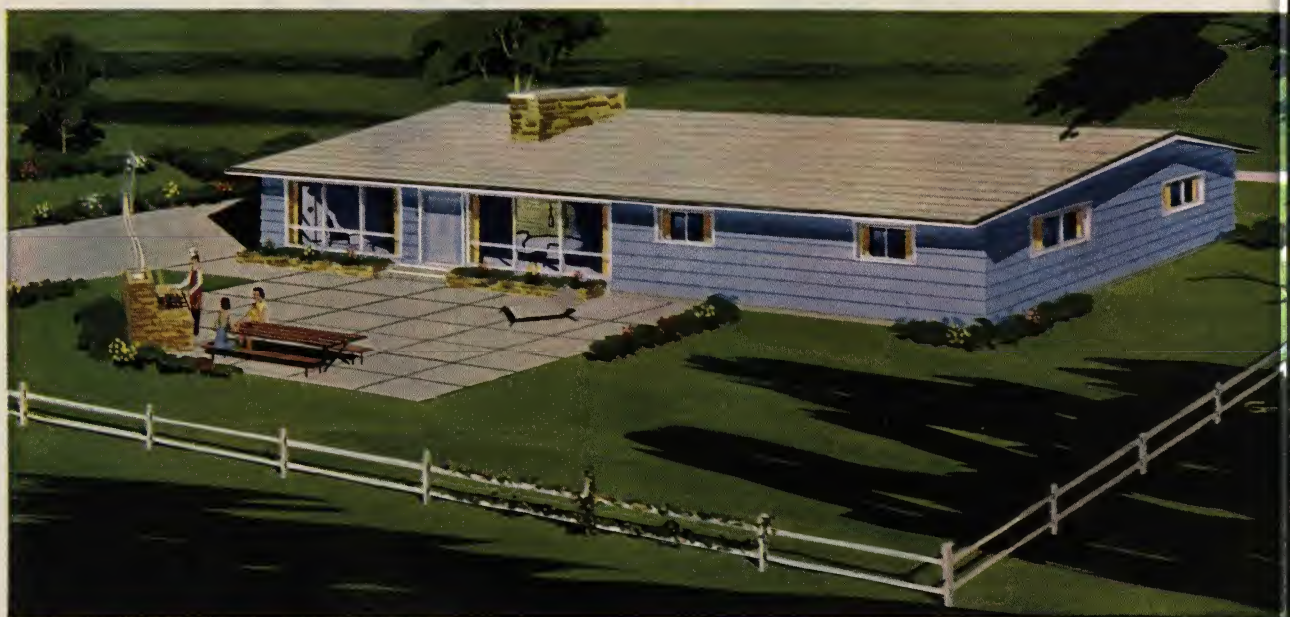

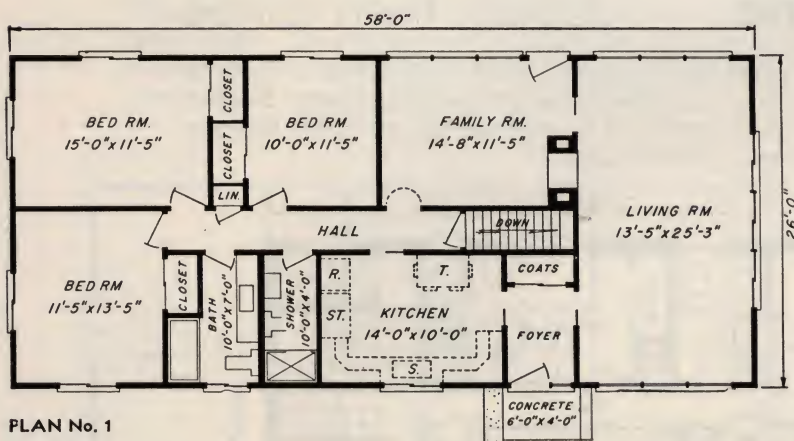

Neat, Trim Lines

Convenience and practicality are packed into this design. Write us for prices if you wish to use siding instead of brick as shown. Kitchen and dining room can be combined by omitting the partition. Write us for further details and specifications.

THE CLARKSDALE

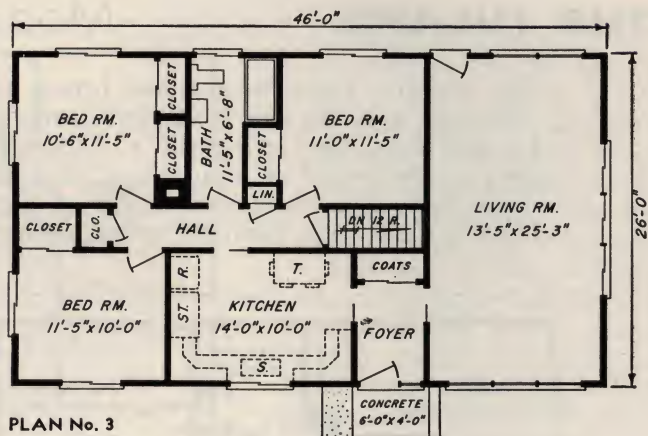

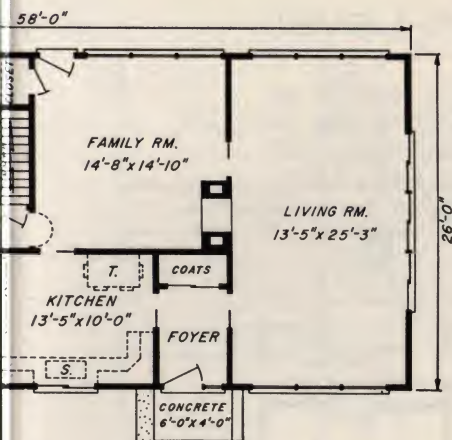

Indoor-outdoor living reaches a peak of well-organized efficiency in this ranch plan. The rear door is placed to give direct access to your patio from the living room or family room. Large scenic windows in the family room and living room overlook the patio. The popular family room has become essential in today's mode of living. Its location at the rear affords privacy but is convenient to every part of the home. The kitchen with its front outlook is a refreshing change, and cabinet arrangement is planned for utmost convenience. Plans No. 3 and No. 4 offer the economy of smaller size without the family room. Write for specifications.

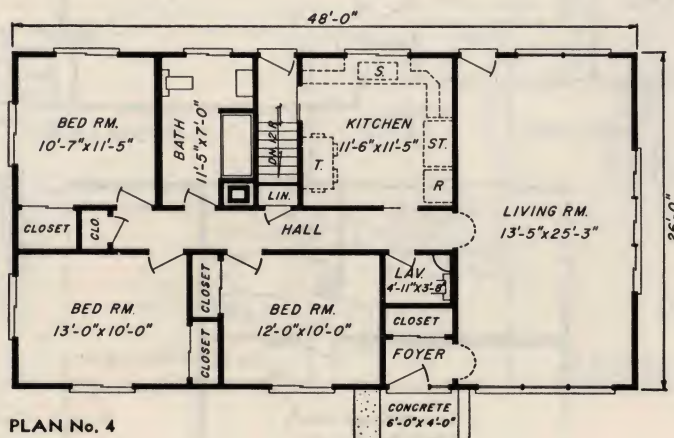

Clarksdale — Rear View — Outdoor Living at its Best

The Clarksdale—Many New Innovations

PLAN No. 3

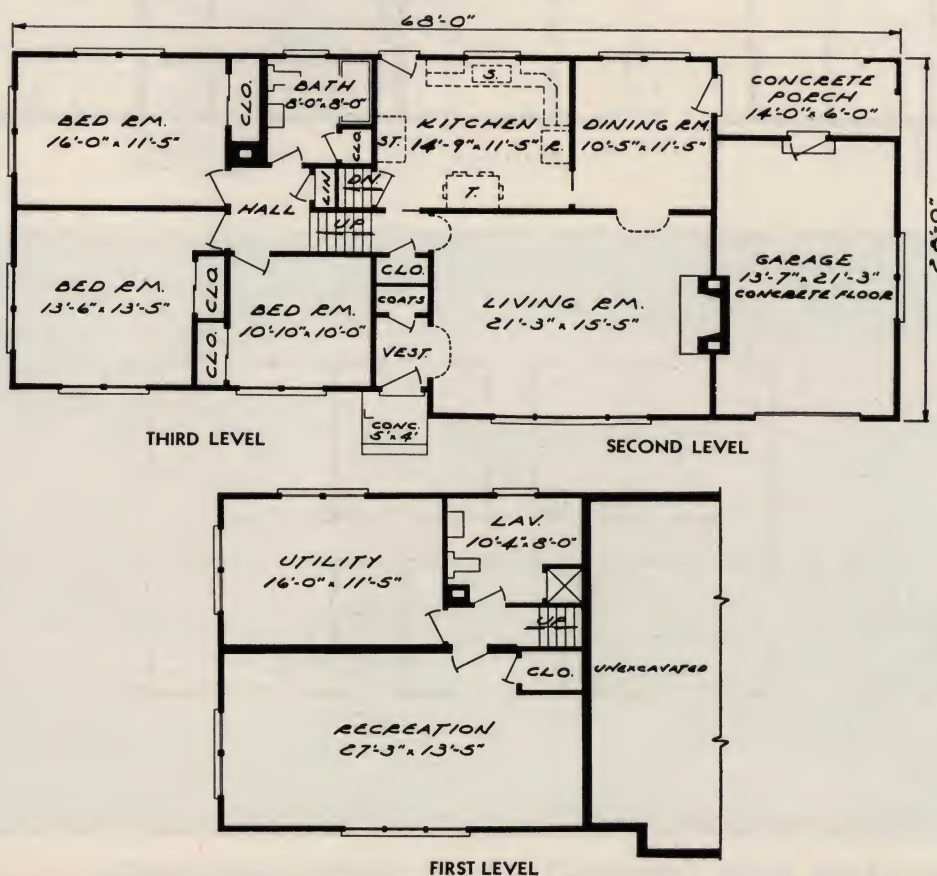

PLAN No. 4

THE TULANE

Modern Tri-Level

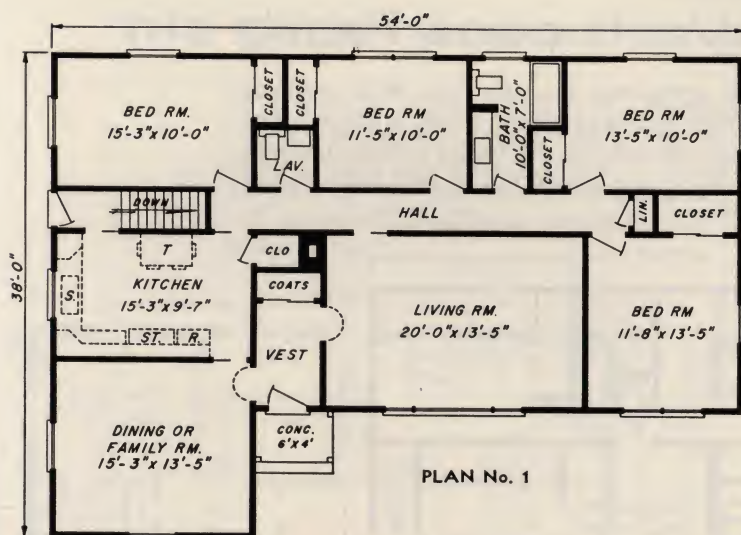

The modern tri-level home shown here is adaptable for a level lot as well as for a sloping one. No materials are furnished for the interior of the first level, permitting you to incorporate your own needs and desires. The second, or ground level, contains a spacious living room, dining room and well-planned kitchen. Eight steps lead up to the three bedrooms and bath. Write for specifications.

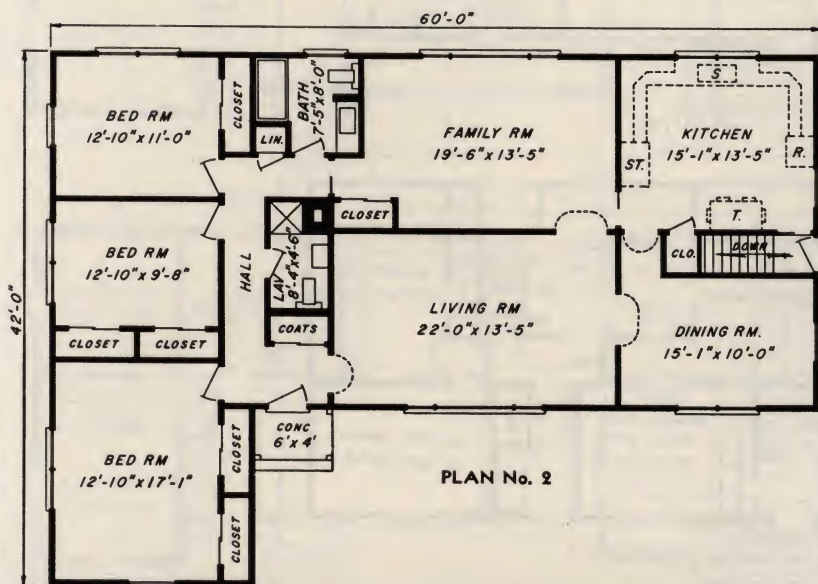

THE WINSLOW

New and Smart

The Winslow greets you with dramatic styling through the use of bevel siding and 8" vertical boarding—and when painted in your choice of colors, presents a home of unusual character. You can select either the three bedroom plan or four bedroom plan. See how the inner corridor in Plan No. 1 connects each room—and imagine, there are *seven* closets in Plan No. 1 and *nine* in Plan No. 2. Write for specifications.

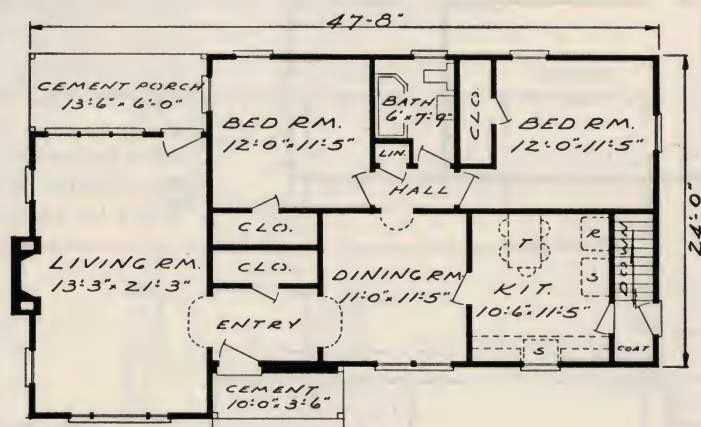

55 YEARS
EXPERIENCE
IN
HOME
MANUFACTURING

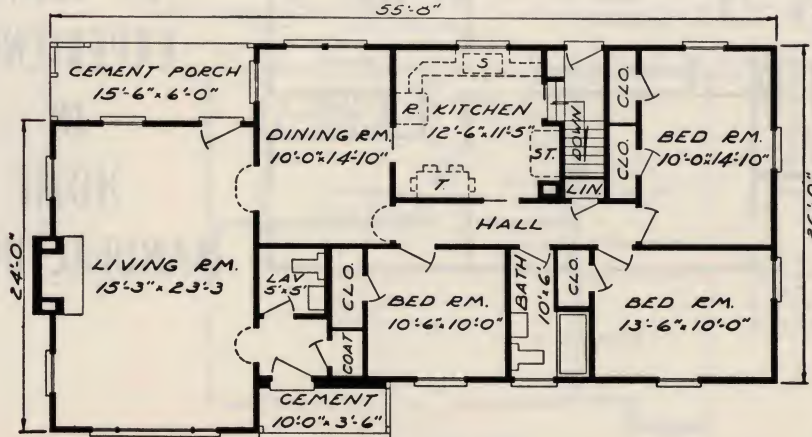

THE RIO GRANDE Masterpiece Ranch

This beautifully proportioned structure features the ever popular sweeping gables and shielded front entrance. Wide scenic windows face both the front and rear terrace and garden. Siding is included where stone is shown on front wall. Write for allowance if you plan to use stone. Specifications on request.

PLAN NO. 2

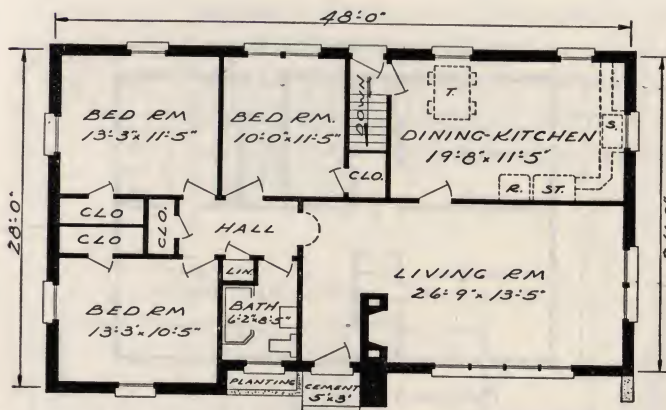

PLAN NO. 4

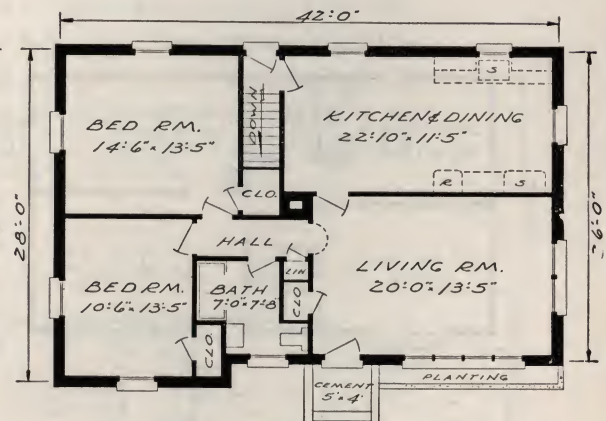

THE BRENTWOOD One of Aladdin's Best

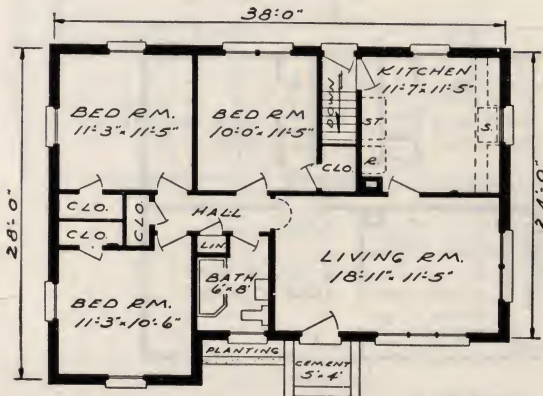

Illustrated in brick veneer (which we do not furnish), here is a home of impressive beauty. If you wish to use siding or shake shingles, we will gladly quote the additional cost. Four plans are shown providing your choice of a two-bedroom, three-bedroom, or four-bedroom home. Note the large kitchen-dining combination in three of the plans. Write for specifications.

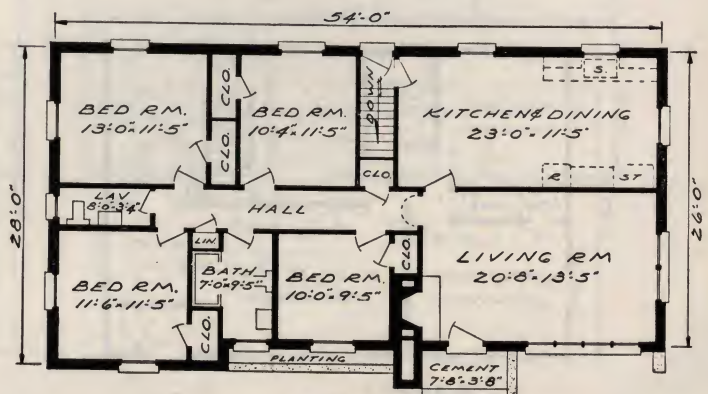

PLAN No. 1

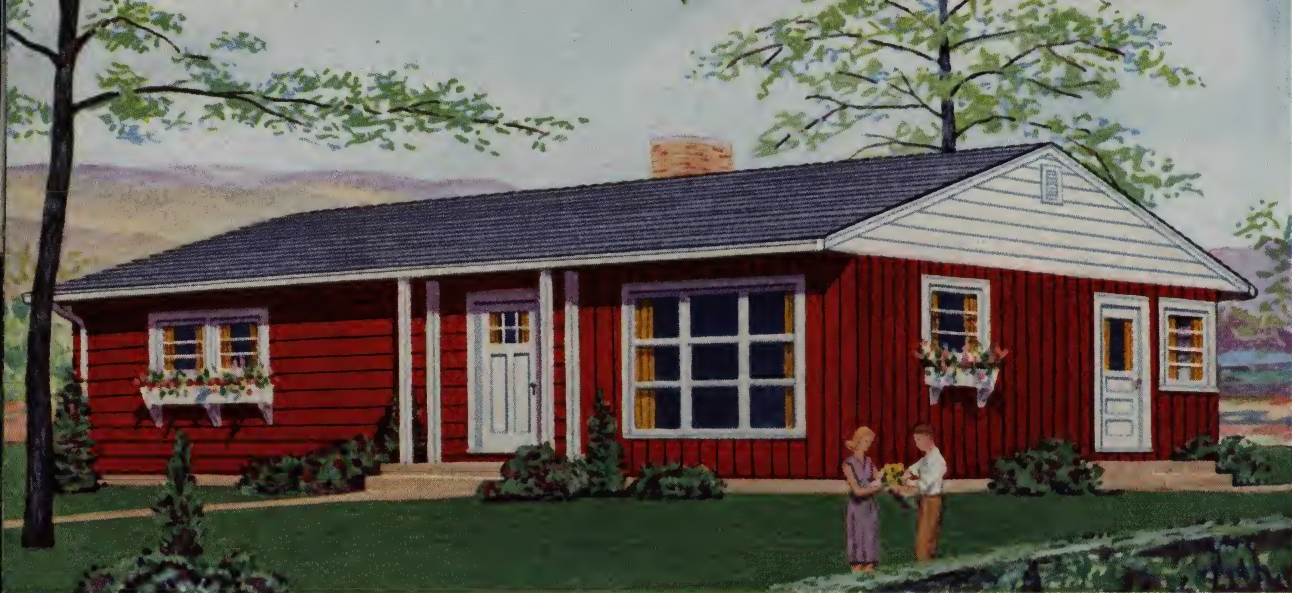

PLAN No. 2

PLAN No. 4

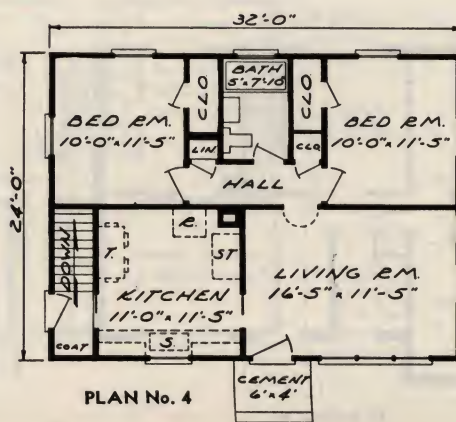

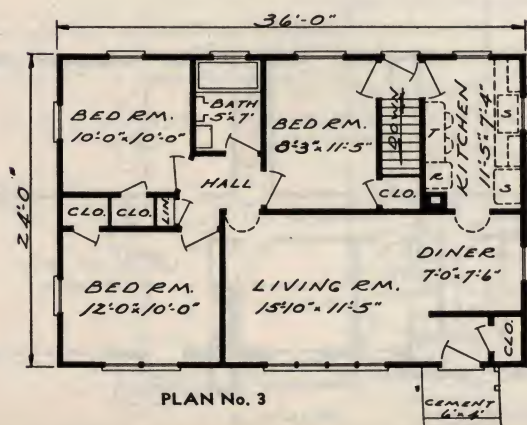

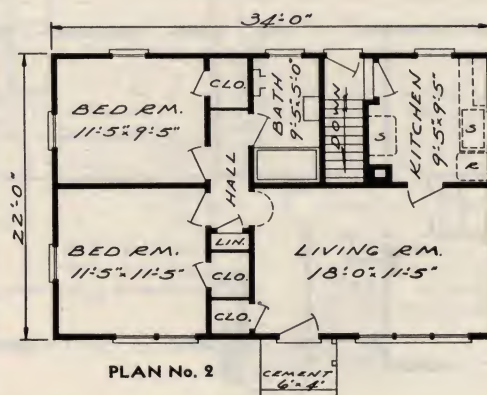

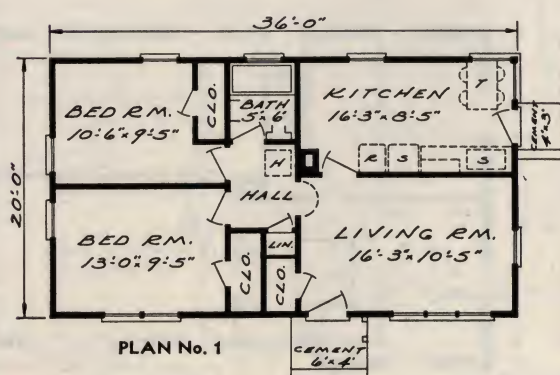

PLAN No. 5

THE REDWOOD For Young Homemakers

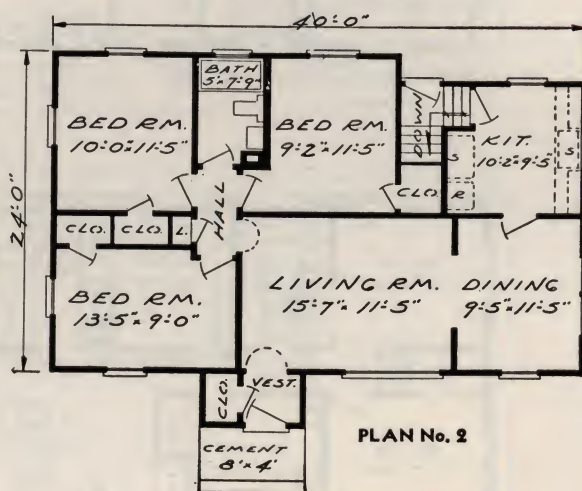

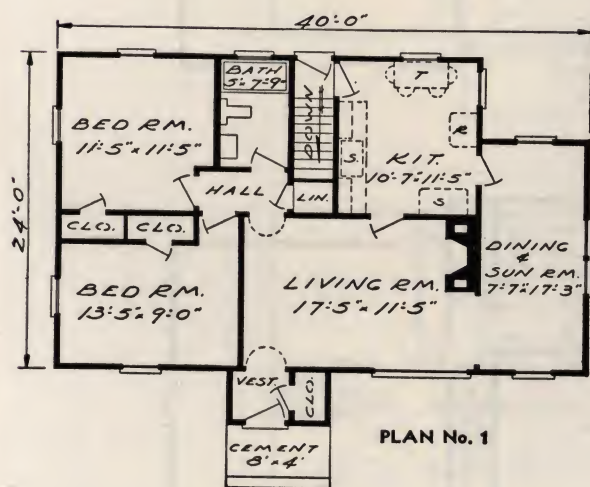

Four floor plans, four sizes—all within the budget of young homemakers. The combination of siding and vertical boarding in barn red emphasizes the New England trend but you may select any other color you wish. Also, you may have all horizontal siding if you prefer. Write for specifications.

THE VINEWOOD Spacious Small Home

Economical—Compact—Traditional! The Vinewood offers maximum living in a moderate overall size. You have a choice of the two bedroom Plan 1 with the sun room-dining combination, or the three bedroom Plan 2 with adequate dining room. Both plans boast a convenient vestibule with coat closet and large scenic window in the living room. The picture shows the popular shake shingles on the vestibule and siding on the main body of house. You may have all shakes or all siding if you prefer. This is an attractive, practical plan when building with a limited budget. Write for specifications.

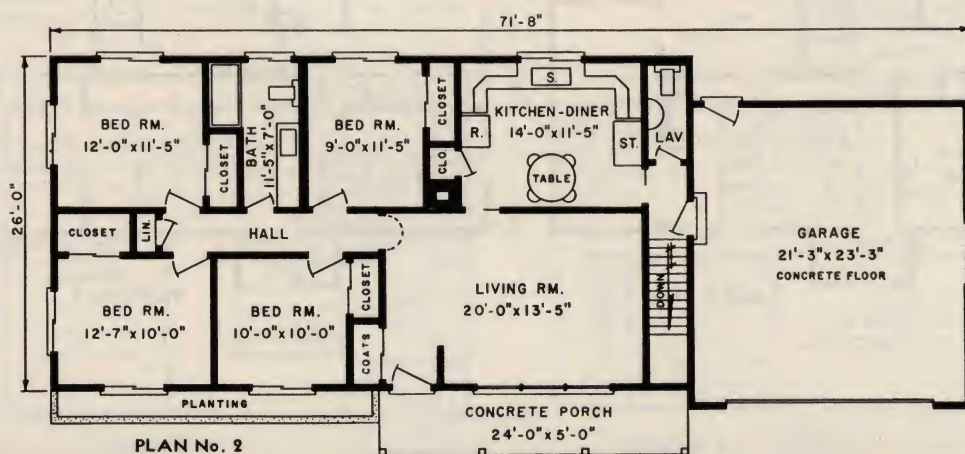

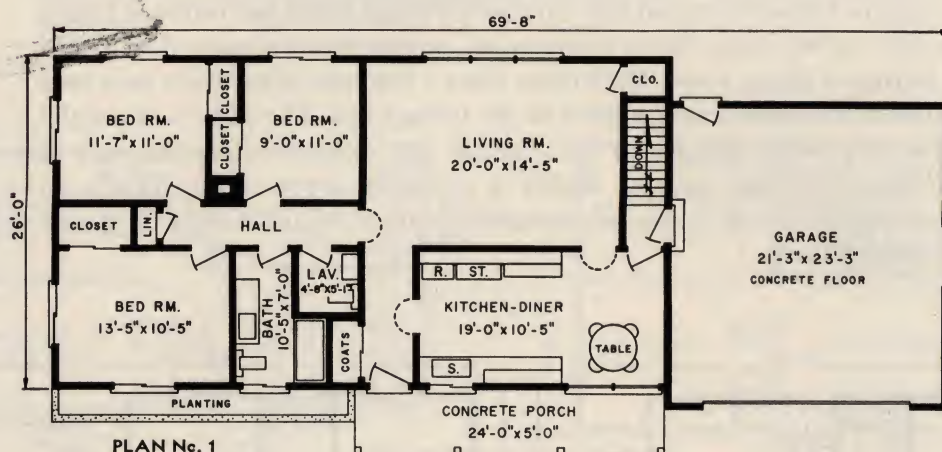

THE CLINTON

Spacious — Practical

Designed for spacious and comfortable living. The covered porch is not only a mark of beauty but protects the front entrance from the weather. In the three bedroom Plan 1, note the dining area with floor-to-ceiling window and living room in the rear overlooking the garden. Write for specifications.

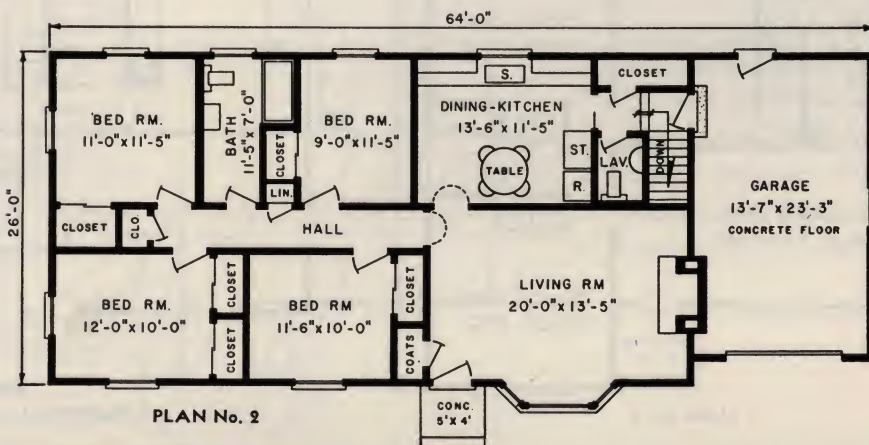

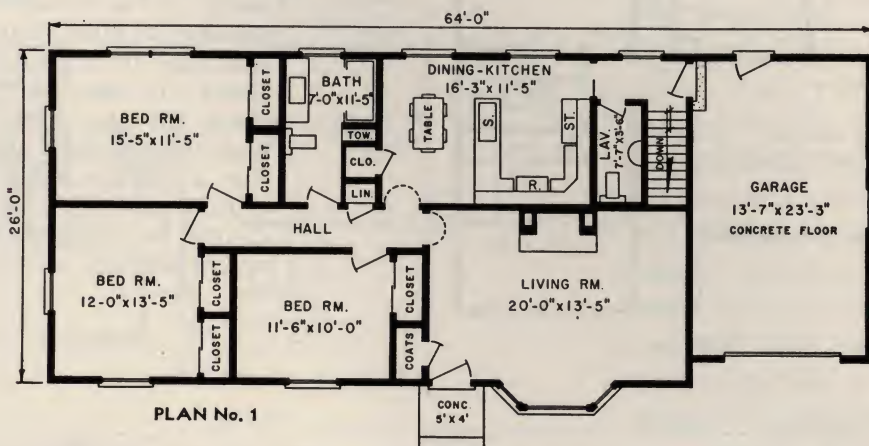

THE OAKLAND

Colonial Charm

The exterior of this friendly home combines true Colonial charm with ranch styling. What could be more inviting than an Early American front door flanked by shutters and the large bay window? The Plan 1 offers three large bedrooms and the Plan 2, four bedrooms. Both plans incorporate the popular dining-kitchen combination. Write for specifications.

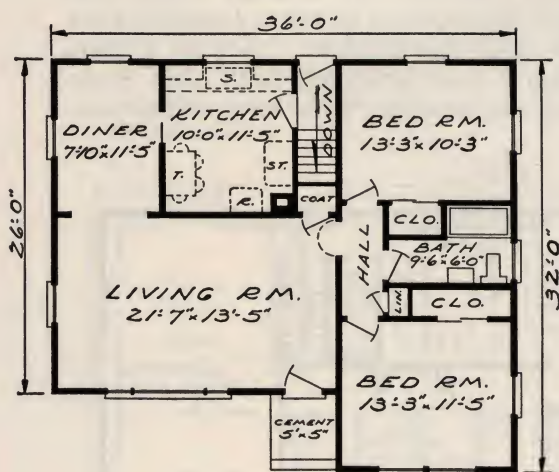

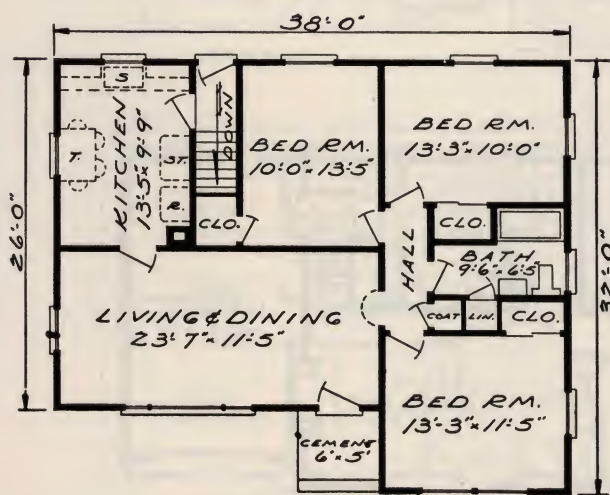

THE ROYTON

Crisp, Clean Lines

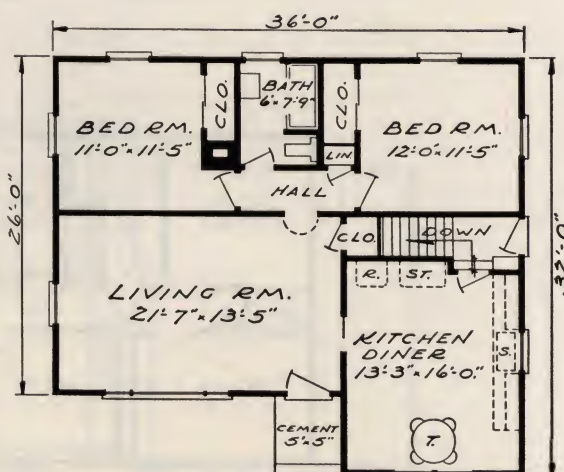

Here is a house that will never grow old. It is of such simple, charming design that it is not likely to be outmoded by the passage of time. Surprisingly spacious for its overall size, there are two two-bedroom plans and one three bedroom plans and one three bedroom, each with adequate closet space. For a quality home of traditional styling, the Royton cannot be equalled. Write for specifications.

PLAN No. 1

PLAN No. 2

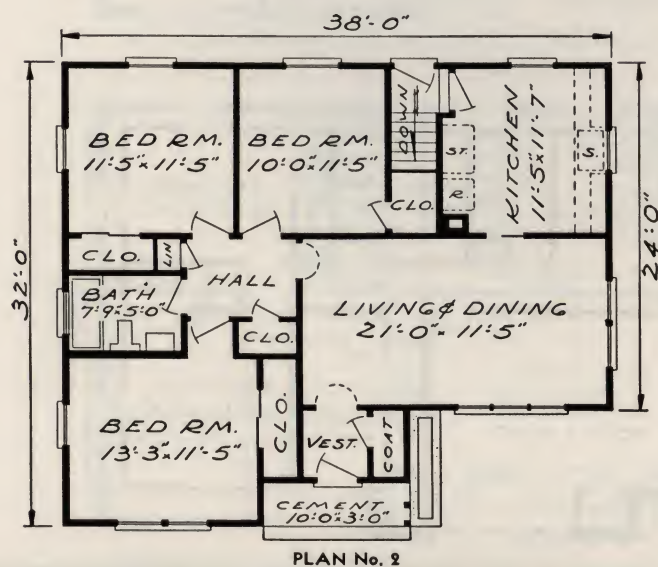

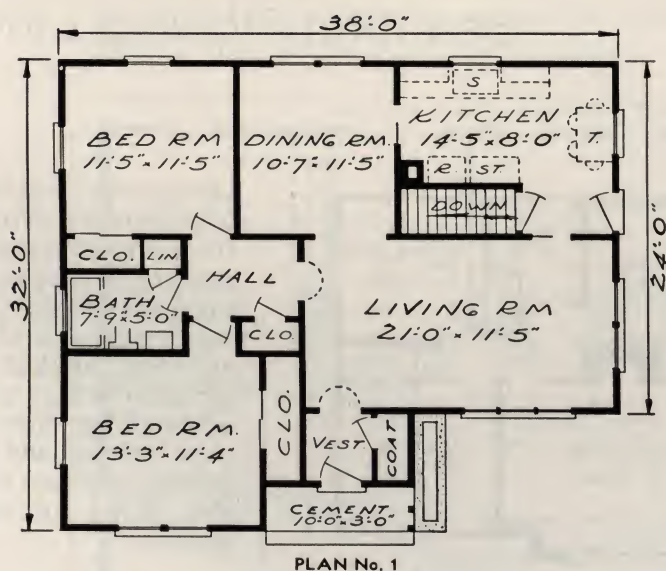

PLAN No. 3

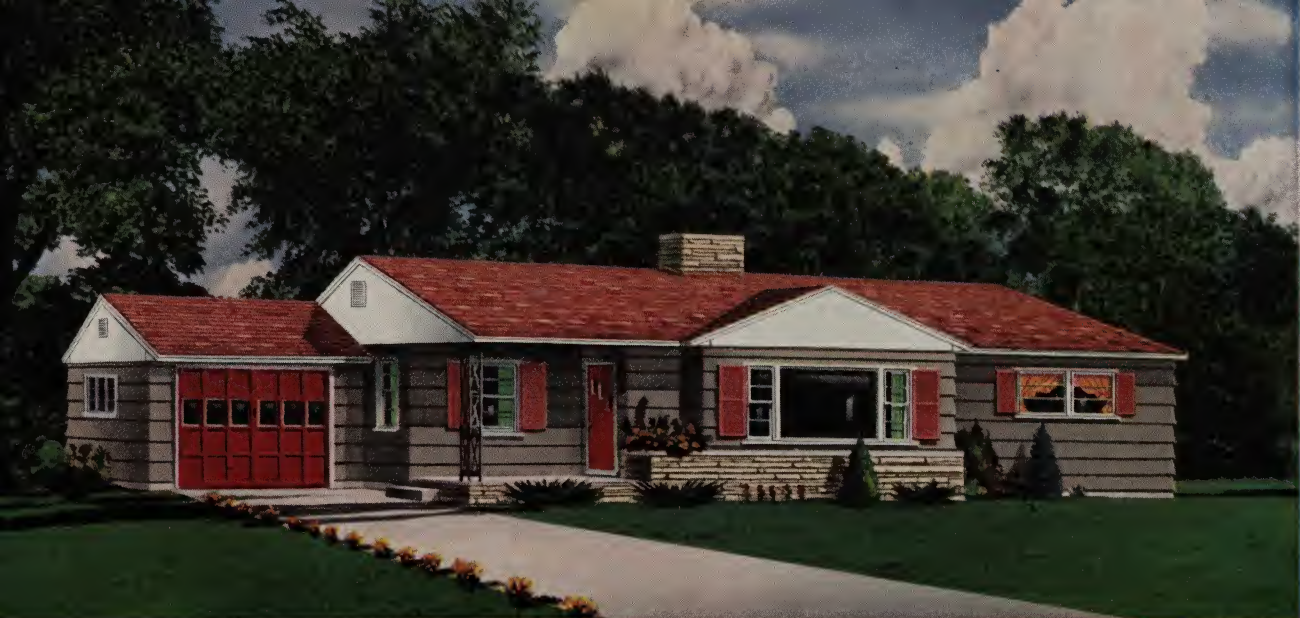

THE MANHASSET

Compact—Cozy

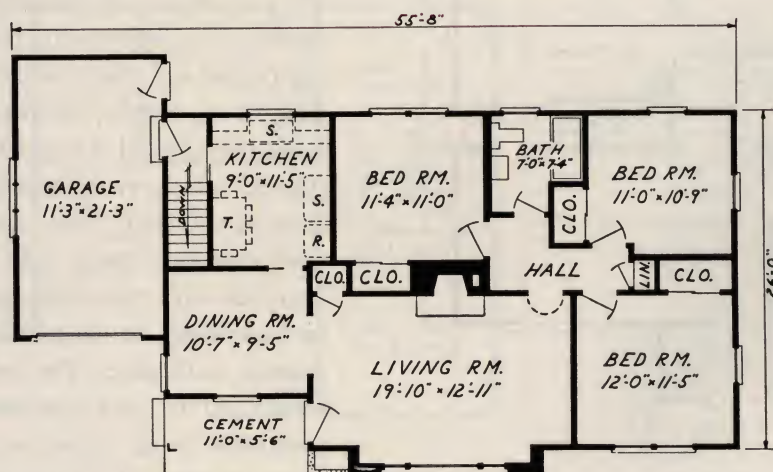

Though moderate in size, the Manhasset is thoroughly modern and splendidly proportioned in every detail. The living room, bedrooms and kitchen all have well placed windows affording cross-ventilation. The covered entrance opens into a vestibule with coat closet and arch leading to the living room of both plans. The bedrooms and bath are separated from the living room by a convenient hall. Generous wall space in the living room is accomplished by use of a 28 x 16 mullion window in the end wall. A fireplace could be located in this end wall if desired. Five and six closets offer good storage facilities. Select the floor plan which meets your individual needs and write for specifications.

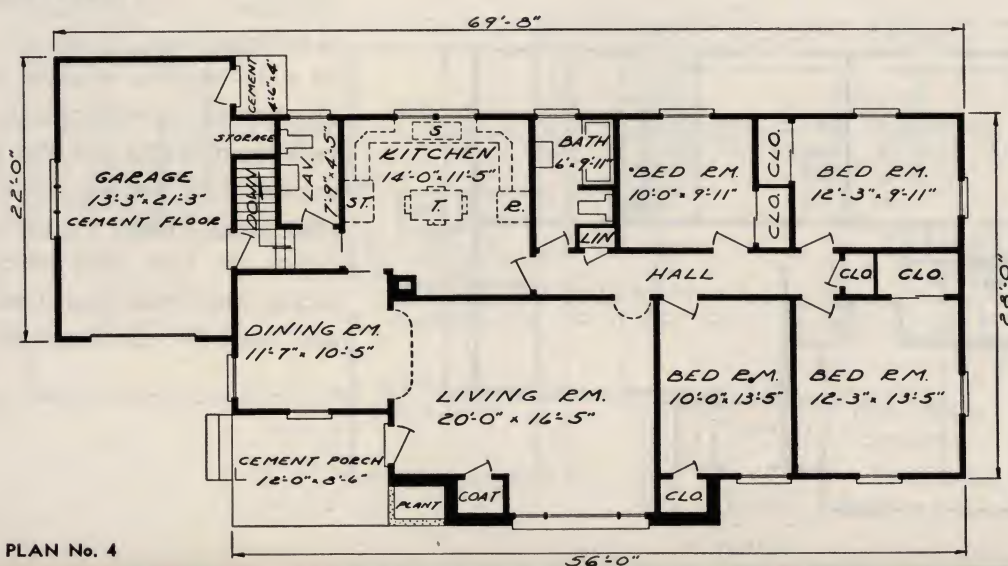

THE PLAZA

Beautiful Flowing Lines

PLAN No. 2

One of our most popular models. Notice the covered entrance and front projection enhanced by the large scenic window and use of stone. Shakes are furnished where stone is shown on front. A three bedroom and four bedroom plan are available. Write for specifications.

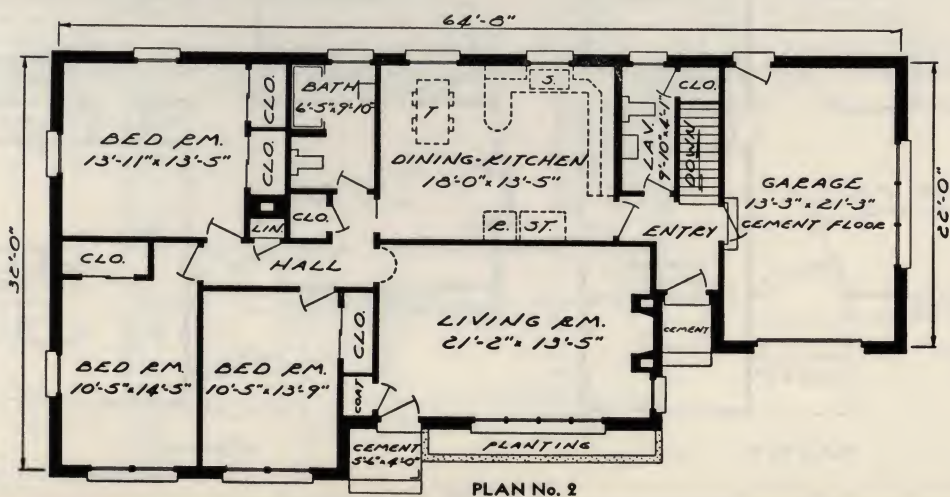

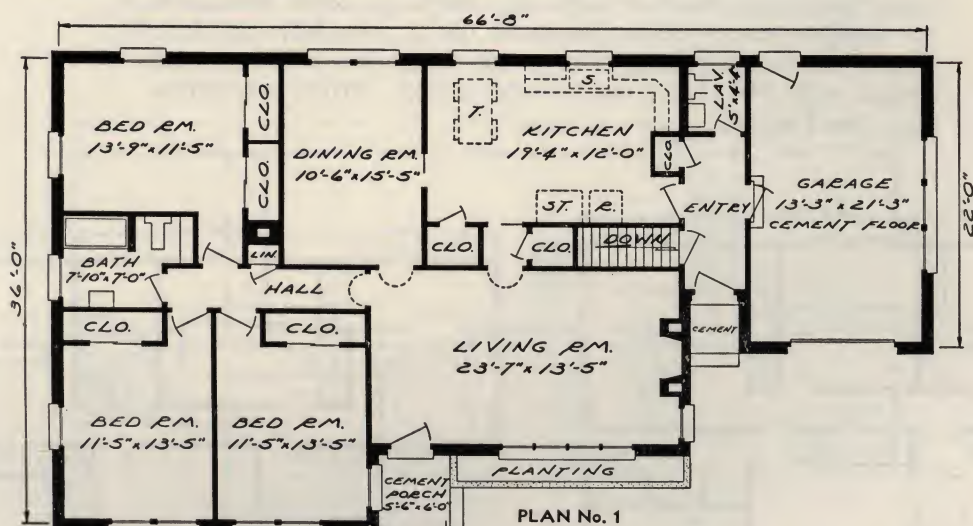

PLAN No. 4

THE CATALINA

A Wealth of Living

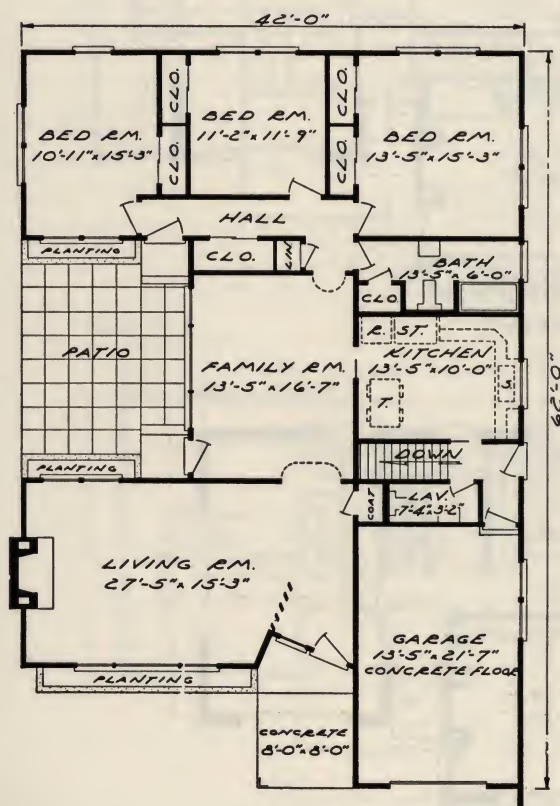

This skillfully planned home is illustrated in brick veneer (which we do not furnish) but it is equally as attractive finished with siding or shake shingles. Write for prices and specifications.

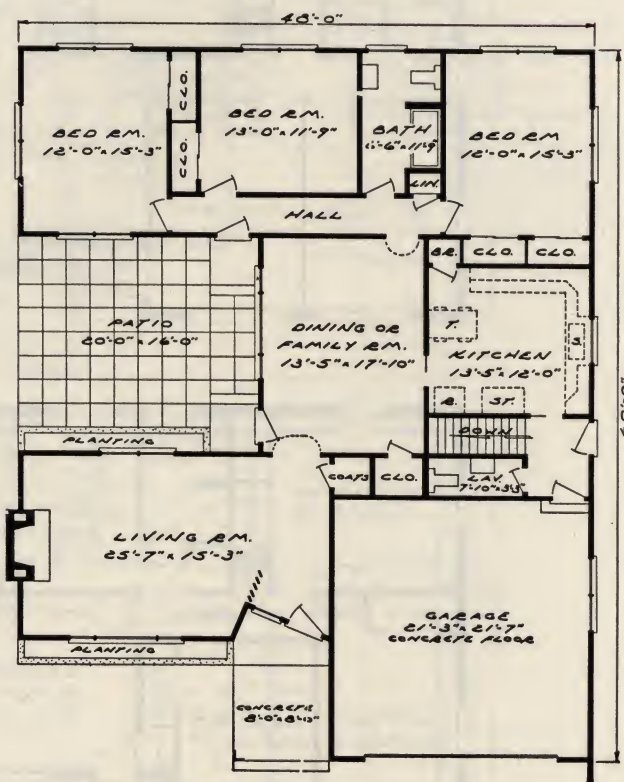

THE TOPEKA Popular Family Room

Our designers have incorporated a wealth of desirable features into this home. The recessed-for-privacy patio is accessible from either the family room or rear hall. The large scenic window in the family room overlooks the patio. Both plans have full bath plus a conveniently located lavatory. Plan No. 1 has a single garage, while Plan No. 2 has a double garage. Write for specifications. See Page 63.

PLAN No. 1

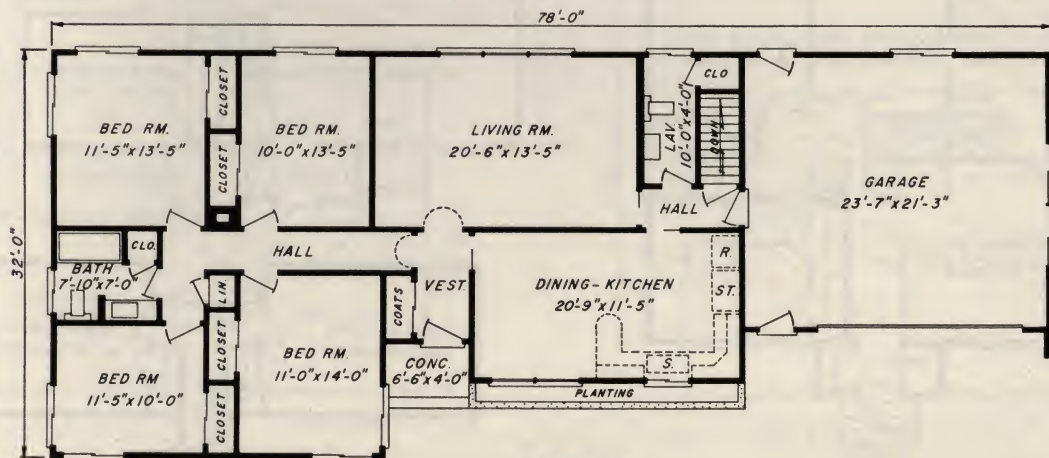

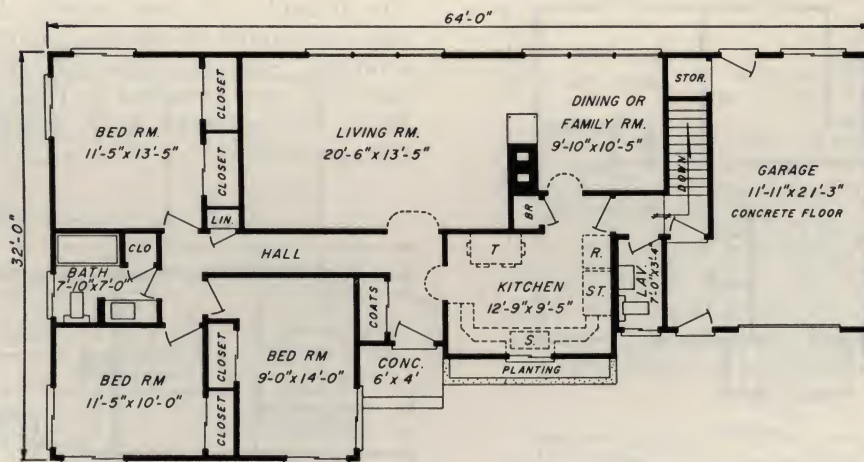

PLAN No. 2

THE GRENADA

New and Modern

Following the graceful lines of the western ranch home, the front entry opens into either the living or sleeping quarters. The lavatory, close to rear entrance provides last-word convenience. Floor-to-ceiling windows in the living and family rooms add a modern sunlit feature. Plan No. 1 can be furnished with 2-car garage. Write for prices. Specifications on request.

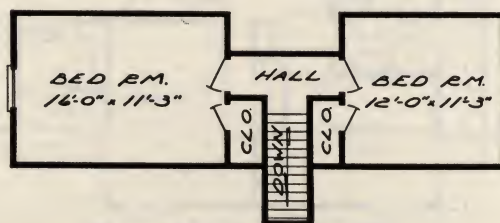

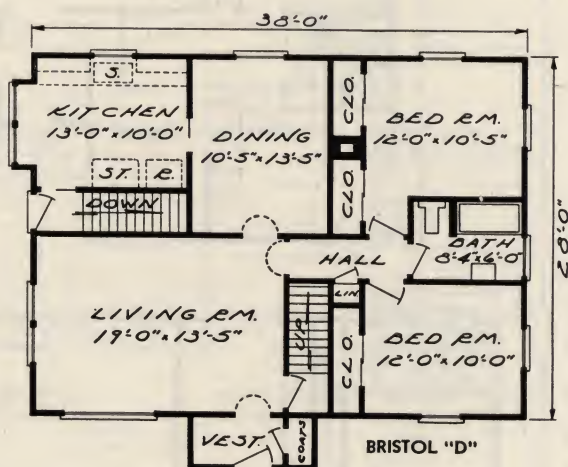

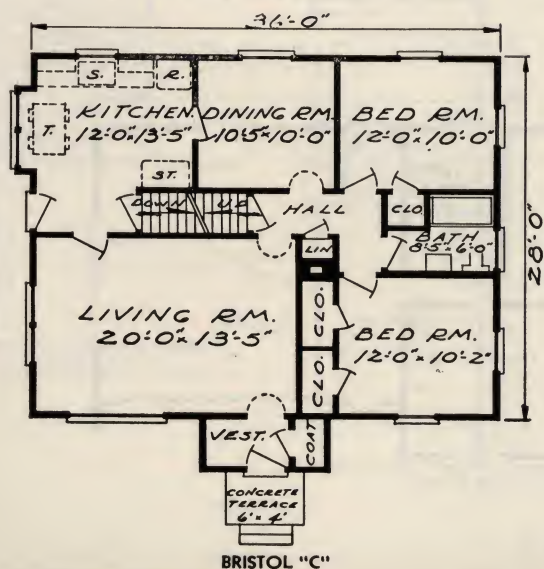

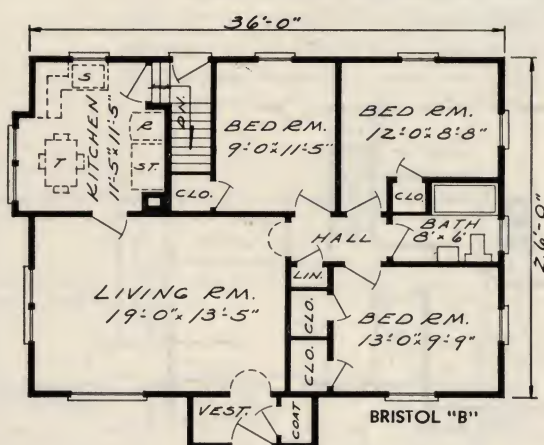

PLAN No. 2

THE BRISTOL

Modern American

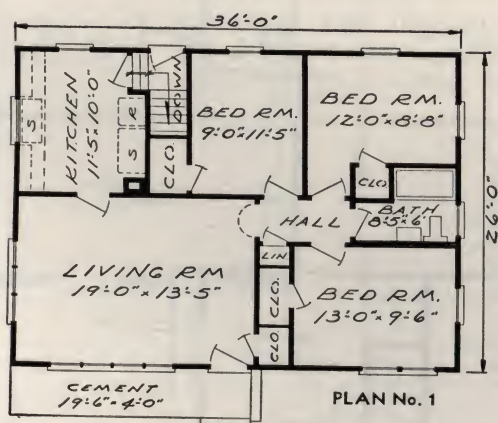

The Bristol is an ever popular design from the standpoints of beauty, convenience, and economy. Stair to expansible attic and sub-floor for attic furnished in Plans C and D. Write for prices to finish attic. Specifications on request.

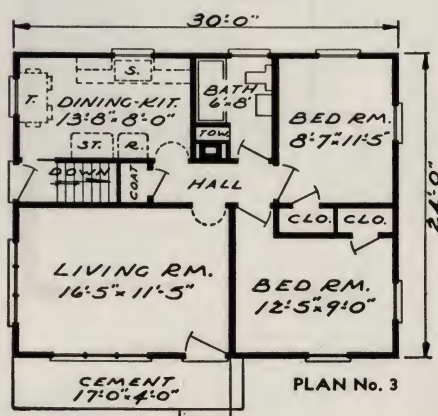

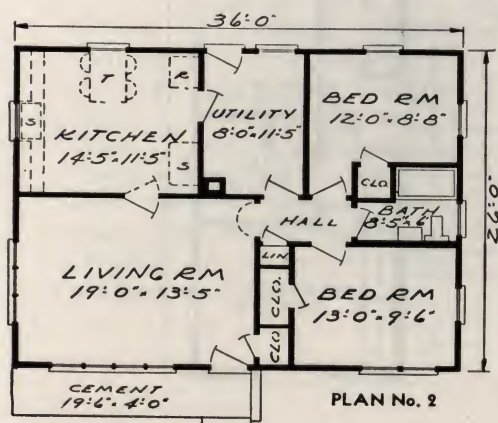

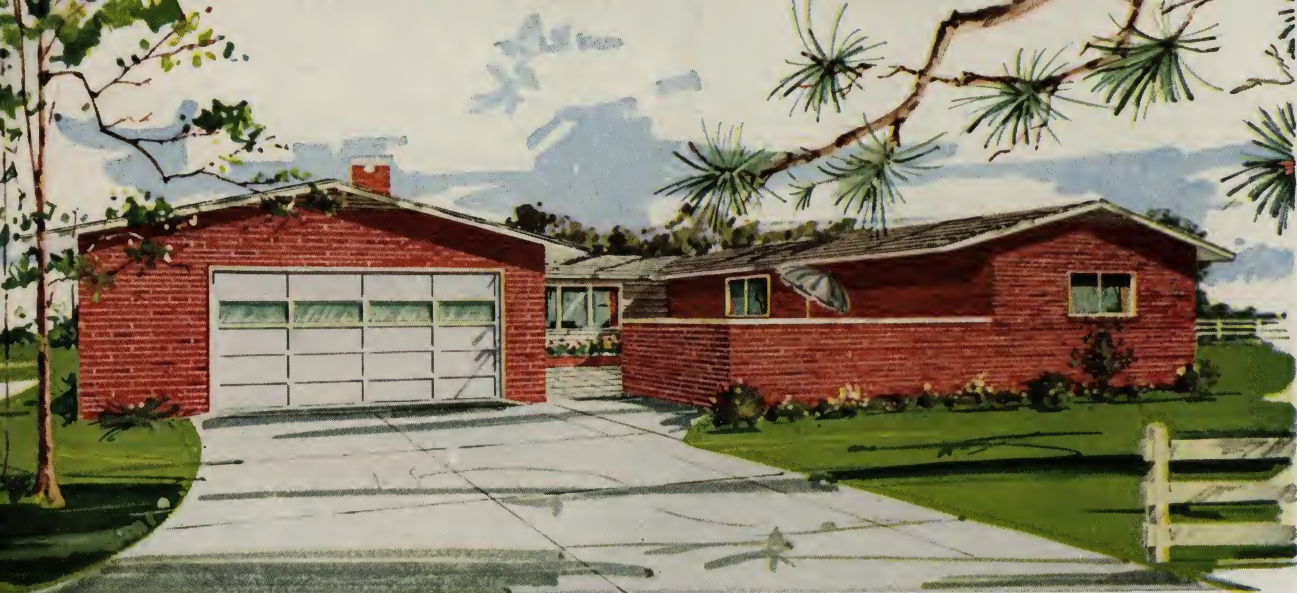

THE SYLVAN

For a Small Family

This home is modest in size, perfect for a small family, and you receive the same high quality materials as furnished with our largest homes. You have your choice of two or three bedroom floor plans, and while Plans No. 1 and No. 3 show a basement stair, Plan No. 2 has a utility room so you can build without a basement. Write for specifications.

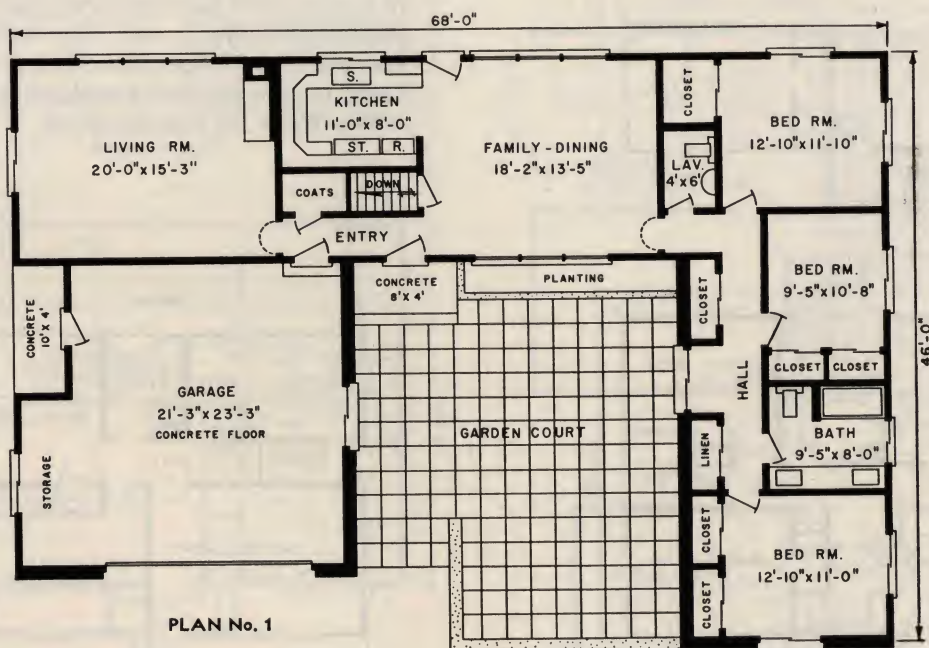

THE RIVIERA

Private Outdoor Living

Privacy is the theme of this design with secluded garden court. Note the many large closets in separate bedroom wing. Expansive scenic windows at the front and rear of the family room provide an open look. Although brick veneer is shown on the garage front, bedroom wing front, and sidewalls facing the court, our price includes siding. If you intend to use masonry for this area, write for allowance for omission of the siding. Specifications on request.

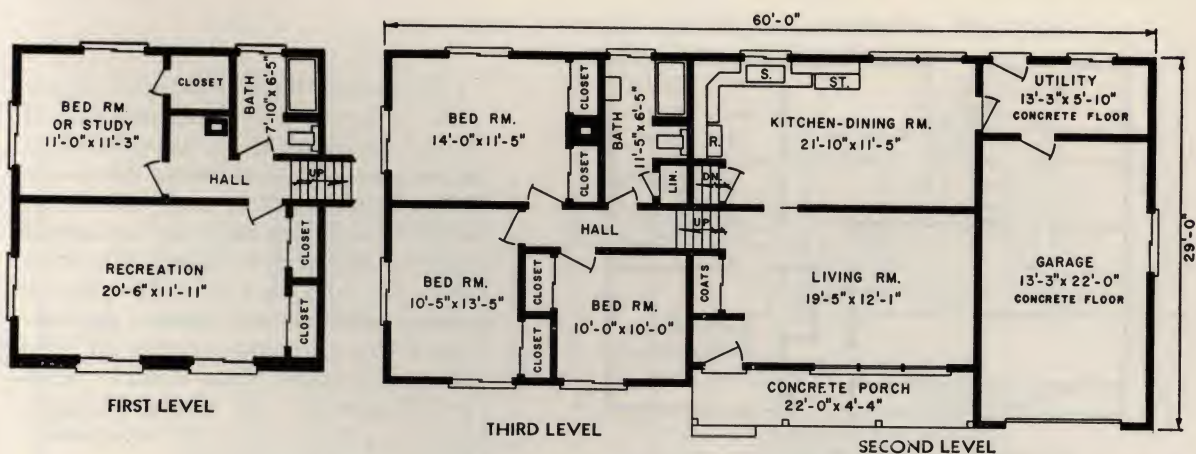

THE FORESTON

Luxurious Tri-Level

This attractive tri-level with wide overhang offers a pleasant contrast in building materials. Siding is included where brick is shown on first level. Allowance quoted for omitting siding, on request. No materials furnished for partitioning first level. Write for specifications.

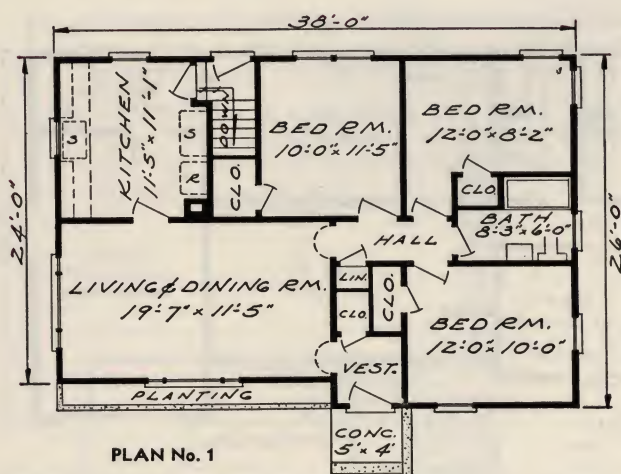

Colors, soft, muted, complemented, lend zest and life to the modern bathroom. Convenience, coupled with pleasing colors, is the demand of the modern homemaker. With the wide range of timeless colors, many beautiful combinations can help you discover the natural beauty of your home.

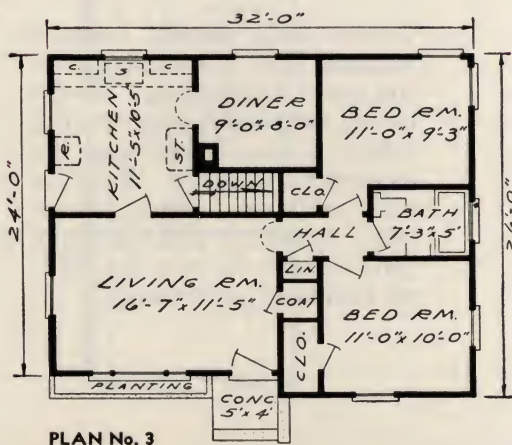

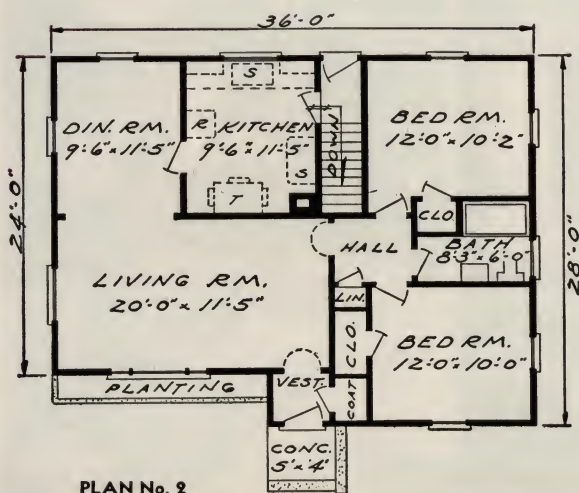

THE ALAMO

Modified Ranch

This modern, hip roof design is available in three floor plans, any one of which will result in the appearance as shown in above picture. Note the large scenic window with side lights which harmonize with the horizontal lights in all other windows. The brick work in front is a separate planter and may be omitted without detracting from the appearance of this charming home. The outside walls are illustrated with Shake Shingles. You may have 8" siding if you prefer. Write for specifications.

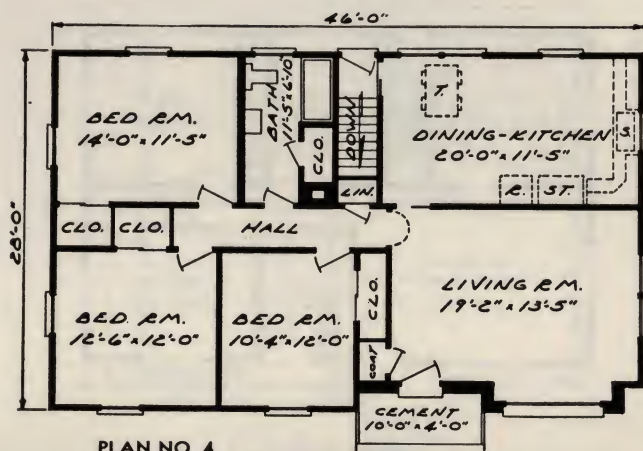

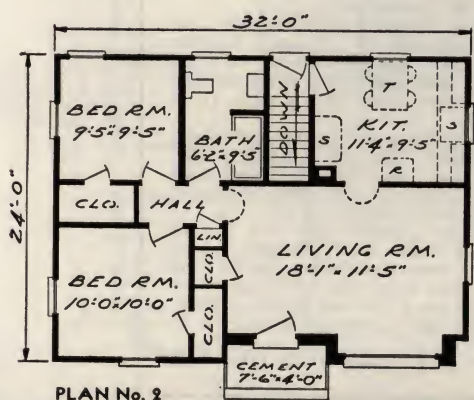

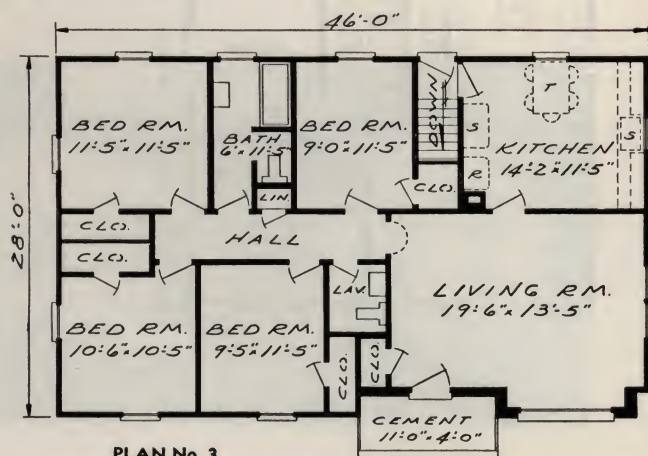

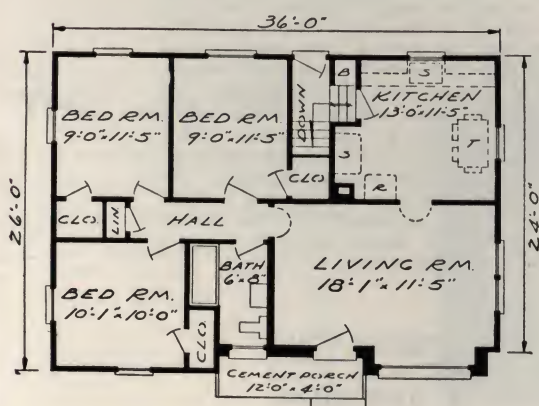

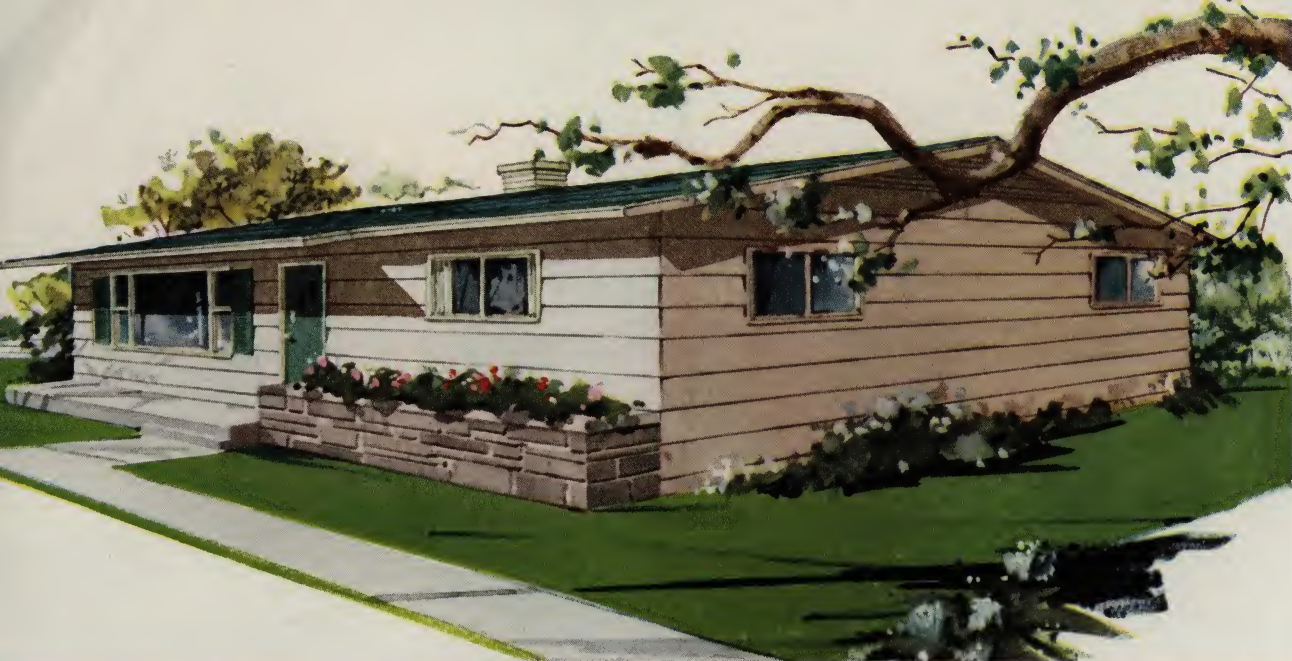

THE PALOMAR

Trim Beauty

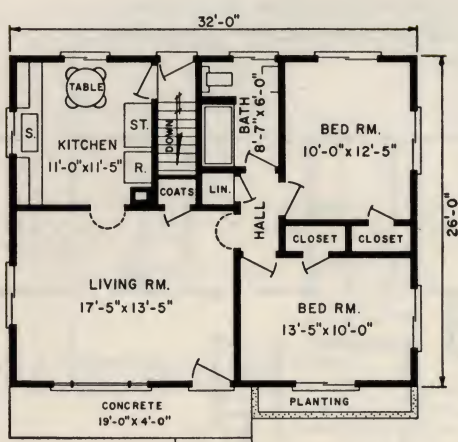

Artistic in its simple details, the Palomar is available in four floor plans, each of which provides maximum livability. Shake shingles are furnished where brick is shown. Write for specifications.

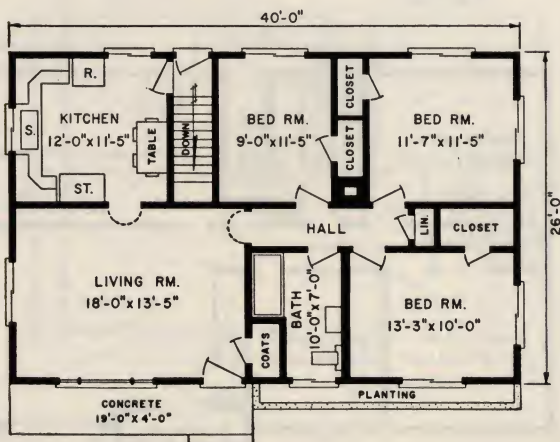

THE DEXTER

Designed for Economy

DEXTER PLAN No. 1

Here is a contemporary design for the young homemaker. The straight, rectangular shape is designed for economy; the popular low pitched roof and wide eaves add a touch of modern styling. This house is available in two sizes, one a two bedroom and the other a three bedroom, to meet your individual needs and budget. The kitchen in each plan is designed for convenience and efficiency with ample dining space for a young family. Glide windows are furnished to permit maximum versatility in your room arrangement. The decorative planter at the front is built of masonry, to be furnished by owner. It can be omitted or added later, if desired. Write for specifications.

DEXTER PLAN No. 2

Dear Mr. Sovereign:

Words alone cannot express how proud we are of our new Aladdin home. All materials were of high quality and certainly a great savings for us than if we had bought them locally.

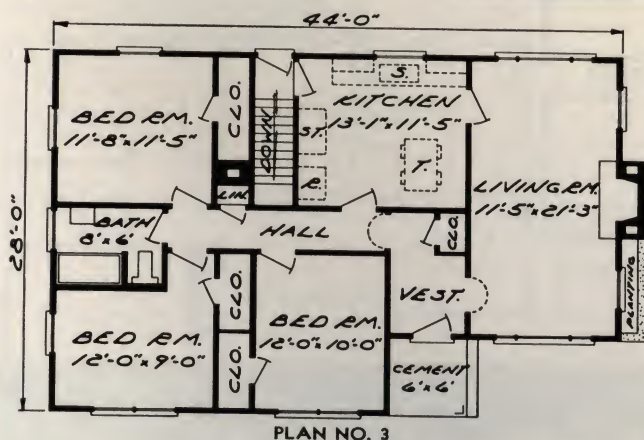

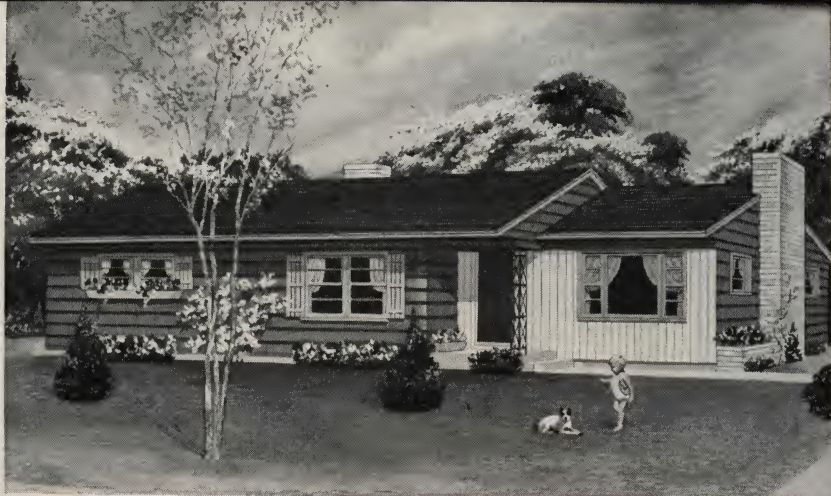

Our relatives and friends and people who know, like our carpenter and electrician, have told us what high quality material we were using and how beautiful our home is.

We are grateful that our friends told us about your Aladdin homes and are most grateful to you for such a beautiful home that is of high quality and yet within our means. Thank you for your continuing interest in our home.

Mrs. G. P., Pleasantville, New York

THE GRAYSTONE

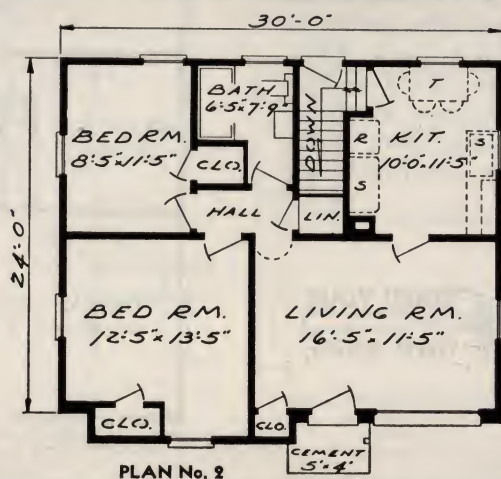

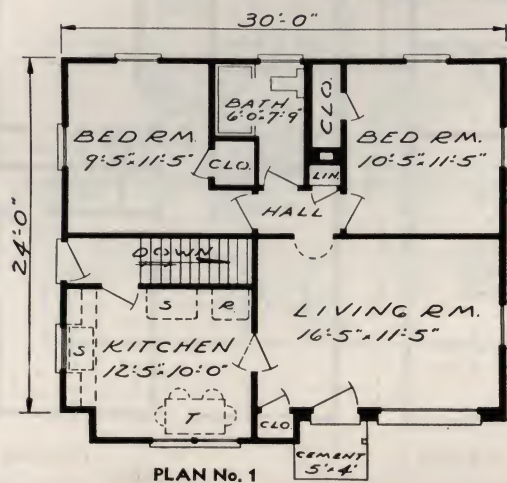

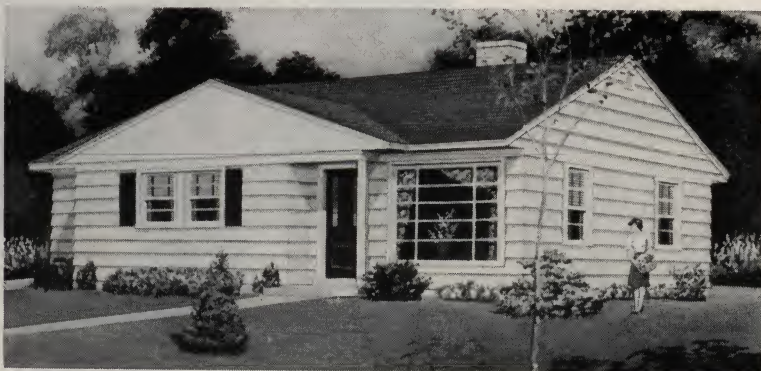

Aladdin designers have created this charming home to be equally attractive whether constructed the narrow or long way facing the street.

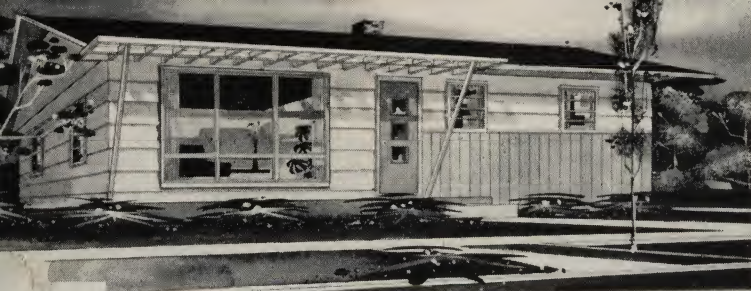

Note the effective contrast achieved by use of vertical boarding on front of living room wing. A most desirable convenience is the vestibule connecting with central hall, providing access to every room in the house. Write for specifications.

THE JASMINE

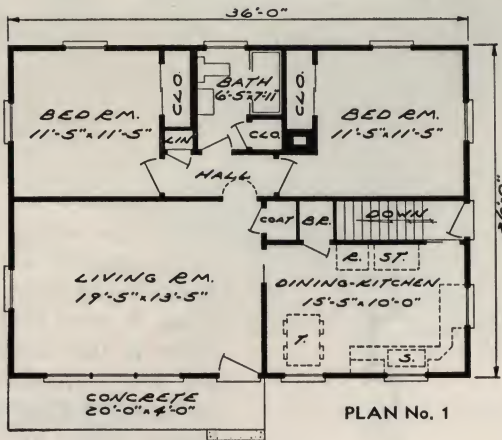

A modest home with exterior beauty and balance, and an interior arranged for comfort, convenience, and efficiency—a home you can be proud of. Write for specifications.

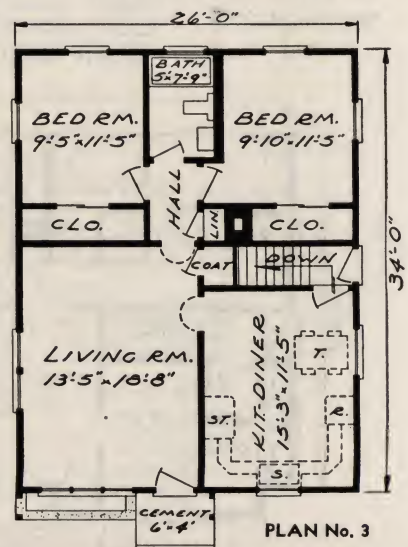

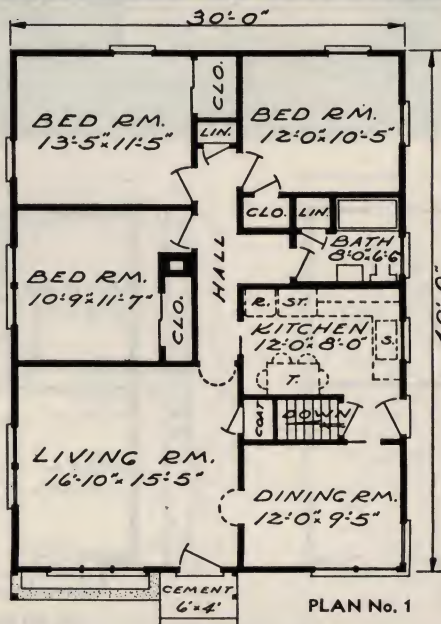

THE PRESTON

The unusual porch and large scenic window presents a hint of luxury in this compact home. Notice this floor plan offers you a family kitchen, generous living room and bedrooms, combining comfort and convenience. Its style is outstanding. Write for specifications.

THE CORONET

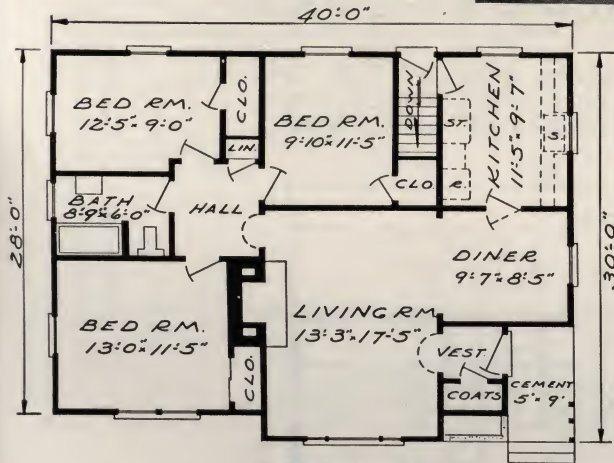

This home is a "natural" for a narrow lot. You have your choice of a two-bedroom or three-bedroom plan. The central hall in Plan No. 1 provides access to all rooms. Plan No. 3 offers the popular kitchen-dining room. Write for specifications.

**BUILD YOUR
OWN HOME**

THE GLEN COVE

Eight inch vertical boarding combined with bevel siding and wide shakes in your choice of color present a most attractive appearance.

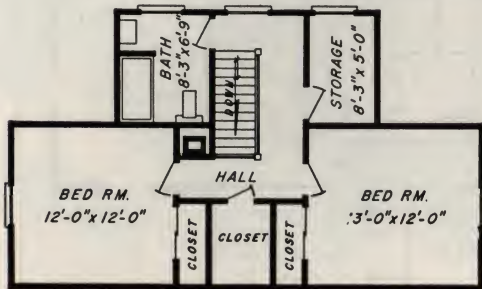

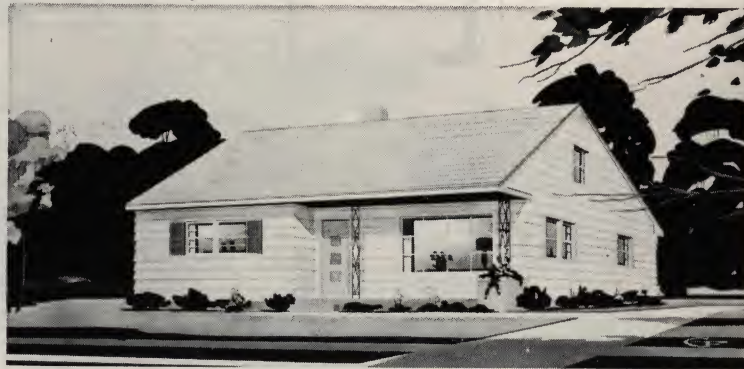

PLAN No. 2

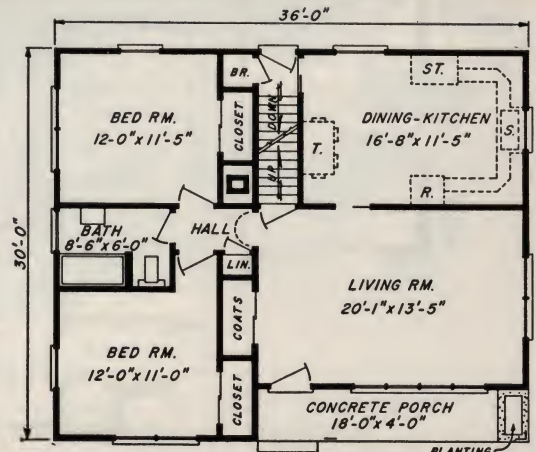

Entrance ideally planned for use on a corner lot, or facing the narrow end to the street, the Glen Cove is equally adaptable for a narrow lot. You will enjoy a "lot of living" in this home. Write for specifications.

THE WILMINGTON

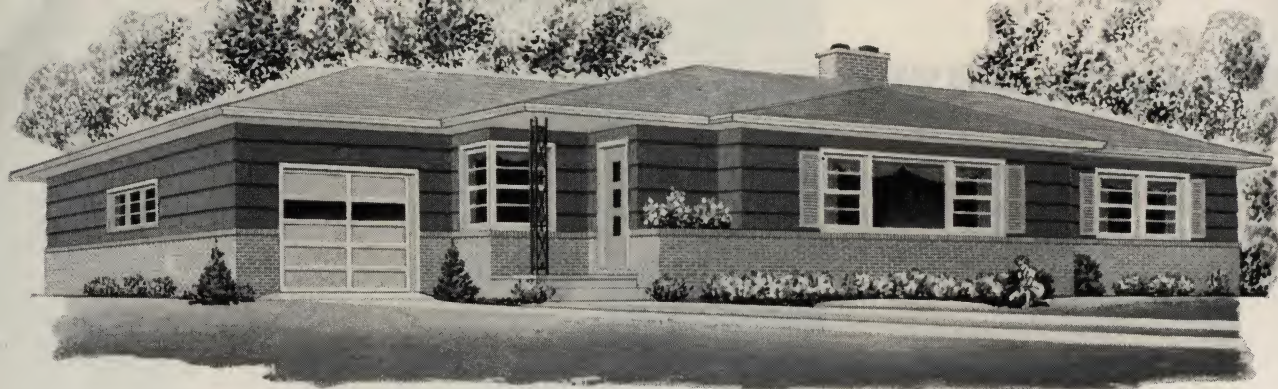

This beautifully simple home is priced with stairway, subfloor, and windows for the second floor. Write us for specifications and prices for finishing the second floor.

SUGGESTED SECOND FLOOR PLAN

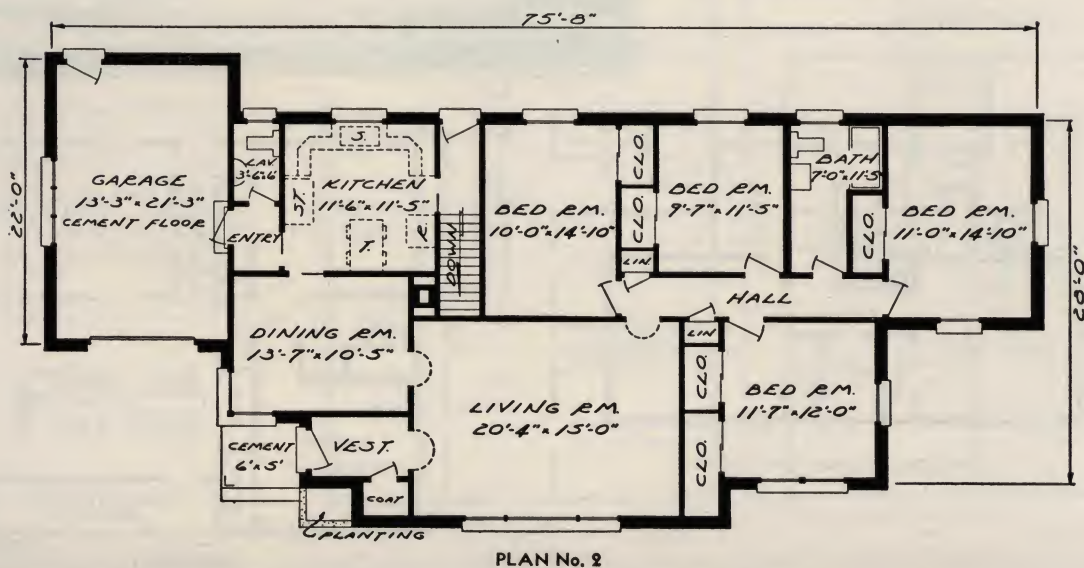

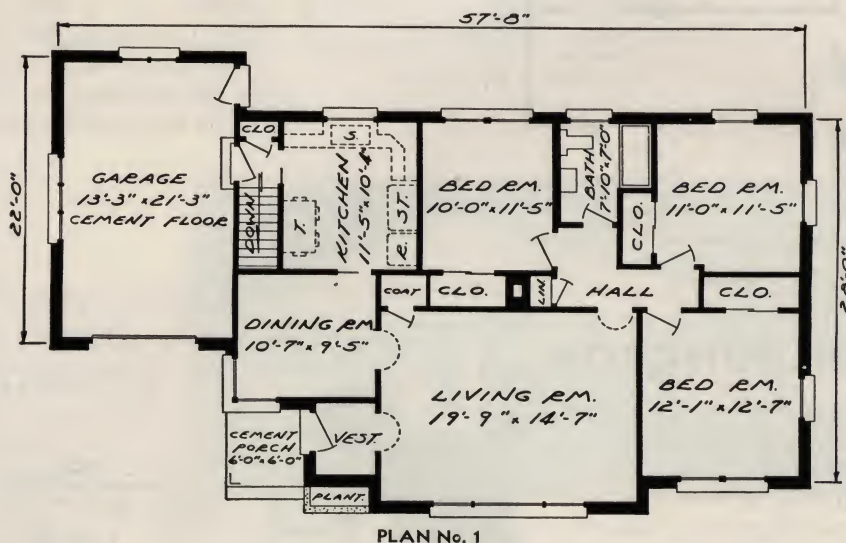

PLAN No. 1

THE SARATOGA

Simple Elegance

Illustration shows sill high brick veneer combined with wide shakes for contrast. Price includes shakes where brick is shown. If you wish to use brick, write for allowance for omission of shakes. Specifications on request.

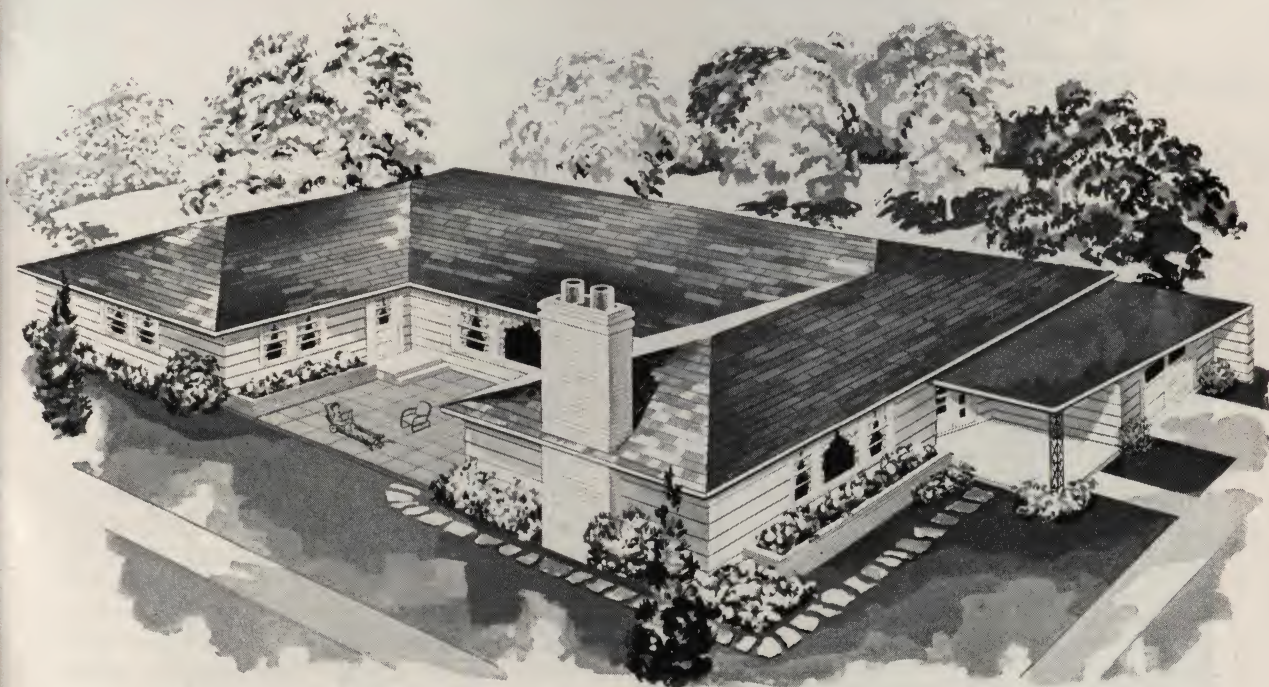

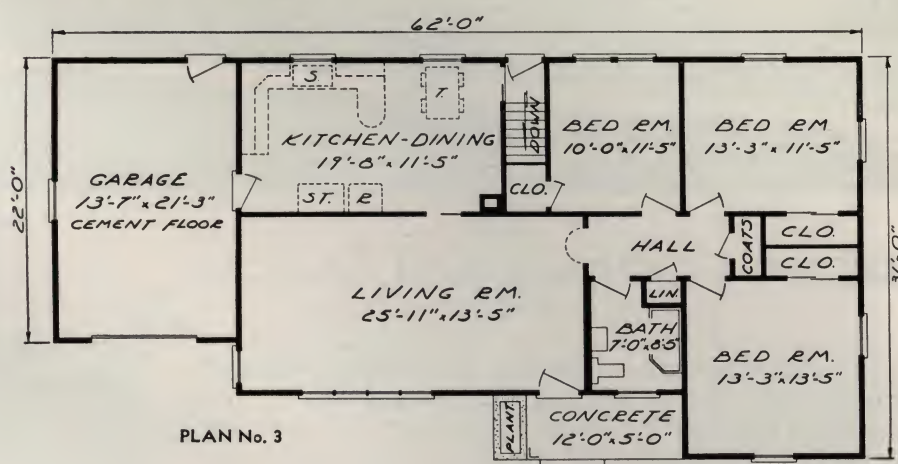

THE VENTURA

At the left is an illustration and floor plan of our popular Ventura home with attached garage. Price is given on enclosed price list. A 2-car garage is also available. Write for prices and specifications. Additional plans of the Ventura are shown on page 28.

THE VENTURA—With Garage Attached

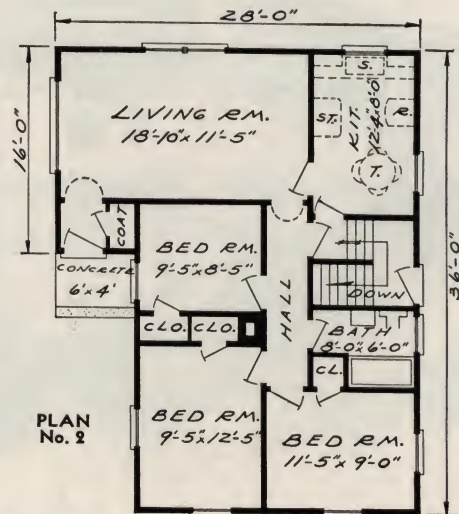

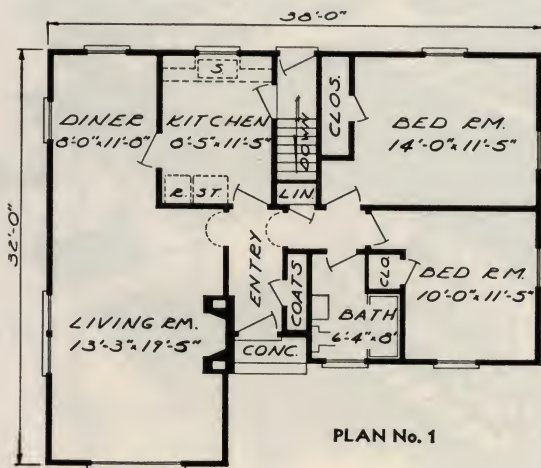

THE TOPEKA

Here is another view of our Topeka, featured on page 50, showing a better view of the patio.

THE PASADENA Compact and Livable

A home that can be placed either way on your lot. Frontage required can be as narrow as forty feet, or when placed the long way on your site, can still occupy a fifty foot lot. In the Plan 1, note especially the entry which gives access to every room in the house. A convenient coat closet near front door is provided in both floor plans. The large, floor-to-ceiling scenic window can be interchanged with the mullion window in the living room, if you prefer. Here is a compact home designed for the small family but incorporating all of the living qualities of the large family ranch style. Write for specifications.

Note the modern use of the color arrangement in this homey living room. The balance and complement of each color harmonizes with the entire decorating scheme. The backgrounds of the flowered prints are carried forth in the occasional chair and in the carpet. Your own selection of color scheme will beautify any Aladdin home of your choice.

Rooms
You
Enjoy...

and
Friends
Admire

There is more than just beauty in the smart kitchen. There is engineered comfort and convenience. With your kitchen so well planned and designed as suggested in our catalog layouts, you can be assured of comfort and convenience. All that is left to you is the addition of your color scheme for the completion of a rich and decorative room of rooms. The rich vibrant tones of the wooden cabinets will complement any color arrangement. Many of our plans have cozy dinettes as shown at the right.

ALADDIN..for Quality ***ALADDIN..for Savings*** ***ALADDIN..for Beauty***

Here's What Just A Few Of Our Friends Say

COMPLETED IN 6 WEEKS

Dear Mr. Sovereign:

Construction on my Aladdin house (the foundation, that is) did not begin until the second week in May. Progress has been rapid and I expect to be able to move in about the first of July.

There have been many favorable and admiring comments, particularly in regard to the quality of the lumber. I have been assured that it would be impossible to get it locally.

I believe I can truly say that the builder has enjoyed his work. His latest word of praise was that the clapboards were "beautiful." I am sure proud of my Aladdin house.—L. T., Saxtons River, Vermont

DID ALL CARPENTER WORK

Dear Sir:

I have built the Hollywood #1 doing all carpentry work myself. I am well pleased with the home. I had a lot of fun building model airplanes when I was younger. All plans are laid out very definite. Whenever some one asks me about building the house, I always say if you can use a hammer and are able to read writing, you can build an Aladdin.

I started building on November 1 of 1957 and moved in August 15, 1958. All my building time was after work from 6:00 P.M. to 10:00 P.M.—F.G.R., Jr., Jermyn, Pennsylvania

OFFERED \$6,000 PROFIT

Dear Sirs:

The construction of my "Shady Lane" is progressing nicely. The aluminum siding I purchased from you is unsurpassed for beauty and simplicity in construction.

I have never been so pleased with any purchase as much as I have been with this beautiful house. Believe it or not, a local contractor even wants to buy it from me at \$6000.00 over and above what the completed cost will be—that is quite a compliment! But this home is not for sale! Thank you again for your time and consideration.—D.H.B., Altoona, Pennsylvania

CARPENTER'S PRAISE

Dear Sir:

We have observed many pre-cut homes in our quest for a home of our own. Even the best carpenters around feel as we do, and that is that your materials are the best to be found. We had consulted with quite a few carpenters and they praised your homes highly.—L. R. J., Castalia, Ohio

PROUD BEYOND WORDS

Dear Sir:

Our Denver #2 arrived by truck on July 8. May we say that whoever is in charge of packing—what a terrific job. It's an art to pack a house into a truck so that one small toothpick couldn't have been wedged in any place.

Mr. Sovereign, words can't tell you how you have helped to fulfill a dream for us. If we can do anything for Aladdin, let us know and we'll do our best to oblige.

In the meantime, please know how excited we are and proud beyond words to hear people say the nice things they do as they drop by to see how we're progressing.

Thank you, and may Aladdin and its fine family enjoy the future as we know we'll enjoy our Aladdin home for years to come.—A. and M. G., Seville, Ohio

MATERIALS THE BEST

Dear Sirs:

I certainly learned a great deal about how a house is built when I built my Aladdin. I developed many new and useful skills which I felt were impossible to the average untrained man. I sincerely want to thank your company for all of its help in providing a very happy and satisfying house for my family.

I would like to compliment you on the material you furnished in my home. I could definitely not duplicate the quality of this material in my area of the country. The Eastern material used in house building is below the grade of material which you furnish.—R. E. V.A., Rotterdam, New York

Complete Names and Addresses on Request. Send for List of Aladdin Homes Near You

Here are facts you should know about the World's Oldest and Largest Manufacturer of Readi-Cut Homes **55** Years Experience

Quality

The Aladdin Name has become a Mark of Quality. All exposed lumber, both inside and out, in every Aladdin House is clear and free from knots and other defects—and is kiln dried. Framing and sheathing lumber is free from any defects that might impair its strength—and is kiln dried. This material will not warp.

When the finest grades of materials are used, you are assured of the highest kind of an investment in your home. We never, in any case, sacrifice quality for price or profit. Aladdin Certified Lumber is guaranteed to be unsurpassed. "NOT HOW CHEAP, BUT HOW GOOD"

What induces us to supply such matchless quality? Our FIFTY-FIVE YEARS' experience has taught us there is no substitute for quality. Aladdin's outstanding reputation of providing higher quality materials than used in the average home, coupled with Aladdin's Guarantee of "Satisfaction or Your Money Back," provides you with positive assurance of a home that will be QUALITY in every sense of the Word. QUALITY ENDURES THRU THE YEARS—AND—QUALITY IS REMEMBERED long after PRICE IS FORGOTTEN.

Buy Direct—No Dealers

You save money when you buy direct from the manufacturer. Aladdin has never, in Fifty-Five Years, employed agents or dealers and there are no agents' or dealers' profits or commissions in the price you pay us. Aladdin Homes can only be bought direct from the Company at Bay City, Michigan.

Not Prefabricated

Aladdin Houses are Readi-cut—NOT Prefabricated. The construction is the same as that used in the best architect-designed, contractor-built house except that we cut all materials in our mill which SAVES TIME, SAVES WASTE, SAVES MONEY. GOOD HOUSES NEVER GROW OLD.

HELPFUL INFORMATION—READ CAREFULLY

FOUNDATION PLANS—are available on receipt of a deposit of \$5.00. Tell us if you will build your home regular or reversed, with siding or brick veneer. Do NOT construct your foundation according to the dimensions shown in catalog floor plan.

PLANS CAN BE REVERSED—without cost. This would place all rooms on the opposite side from that shown in the catalog floor plan.

UTILITY ROOMS—can be incorporated in many of our homes. Basement stairs can be omitted and combined with other areas to form a utility room. Write for definite details on the changes necessary to provide this feature with the house you choose.

Aladdin's "Know-How"

When you send your order for an Aladdin House, the one purchase eliminates the complicated problem of your trying to figure out the necessary amounts of well over one hundred items that you will need to build your home. When building the Aladdin Way, there is only one purchase and it brings you all the materials in the proper amounts, guaranteed to complete your house according to our specifications. NO WASTE, NO OVER-BUYING OF SOME MATERIALS AND UNDER-BUYING OF OTHERS. OUR "KNOW-HOW" WILL SAVE YOU MONEY—TIME—AND WORRY.

You receive a scientifically-designed home, a scientifically-manufactured home and our guarantee to fulfill every promise made to you.

You receive the safeguards of our experience. You are guarded against costly extras. You have our help in keeping costs down. You save many days' time. You save costly waste. You receive everything complete for your home in one shipment. You know exactly what your house will look like when completed. You save all architectural fees. You are assured of prompt shipment and quick erection. You receive a bona-fide guarantee: "COMPLETE SATISFACTION OR YOUR MONEY BACK."

Quantity Buying

Because of the tremendous amount of building materials we purchase each year, we are in a position to buy at the lowest possible prices. The large quantity purchased makes it possible for us to obtain prices far lower than any company or individual who has a demand for only a few homes each year.

Aladdin's Guarantee

We started in business FIFTY-FIVE YEARS ago with the idea of providing homes at a low cost to you, manufactured in our own mills from the finest materials obtainable. We have never deviated from this policy. The reputation we have built up for outstanding quality is our most precious asset. We intend, at all times, to maintain that reputation—to observe strictly the high standards home builders expect from us. What Aladdin promises, Aladdin performs. That is why we give the purchaser of an Aladdin Home the most completely protective guarantee we know of. No one can offer you greater protection than we do when we say: "Satisfaction or Your Money Back."

ROOM SIZES—The sizes shown on our catalog floor plans are net dimensions between finished, plastered walls.

BRICK VENEER—Any Aladdin Home shown in the catalog with siding or shingles on the exterior can be built having a brick veneer exterior, which we do not furnish. Write us for the allowance for the omission of siding, paint, and nails if you wish to veneer the exterior with brick. The following houses are shown with a Brick Veneer exterior: Embassy, Kingsbury, Austin, Wilshire, Brentwood, Catalina, Riviera. If you wish to use siding, write us for prices.

CONCRETE SLAB—Any Aladdin Home can be built on a concrete slab. We omit the materials not needed and give you full credit for them. Write us for further information.

SCENIC WINDOW STYLE 3A

SCENIC WINDOW STYLE 11

SLIDING GLASS PATIO DOORS

OPTIONAL MATERIALS AND EQUIPMENT

Scenic windows illustrated at the left are practical and attractive. They bring the outdoors in as a part of your home. Style No. 3-A has three large stationary upper sash and three gear-operated lower sash. Overall size of the No. 3-A window is approximately 10'6" x 6'6". Style No. 11 window has a stationary center sash with sliding sash on each side. The overall size of the No. 11 window is approximately 9'5" x 5'0". The style window shown in illustrations or plans will be furnished with that particular plan. Substitutions can be made. Write for prices.

GLUMAC SHAKES Instead of wood siding for the outside walls, we can furnish, without extra cost, Red Cedar Glumac Shake Shingles as illustrated on page 56. These wood shakes are laid at wide exposure and bonded to a heavy insulation board to assure a weather-tight fit and maximum insulation. Glumac shakes come in a wide range of attractive colors. Send for color folder.

ARCHES We include in the price for each home square cased openings or materials to build a curved plastered arch where shown in catalog floor plan. Specify the kind you want with your home.

CELLAR WINDOWS We can furnish a complete cellar window unit already assembled, with hardware in place, including glazed sash and the cellar window screen, for either a 2 block high opening or a 3 block high opening. It is not necessary that the windows be shipped before the house as they can easily be set in the foundation wall when your materials arrive. Write for prices.

OAK FLOORING "Select" oak flooring can be furnished in any or all rooms of any Aladdin home. Write us for prices and state in what rooms you wish to use oak flooring.

KITCHEN CABINETS Kitchen cabinets are available in accordance with the catalog floor plan layouts. Our cabinets are precision manufactured of selected Birch by one of the country's finest kitchen cabinet manufacturers.

They are finished in a beautiful Clear Lacquer Finish which is long lasting and easy to clean. The cabinet units are completely assembled, ready to install.

The modern doors with no exposed hardware are already hung and friction catches applied. Cabinets for built-in oven and range units are also available. Shipment is made in sturdy cartons, direct to you from the factory. See page 65. Write for prices.

INSULATION Rock wool insulation 2" thick can be furnished for the sidewalls, and also 3 3/4" thick for the ceiling between the ceiling joists at small additional cost. This insulation comes made up in batts and is moisture and fire resistant, and has a heavy vapor barrier paper backing. Write for descriptive folder and prices.

PATIO DOORS Aluminum sliding glass patio doors are furnished complete with 5/8" insulating glass (Thermopane) and all hardware. Doors are double weatherstripped around sliding sections and interlock when closed. Nylon ball bearing rollers make the sliding operation almost effortless. Units are standard door height and come in widths from 6' to 16'. Write for prices.

FOLDING STAIRWAY Where no attic stairway is shown in the floor plan, in most cases it is possible to install a folding stairway to the attic, usually in the ceiling of the hall. Write for prices. Tell us where you plan to install the stair.

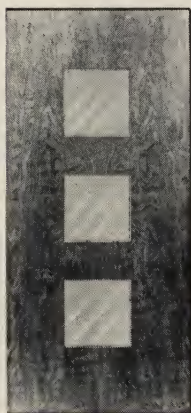

**THE ABOVE ITEMS
ARE FOR SHIPMENT ONLY WITH YOUR HOUSE**

2 Panel

Flush

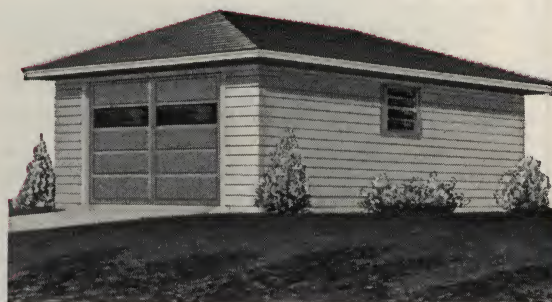

DOORS A Style No. 10 door is provided at the rear of each Aladdin Home. In our specifications we list the style furnished for the front door. If you prefer a different door than that specified, write us.

Our beautiful two-panel Fir door shown above is furnished for all interior openings where doors are shown in the floor plan. If you wish Birch flush doors, we can provide them at a slight extra cost. Write us for prices.

ALADDIN READI-CUT GARAGES

SUBURBAN No. 1—14'x22'
SUBURBAN No. 2—22'x24'

SOVEREIGN No. 1—14'x22'
SOVEREIGN No. 2—22'x24'

Aladdin garages are manufactured in two sizes only—14' x 22' for one car and 22' x 24' for two cars. Garages are furnished in double construction only, that is, with 2 x 4" studding, wall sheathing, 15 lb. felt and siding or shake shingles to match the exterior of your home. We furnish the complete materials except the concrete floor. Roll up 8' x 7' doors as shown above are furnished. We can furnish at extra cost one 16' x 7' double roll up door in place of two 8' x 7' doors for two car garages. Each garage is furnished with two 28 x 16" check rail windows, one for the right wall and one for the left wall. Write for detail specifications. **Garages are not sold separately.** We ship only with Aladdin House orders.

Here Are the Materials Furnished by ALADDIN

ALADDIN SYSTEM GIVES CONTROL OVER YOUR COSTS. You KNOW in advance what the materials for your house will cost you. You KNOW there will be no shortage of materials—nothing forgotten. You KNOW you will not be paying for more materials than will be used and that you will save the price of all “short ends” that are wasted by the old system. You KNOW you will receive high grade lumber, millwork, hardware—Aladdin CERTIFIED MATERIALS. You KNOW everything will be on hand when you want it—all in one shipment and all guaranteed by Aladdin. And you KNOW in advance what your house will look like and what it will be in every way, and you KNOW what your house materials will cost you. KNOWING gives you control—mastery of your money, of materials, of labor and of RESULTS.

ALADDIN READI-CUT HOUSES

ROOF SHEATHING—1" sheathing lumber, cut to fit and laid tight for slate surfaced shingles.

FELT—15 lb. Asphalt Saturated, used between Sub Floor and Finish Floor, between Wall Sheathing and Siding or Shake Shingles, and between Roof Sheathing and Roof Shingles.

ROOF PITCH—Varies with house style.

EAVES—Type as illustrated in catalog. All materials provided necessary for completion. Eave troughs and down spouts not furnished.

ROOF COVERING—Heavy duty 3-in-1 thick-butt asphalt slate surfaced shingles weighing 215 lbs. per square. Necessary flashing included.

CEILING HEIGHT—8' 4" or 8' 0".

OUTSIDE WALLS—Choice of $\frac{5}{8}$ " x 8" bevel siding with metal corners or artistic pre-stained Red Cedar Shake shingles furnished to lay 14" to the weather.

FINISH FLOORING—Tongued and grooved Clear Southern Pine (25/32" thick, with 2 $\frac{3}{8}$ " face) furnished for all rooms except kitchen, bath, lavatory, and utility where shown. $\frac{5}{8}$ " plywood furnished for above-named rooms as a base for tile or linoleum.

OAK FINISH FLOORING—Can be furnished instead of Pine at a slight extra charge. Write for prices.

OUTSIDE FINISH—Furnished in standard lengths and widths. Clear grade. Mitered for gables.

OUTSIDE MOULDINGS—Furnished where required.

DOOR FRAMES—Cut to fit, lock joint construction—bundled—ready to assemble. Complete Weatherstripping furnished for all Outside door frames.

INSIDE DOORS—All hinged doors and sliding doors are 2-panel design of highest grade Douglas Fir. Flush doors optional at small additional cost.

OUTSIDE DOORS—Front door Style as illustrated. Rear door Style No. 10.

WINDOW FRAMES—Cut-to-fit, lock-joint construction, bundled, ready to assemble, our double hung windows have sash that slide up and down, are completely weatherstripped. Sash are removable for easy cleaning. Our horizontal glide windows also have removable sash.

FLOWER BOXES AND WINDOW SHUTTERS—Furnished where shown.

CLOSET SHELVING AND HOOK STRIP—For ALL closets.

WINDOWS—All sash glazed with high quality glass. Style and size as shown in catalog illustration.

INSIDE TRIM—Accurately machined Modern narrow Ranchline design with nosed edge baseboard and base shoe. Beautifully grained Selected Arkansas Soft Pine.

ARCHES—Where arches are shown, we will furnish metal forms to build a curved plastered arch or if you use wall board or plaster board, we will furnish frame and trim for a square cased opening. Tell us the kind of material and thickness you will use when you place your order.

BASEMENT STAIRS—Furnished as shown in plan, cut to fit, and manufactured of the finest quality stock. All stairs are cut, and ready to assemble on the job.

ATTIC ACCESS PANEL—We furnish paneling and inside trim for an opening in the ceiling usually placed in the hall so you can have access to your attic.

PLUMBING PANEL—We provide paneling and inside trim to arrange a panel giving access to your plumbing in your bathroom.

INSIDE DOOR HARDWARE—Latest design tubular locksets with solid brass knobs.

OUTSIDE DOOR HARDWARE—Brass cylinder locksets with solid brass knobs for all outside doors. Keyed alike.

DOOR BUMPERS—Included for all inside and outside doors.

DOOR HINGES—Furnished to match other hardware.

WINDOW HARDWARE—All Check Rail windows furnished with locks and lifts. Proper window hardware furnished for horizontal sliding windows.

NAILS—Furnished in proper size for all work and in a quantity sufficient to complete the home.

LOUVERS—Furnished for gables of proper size to provide sufficient ventilation. Roof louvers furnished for all hip-roof houses and eave ventilators for all houses with wide eave projection.

OUTSIDE PAINT—Three coats furnished for all outside work. First Quality house paint, furnished in choice of colors. Oil, turpentine, putty, etc., furnished in ample quantities.

INTERIOR WOODWORK FINISH—For all doors, windows and interior woodwork, we furnish three coats of quick drying mar-resistant varnish or three coats of interior semi-gloss paint or three coats of interior high gloss paint. Specify type of interior woodwork finish desired when you place your order.

FLOOR FINISH—We furnish three coats of quick drying mar-resistant varnish. When Oak flooring is ordered we furnish natural wood filler and two coats of quick drying mar-resistant varnish.

INTERIOR WALLS AND CEILINGS—Because of the many kinds of lining materials now used, we have not included any lining materials in our prices. Rocklath, plaster, wallboard and plasterboard are available in any locality at about the same price. We recommend that you secure your lining materials from your local mason contractor.

PLASTER GROUNDS—If you plan to plaster your home, tell us when ordering and we will supply plaster grounds. Plaster grounds are wood strips furnished to nail around all inside door openings and at the base of all walls and partitions as a plaster guide for a correct plaster thickness.

ALADDIN BUILDING ESTIMATES

FOOTINGS—We give under "Cubic Yards of Poured Concrete" total number of cubic yards of concrete required for all main footings, column footings, porch footings, terrace floors, chimney footings and concrete steps when shown, also basement floors and floors for all attached garages.

FOUNDATIONS—Under "16" Blocks for Foundation" we give the number of concrete blocks required to construct the foundation according to our foundation plan. This includes porches and terraces where shown; also wall for garages if attached to house. All plans having basement stairs are figured for a foundation wall 10 blocks high. All plans without basement stairs are figured for a main foundation wall 5 blocks high. For foundation plans see page 67.

SQUARE FEET HOUSE AREA

Below is given the square feet of house area for each of our homes. This area given does not include the garage, when shown in floor plans, or porches. It is the square footage of the house itself.

PLASTERING—Under this heading we give you the square yards of plastering surface, or if you use wallboard, the square yards of surface to be covered. The yardage includes all walls and ceiling surface. It does not include walls for any attached garages. All openings are included in figures such as doors and windows to allow for cutting and waste of your plaster base, such as rocklath, or wallboard.

CHIMNEYS—Chimneys and fireplaces are sometimes shown on our plans to suggest a practical location. Since we do not cut the openings in our homes for them, you can change the location or omit them entirely if preferred. The amount of material required for chimneys is as follows:

One 8" x 8" flue chimney, 30 bricks to each foot of height.

Two 8" x 8" flue chimney, 50 bricks to each foot of height.

One 8" x 12" flue chimney, 35 bricks to each foot of height.

Two 8" x 12" flue chimney, 60 bricks to each foot of height.

For mortar allow $\frac{1}{2}$ bbl. cement and $\frac{1}{2}$ cu. yd. sand for each 1000 bricks.

**YOU
BUILD
BETTER
WITH**

dry LUMBER

**NO GUESS WORK WHEN WE SAY
"ALADDIN'S LUMBER IS DRY"**

Our lumber is checked continuously for moisture. Our moisture meter tells us exactly the moisture content and we never use lumber that is not thoroughly dry or seasoned. Aladdin never piles lumber out of doors. All our lumber is stored in our mill and warehouses. Even though our thoroughly dry lumber may be subjected to rain, moisture will penetrate only the surface.

Shown above is the Electronic Moisture meter of advance design. Exact moisture percentages can quickly be ascertained from this instrument. This electronic register is your best insurance against warping, shrinking and all other failures due to improper moisture control.

DRY LUMBER

is stronger, has greater nail holding power, and is more durable; will not shrink, warp or twist.

assures uniform size and minimizes the hazards of decay. (Green lumber will decay.)

gives long, satisfactory service—economical service, greater resistance to wear, stress and strain.

GREEN LUMBER

is in effect raw materials. Green lumber—lumber that has not been properly seasoned—may seem like a bargain if you look only at the price, but placed in your home it is likely to shrink, warp and twist as it dries out. These changes in shape cause joints to pull apart, nails to loosen, walls to get out of plumb, and other structural defects that are a source of unending expense and dissatisfaction. Aladdin's over FIFTY-FIVE years of home building experience gives you absolute assurance that your investment in an Aladdin home will be permanent and lasting. The use of dry lumber means better construction—and a sound investment.
